NOTES ON NEWS OF THE DAY.

THE Republicans of the third Ulster district will nominate a candidate for Assembly at the Pine Bush Hotel in Rochester the 10th inst. And the candidate thus nominated is going to be elected. The third is not a whisky district.

TENNESSEE White Caps have been driving Mormon elders out of the state. This is good for Tennessee. That commonwealth should not be required to endure Mormon elders and White Caps at the same time, whether the driving out means the survival or the extinction of the fittest.

RICHARD WEBB, a young wheelman of Holyoke, Mass., is missing. His wheel and hat were found on the high bridge that crosses the Connecticut from the northern end of Springfield yesterday morning. He is supposed to have taken a "header" from the bridge and plunged into the river.

SULLIVAN, sub-contractor for Snaith in the Assembly ceiling job, was arrested yesterday and held in $50,000 bail. A few days hence another arrest will be made, and afterwards another. This farce will be kept up till after election. And then Hill and Tabor will drop the whole business like a hot potato. They dare not bring the conspirators to trial.

THE Montana Republicans claim the Legislature. They admit that the returns received elect Toole, Democrat, Governor, but expect that those yet to come in will elect Power, Republican. The majority for Carter, Republican, for Congress, is decisive. All the Republican candidates for state offices except Power are elected beyond a doubt.

CHICAGO drank 1,675,000 barrels of beer last year. A statistician finds that this beer at five cents a glass cost the consumers $26,800,000. This sum would have built 11,168 homes at $2,400 each, capable of sheltering one-fifth of Chicago's population. Gov. Hill's favorite philosophy of "personal liberty" is doing a great work in the United States.

THE *North German Gazette* of Berlin thinks the Pan-American Congress an advertisement for attracting the attention of the whole Western hemisphere to "the imposing preponderance of the industrial enterprise and commerce of the United States, with a view to the proposed international exhibition of 1892." We do not know that any American has taken this view, but it is not unlikely that such will be the effect.

THE delegates to the Pan-American Congress took a sail down the Hudson from West Point to New York yesterday, on the United States vessel Yorktown. They had been previously handsomely entertained by Commander Wilson at the Military Academy. All of the delegates stamped as ridiculous the story that their governments were dissatisfied with the election of Mr. Blaine as President of the Congress. Blaine's address in full has been published in Lima and Mexico. Its sentiments are "most cordially approved" in Peru, while in Mexico it is pronounced "the strongest utterance of its class ever enunciated by any American."

THE Hatfield-McCoy feud in the mountains of Eastern Kentucky reached the climax of bloody tragedy last Tuesday when John Hand and Julia McCoy were to be married. Hand was related to the Hatfield gang, but neither he nor the bride's father had taken part in the feud. The wedding was proceeding in the evening, when a volley was fired through the windows by members of the Hatfield party. Groom and bride were killed instantly, and the clergyman who was performing the ceremony was wounded and died in an hour. More than a score of murders have been caused by this feud, and several women have been shot down in cold blood.

THE Democrats of Saratoga county held a convention at Hadley, a wilderness station in the northwest corner of the county, last Saturday. A Sunday school excursion was to travel the same way, so the political delegates bought excursion tickets and traveled on the railroad as good little Sunday school children, thus saving about half their fares. It is needless to say that they were all quite sober when they got off at the station. Our Democratic contemporaries are in the habit of ridiculing "Sunday school politics," but there is little doubt that they will prevail in Saratoga if the good people there have the forethought to get up an excursion on the same day and at the same place that a Democratic convention is to be held.

GOV. HILL told the farmers at the Delaware county fair yesterday how cruelly they had been taxed by the late Republican Legislature. He did not inform them that his vetoes of nearly $2,000,000 of the appropriations would not leave a dollar the more in their pockets, but would pile up a big surplus in the treasury where it would be handy for a Democratic steal. Last year certain Democratic orators went through Delaware county, telling the farmers of the awful burdens with which a Republican protective tariff was loading them. At the election these same farmers gave Harrison 292 more majority than they gave Blaine in 1884, and rolled up a majority against Hill 319 larger than that against him in 1885. Let Mr. Hill keep right on with his Democratic substitutes for the truth.

THE fragments of a dinner pail, found in the wreck of the Scanlan office in New York which was blown up Thursday morning, show that the dynamite was carried into the office beneath a covering of food and set down behind a door. Mahoney, the foreman whose life was sought, found the pail a few minutes before the explosion, and supposing a workman had placed it there, allowed it to remain. While he was at breakfast the explosion occurred. The big hole blown in the floor is exactly beneath the spot where the pail sat. It is related of one of Scanlan's non-Union employes, that he entered by mistake a shop where two Union men were at work. One of them threw a large butcher knife at him. It missed him and stuck in the door. "The holy cause of labor" does not grow in public respect from such incidents.

IN TERRY SHOOTING CASE.

Final Report of San Joaquin County Grand Jurors.

A LAND BOOM AT PIERRE.

People Flocking to the Capital Of South-Dakota.

EXCITEMENT IN HAWAII.

NAGLE CANNOT BE TRIED IN ANY COURT

Grand Jury of Joaquin County Has Presented Final Report.

By Telegraph to The Freeman.

STOCKTON, Cal., Oct. 5.—The Grand Jury of San Joaquin County has presented its final report concerning the case of United States Marshal Nagle. The report says the facts show the killing of Judge Terry was intentional and deliberate, and while the Constitution and laws of the State require that a crime against its laws should be tried thereunder, the accused was taken from the power of the State by a process emanating from the United States Circuit Court. The report continues: "The United States Circuit Court has decided that Nagle cannot be tried by a State Court essentially for a like want of jurisdiction from which it is fair to conclude he cannot be tried in any Court."

TREMENDOUS BOOM AT PIERRE, S. D.

Caused by its Being Selected as Capital—People Celebrating.

By Telegraph to The Freeman.

PIERRE, S. D., Oct. 5.—The election of Pierre as the Capital of South Dakota bids fair to create a tremendous boom here. Strangers are flocking into the City by thousands, every train being loaded with prospectors and speculators. Over $500,000 worth of property changed hands yesterday. Lots which could have been bought a week ago for $100 sold yesterday for $1,000. The people are excited, the town is in a constant hubbub, night and day, and it is impossible to preserve order. The people have been celebrating incessantly for 48 hours. Fort Pierre, across the River, is also crowded with boomers and intended settlers, many of whom have escaped into the reservation, notwithstanding the large force of regulars and Indian police.

A scheme was discovered yesterday of a gang of boomers to sneak across the River at midnight and take possession of the land around Fort Pierre, and thereby capture the town site. Application had been quietly made to the Government for town sites paper. The scheme was thwarted. Military assistance has been telegraphed for, and every attempt will be made to preserve order.

IN THE BUSY FIELD OF POLITICS.

Majority Claimed for Prohibition in North Dakota—Dead Lock in a Convention.

By Telegraph to The Freeman.

FARGO, N. D., Oct. 5.—The *Republican* publishes an estimate of the vote on Prohibition in 30 conties, which shows a net majority for Prohibition of 1,796. These correspond with reports received by J. C. White, Secretary of the North-Dakota Non-Partisan Prohibition Alliance. This, however, is reduced by McIntosh, which gave the majority against the article. That leaves Steel, Greggs, Rolette, Merritt, Billings and Emmons to be heard from, the aggregate vote of which, it is estimated, will be so evenly divided as not materially to change the result. The other counties in the State are unorganized.

BUFFALO, Oct. 5.—The Eighth District Judicial Convention to-day adjourned until Wednesday next in Buffalo without making a nomination. There was no change in the situation at this morning's session. The last vote stood: Barker 14, Potter 9, Scott 6, Lambert 4.

EXCITING RUMOR AT HONOLULU.

Hawaiians Believed the Islands Had Been Annexed to United States.

By Telegraph to The Freeman

SAN FRANCISCO, Oct. 5.—The steamer Australia arrived last evening from Honolulu. H. A. P. Carter, Hawaiian Minister to Washington, and George W. Merrill, Ex-American Minister to Hawaii, were passengers. Considerable excitement was caused among the Hawaiians on September 25 by a rumor that the Hawaiian Ministry had made a treaty annexing the Islands to the United States. The rumor originated from the fact that the proposition to seek full reciprocity between the United States and the Hawaiians has been discussed, but no action has been taken.

THE INTERNATIONAL CONGRESS.

People of South-American States are Greatly Interested Therein.

By Telegraph to The Freeman.

BUENOS AYRES, Oct. 5.—Secretary Blaine's address to the delegates to the International Congress was published in the newspapers of this country. The daily reports of the movements of the delegates are read with much interest.

RIO DE JANEIRO, Oct. 5.—The newspapers throughout Brazil published in full Secretary Blaine's address to the delegates to the International Congress. The public is hopeful of great commercial benefits resulting from the Congress.

Vacancies Filled in the Army.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The three vacancies in the staff departments of the Army were filled to-day by the following appointments: Lieutenant George S. Herit, Eighteenth Infantry, to be Assistant Quartermaster, with the rank of Captain; Lieutenant Henry B. Osgood, Third Artillery and General S. W. Alexander, of Iowa, to be Commissaries in the Subsistence Department with the rank of Captain.

Prairie Fire in Iowa.

By Telegraph to The Freeman.

SPIRIT LAKE, Ia., Oct. 5.—A prairie fire started several miles east of here yesterday and has been burning ever since. Driven by a strong wind from the south it has swept over a great portion of Dickinson County and seems to be beyond control. The damage already done is very heavy. A great deal of corn in the field and grain in stock has been destroyed, and probably some farm houses.

Large Reward for a Murderer.

By Telegraph to The Freeman.

ST. JOHN, N. B., Oct. 5.—The New-Brunswick Government and City authorities each offer a reward of $1,000 for the discovery of the person or persons who sent candies loaded with strychnine to Mrs. McRae. The case is the all-absorbing topic here and wild stories of other attempts at poisoning are in circulation.

What Excites Base Ballists.

By Telegraph to The Freeman.

CLEVELAND, O., Oct. 5.—It is understood that Pitcher Clarkson, of the Bostons, has offered the Cleveland battery for this afternoon $500 cash providing they win to-day's game from New-York. The report has excited base ball circles to the highest pitch.

THE PARTING WITH BABY BEATRICE.

Mrs. Hamilton's Tragic Actions When Mrs. Rupp Took the Infant.

By Telegraph to The Freeman.

MAYS LANDING, N. J., Oct. 5.—When Mrs. Rupp entered Mrs. Hamilton's room here yesterday to take away Baby Beatrice Mrs. Hamilton was playing with her, and she fell in a rage when her visitor's errand was announced. She held the child tightly in her arms and refused to give her up. "You shall not take my child away from me," she cried. "It is the only living being in the world who cares for me." Mrs. Rupp summoned Mrs. Johnson, the Sheriff's wife and a maid employed in the house. After exerting their united strength the three women wrenched the baby from Mrs. Hamilton and one of them ran with her out of the room while the other two kept Mrs. Hamilton from following. "Oh, Beatrice, Beatrice, my child!" cried Mrs. Hamilton, stretching out her arms yearningly as the door closed. Then she fell to the floor in a swoon. Mrs. Johnson thought it best to keep a watch on her until late last evening. Mrs. Hamilton said repeatedly she had not a single person in the world whom she could call a friend. Several times she threatened to take her life. As the evening wore on she became quieter. What probably increased her grief was the serving of the summons in the suit for the annullment of her marriage.

Mrs. Hamilton left here at 4:30 o'clock this morning in charge of Sheriff Johnson for the penitentiary at Trenton.

SUIT AGAINST A TELEGRAPH COMPANY

Brought by the Boston Safe Deposit Company—What is Alleged.

By Telegraph to The Freeman.

HARTFORD, Conn., Oct. 5.—The Boston Safe Deposit Trust Company was the complainant in the United States Circuit Court here yesterday in a foreclosure suit against the American Rapid Telegraph Company. There was a distinguished array of counsel. The Trust Company sues as Trustee for the holders of $3,000,000 of bonds, on which interest has been defaulted. The Receiver of the Rapid Company claims that it was illegal to exchange the stock of the Company for its bonds, there was no consideration to sustain the mortgage and bonds issued, and the transaction was void as against public policy. The mortgage was executed and the bonds issued in pursuance of a plan entered into between the American Rapid and the Bankers' & Merchants' Telegraph Companies, under which the latter was to secure control of the Rapid and the stockholders of the Rapid were to transfer their stock to the Bankers' & Merchants' and take in exchange the bonds on which the Trust Company brings suit.

GANG OF BURGLARS BROKEN UP.

The Result of a Public Meeting Held in Macon, Missouri.

By Telegraph to The Freeman.

MACON, Mo., Oct. 5.—For two months past there have occurred here an extraordinary number of burglaries. Jewelry and money to the amount of hundreds of dollars have been stolen. A citizens' meeting was held last Monday to consider the best means of detecting the burglaries. Harry Gray, a 12-year-old Negro boy who had been suspected of being implicated in the crimes, was called before it. He confessed that he was a member of a gang of young burglars organized two months ago. Matthew Brown, aged 17 years, pleaded guilty to four charges. He was sentenced to the penitentiary for 10 years on each charge, or 40 years in all. Elder Tidings also pleaded guilty to four charges. He was but 13 years old and the Judge only gave him two years in all. James Guy pleaded to one charge. He got 10 years. The cases of four others will be tried next week.

WHAT N. Y. BANK REPORT SHOWS.

The Reserve Held Less Than the Legal Requirements Call For.

By Telegraph to The Freeman

NEW-YORK, Oct. 5.—For the first time since the week following the May panic of 1884 the Bank Statement published to-day shows the reserve held to be less than the 25 per cent. of deposits required by the National Banking Law. The deposits amount to $412,273,800 against which only $101,400,400 is held in reserve. The legal requirement is $103,068,450. The deficit is almost wholly caused by the drain of money to the West and South where over $6,000,000 was shipped last week and almost as much went in the week preceding. The statement staggered the stock market when it came out just before the close, but as nearly all the operators had taken the bull side, they endeavored to resist any rush to sell and were partially successful. The exports of specie from this port last week amounted to $2,149,000; imports $70,000.

Glass Blowers' Strike Settled.

By Telegraph to The Freeman.

BALTIMORE, Oct 5.—The strike of the window-light glass blowers, which began last June and has seriously affected manufacturers and 5,000 employes, most of whom are located in New-York, New Jersey, Pennsylvania and Maryland, was settled here to-day by delegates representing both sides. A scale to continue one year was signed.

Dividend for Albion Bank Creditors.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The Comptroller of the Currency has declared a first dividend of 28¼ per cent. in favor of the creditors of the First National Bank of Albion, N. Y., on claims proved amounting to $385,822. This bank failed on August 26, 1884.

BOLD HIGHWAYMEN IN KANSAS CITY.

Man Attacked in Front of His Own Home Last Night.

By Telegraph to the Freeman.

KANSAS CITY, Mo., Oct. 5.—William P. Rogers, General Agent for Missouri & Kansas of the Equitable Life Insurance Company, of Iowa, last night was shot by a footpad in front of his own home and dangerously wounded. A man seized Mr. Rogers by the arms, bending them backward while another thrust a pistol in his face. The latter demanded his money. Mr. Rogers jerked his arms from the grasp of the man behind and brushed aside the pistol held by the man in front. Both robbers then stepped aside and one discharged his pistol, it being held so close to Mr. Rogers' face that all of his left side was badly powder-burned. The bullet entered the right cheek and passed through to the left. Walking quietly away the foot-pads turned and shot again at the wounded man. The shot did no harm. The robbers escaped.

ELECTRIC LIGHT CASE DISMISSED.

It was in Relation to the Fibrous Carbon or Incandescent Conductor.

By Telegraph to The Freeman.

PITTSBURG, Pa., Oct. 5.—In the United States Court to-day Justice Bradley, of the Supreme Court, handed down an opinion dismissing the famous electric light case of Westinghouse against Edison. The suit was brought two years ago by the Westinghouse interests against the McKeesport or Edison Electric Light Company, to restrain defendants from using the fibrous carbon or incandescent conductor in the air-tight globe. The point at issue was the form and substance of the conductors. It was claimed by the plaintiffs that they had been granted a patent on the fibrous carbon, while upon the other hand the Edison interests claimed they had filed an application for a patent a month before the application of the plaintiff.

The Court holds that the claim to priority of invention in the fibrous carbon filament is not valid as Edison had accomplished the result before Sawyer, Mann, or Westinghouse.

THE PAN-AMERICAN EXCURSIONISTS.

Visit Paid to the Central High School in Cultured Boston.

By Telegraph to The Freeman.

FALL RIVER, Mass., Oct. 3.—The Pan-American excursionists left Fall River for Boston this morning.

BOSTON, Oct. 5.—The Pan-American excursionists arrived here at 9:05 A. M. They were welcomed by the Mayor and were taken in carriages to the Hotel Vendome. Afterwards the party again entered the carriages and started on a tour of inspection. The first stop was at the Central High School for Boys. The visitors were welcomed by President Gallagher, of the School Board, and escorted through the building. The day was a holiday, but many pupils had voluntarily come to school. The pupils were seen at work in numerous departments and their proficiency pleased the visitors. An exhibition military drill was given by 600 boys. The excursionists afterwards took a train for Waltham.

Fatal Result of a Quarrel.

By Telegraph to The Freeman.

WOONSOCKET, R. I., Oct. 5.—Henry Andrews, a large coal dealer and owner of the cotton mills at Farnumsville, Mass., died here to-day, aged 50. On September 27 he quarreled over a business matter with William Blanchard, also a well known business man. Blanchard knocked Andrews down with a stick, inflicting a wound from the effects of which, it is supposed, blood poisoning and death ensued. The authorities are investigating the case. Andrews and his family were, during his illness, disposed to exonerate Blanchard. Blanchard has been arrested.

Alleged Violation of an Injunction.

By Telegraph to The Freeman.

CHICAGO, Oct. 5.—In Judge Shephard's Court this morning Broker Wallace filed an affidavit stating that the International Packing Company had violated the injunction served upon them yesterday. Wallace had contracted to buy 250 barrels of pork of the Company. In spite of the order of the Court restraining delivery of the pork, the Company offered to make the delivery, and upon Wallace's refusing the tender sold the pork at auction for $10.50 per barrel.

Complaint Against a Railroad.

By Telegraph to The Freeman.

ALBANY, N. Y., Oct. 5.—The State Railroad Commissioners will give a hearing on Wednesday, October 16, at 10 o'clock, in the Board of Supervisors' room in Elmira, on the complaint of James M. Roe, of that City, against the Erie Railroad, asking that the culverts under the road bridge over the Chemung River be opened, so that the cause of the backing up of the water during freshets may be disposed of.

Costs of Parnell Commission.

By Cable to The Freeman.

LONDON, Oct. 5.—The legal costs on the Irish side of the Parnell Commission, including the expenses for witnesses and reporters, are fully covered by the indemnity fund. Sir Charles Russell received £1,000 for preparing the briefs, in addition to £50 daily. Messrs. Reid and Lockwood each received one-half of those amounts. The expenses of the *Times* largely exceed those of the Irish side.

Another Strike in London.

By Cable to The Freeman.

LONDON, Oct. 5.—The laborers employed in the wool ware-houses on the London docks have struck, owing, as they claim, to the preference given to "black legs" by the employers. Burns and Tillett, the labor leaders, are trying to arrange the trouble but it is feared the strike will spread.

An Engagement Announced.

By Telegraph to The Freeman.

BINGHAMTON, N. Y., Oct. 5—The engagement of General James Otis Woodward, Grand Commander of the Patriarchs Militant, Department of New-York, division of the Atlantic, to Miss Edith Jones, daughter of Lieutenant-Governor Jones, of this City, is announced here to-day.

STEAMSHIPS COLLIDE.

State of Georgia's Bow Stove In—One Man Killed.

NAVASSA ISLAND MURDERS.

Warrants Issued for Negroes By U. S. Circuit Court.

DOINGS OF THE MORMONS.

COLLIDED WITH THE STEAMER AGATE.

State of Georgia Had Its Bows Stove In—One Man Killed.

By Cable to The Freeman.

LONDON, Oct. 5.—The State Line steamer State of Georgia, from Glasgow for New-York, has returned to the Clyde, having collided with the steamer Agate. Its bows are stove. One man was killed.

LATER.—The State of Georgia has arrived at Greenock. Its damage is all above the water line. The vessel with which it collided is the coasting steamer Agate. A heavy fog prevailed at the time. The Agate struck the Georgia on the port bow with great force, smashing five of the latter's plates and 10 of its frames. Several of the crew lying in their bunks had narrow escapes. One man was seriously injured. The name of the man killed was McGarrity. The Agate's forecastle head was smashed.

WARRANTS ISSUED FOR THE NEGROES

Concerned in Navassa Island Murder—Authority of the United States, Etc.

By Telegraph to The Freeman.

BALTIMORE, Oct. 5.—A warrant was issued by Judge Bond, of the United States Circuit Court, yesterday for the arrest of the Negroes concerned in the Navassa Island murder. United States Marshal Cairnes made return to the warrant that he was powerless to make the arrests, whereupon Judge Bond certified to President Harrison the facts of the case, and they will be laid before the President by counsel for the receivers for his action. The Island comes under the jurisdiction of the United States in consequence of its discovery in 1856 by Captain Peter Duncan, who took the proper action whereby the United States extended its protective power over the Island, by proclamation, etc. Captain Duncan sold the Island to Captain E. K. Cooper and by various transfers it afterwards became the property of the Navassa Phosphate Company. The revised statutes of the United States hold a murder committed on the Island the same as if committed on a vessel on the high seas.

MORMONS HOLDING A CONVENTION.

They Believe Ecclesiastical Supremacy Will be Lost with Political Power.

By Telegraph to The Freeman.

SALT LAKE CITY, Oct. 5.—The Sixtieth General Semi-Annual Conference of the Mormon Church began yesterday. Wilfred Woodruff, President of the Church, presided and George Q. Cannon, of the first Presidency, was present. There was also present five of the 12 Apostles of the church and a great number of other high church officials. President Woodruff, in his address, said the Mormon Church had been established by God, and no power on earth could stay its progress. Elder Jacob Gates, Elder Henry, Apostle Grant and Elder Abram spoke in a similar vein. The Church authorities are embracing every opportunity to keep the people in line politically for they fear that with the loss of political power ecclesiastical supremacy would be greatly weakened.

CRASH ON A PENNSYLVANIA RAILROAD.

Rear End of a Detached Freight Crashed Into a Passenger Train.

By Telegraph to The Freeman.

CORRY, Pa., Oct. 5.—The rear end of a freight on the Western New-York & Pennsylvania Railroad broke loose as the train was climbing the summit four miles south of here this morning, and rushing down the hill, crashed into the morning passenger train which was following, with terrific force. All the passengers were bruised, some injured seriously but none fatally. Those seriously injured are Conductor Fox, bad scalp wound; Baggageman L. W. Bessie, of Oil City, hand bruised; Engineer Sullivan, of Mayville, badly cut and bruised and leg broken; William Miner, of Spring Creek, leg smashed.

In Episcopal Convention To-Day.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The General Convention of the Protestant Episcopal Church resumed its session to-day. A memorial from the colored members of the church was presented to the House of Deputies in which it was asked that they have equal representation. Resolution Twelve again coming up, the Rev. Dr. J. J. Baulex, of Arkansas, spoke against it. He argued that the Nicene Creed presented to the Convention was not a Catholic Creed, but a Roman Creed and should not be accepted. Dr. Kedney, of Michigan, favored the resolution. The Rev. R. A. Holland, of Missouri; the Rev. Dr. G. M. Christian, of Newark, N. J.; the Rev. James P. Vaulx, of Arkansas, and Stephen P. Noah, lay delegate for the New-York Diocese, favored the resolution. The resolution was adopted. This vote makes the Nicene Creed part of the Prayer Book, and also part of the service on Feast Days.

Eight Counterfeiters Captured.

By Telegraph to The Freeman.

INDIANAPOLIS, Ind., Oct. 5.—Two gangs of counterfeiters were surrounded near Paoli yesterday by United States officers. Eight men were captured. Several months ago spurious silver dollars were put on the market in this vicinity. A trusted man ingratiated himself into the confidence of the counterfeiters. There are 15 men in all engaged in the making of the counterfeit coin.

In Favor of Arbitration.

By Cable to The Freeman.

LONDON, Oct. 5.—Sir G. O. Trevelyan, in a letter to the Arbitration Society, eulogizes the movement championed by the Society as in the highest degree practical. In his opinion no single public act ever conferred upon humanity benefits so far-reaching and so permanent as the Geneva Arbitration between America and Great Britain.

Action in Cronin Murder Case.

By Telegraph to The Freeman.

CHICAGO, Oct. 5.—In court this morning, States Attorney Longenecker made a motion that the case against Frank Woodruff, one of the men indicted for the murder of Dr. Cronin, be continued until the next term. This was strenuously opposed by counsel for Woodruff. Judge McConnell, however, granted the motion.

But Few Visitors.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—There were very few visitors at the White House to-day. Ex-Governor Warmoth, Collector of Customs at New-Orleans, was the only one accorded an interview with the President, who was reported to be very busy with official matters

NOTES ON NEWS OF THE DAY.

THE Republicans of the third Ulster district will nominate a candidate for Assembly at the Pine Bush Hotel in Rochester the 10th inst. And the candidate thus nominated is going to be elected. The third is not a whisky district.

TENNESSEE White Caps have been driving Mormon elders out of the state. This is good for Tennessee. That commonwealth should not be required to endure Mormon elders and White Caps at the same time, whether the driving out means the survival or the extinction of the fittest.

RICHARD WEBB, a young wheelman of Holyoke, Mass., is missing. His wheel and hat were found on the high bridge that crosses the Connecticut from the northern end of Springfield yesterday morning. He is supposed to have taken a "header" from the bridge and plunged into the river.

SULLIVAN, sub-contractor for Snaith in the Assembly ceiling job, was arrested yesterday and held in $50,000 bail. A few days hence another arrest will be made, and afterwards another. This farce will be kept up till after election. And then Hill and Tabor will drop the whole business like a hot potato. They dare not bring the conspirators to trial.

THE Montana Republicans claim the Legislature. They admit that the returns received elect Toole, Democrat, Governor, but expect that those yet to come in will elect Power, Republican. The majority for Carter, Republican, for Congress, is decisive. All the Republican candidates for state offices except Power are elected beyond a doubt.

CHICAGO drank 1,675,000 barrels of beer last year. A statistician finds that this beer at five cents a glass cost the consumers $26,800,000. This sum would have built 11,168 homes at $2,400 each, capable of sheltering one-fifth of Chicago's population. Gov. Hill's favorite philosophy of "personal liberty" is doing a great work in the United States.

THE *North German Gazette* of Berlin thinks the Pan-American Congress an advertisement for attracting the attention of the whole Western hemisphere to "the imposing preponderance of the industrial enterprise and commerce of the United States, with a view to the proposed international exhibition of 1892." We do not know that any American has taken this view, but it is not unlikely that such will be the effect.

THE delegates to the Pan-American Congress took a sail down the Hudson from West Point to New York yesterday, on the United States vessel Yorktown. They had been previously handsomely entertained by Commander Wilson at the Military Academy. All of the delegates stamped as ridiculous the story that their governments were dissatisfied with the election of Mr. Blaine as President of the Congress. Blaine's address in full has been published in Lima and Mexico. Its sentiments are "most cordially approved" in Peru, while in Mexico it is pronounced "the strongest utterance of its class ever enunciated by any American."

THE Hatfield-McCoy feud in the mountains of Eastern Kentucky reached the climax of bloody tragedy last Tuesday when John Hand and Julia McCoy were to be married. Hand was related to the Hatfield gang, but neither he nor the bride's father had taken part in the feud. The wedding was proceeding in the evening, when a volley was fired through the windows by members of the Hatfield party. Groom and bride were killed instantly, and the clergyman who was performing the ceremony was wounded and died in an hour. More than a score of murders have been caused by this feud, and several women have been shot down in cold blood.

THE Democrats of Saratoga county held a convention at Hadley, a wilderness station in the northwest corner of the county, last Saturday. A Sunday school excursion was to travel the same way, so the political delegates bought excursion tickets and traveled on the railroad as good little Sunday school children, thus saving about half their fares. It is needless to say that they were all quite sober when they got off at the station. Our Democratic contemporaries are in the habit of ridiculing "Sunday school politics," but there is little doubt that they will prevail in Saratoga if the good people there have the forethought to get up an excursion on the same day and at the same place that a Democratic convention is to be held.

GOV. HILL told the farmers at the Delaware county fair yesterday how cruelly they had been taxed by the late Republican Legislature. He did not inform them that his vetoes of nearly $2,000,000 of the appropriations would not leave a dollar the more in their pockets, but would pile up a big surplus in the treasury where it would be handy for a Democratic steal. Last year certain Democratic orators went through Delaware county, telling the farmers of the awful burdens with which a Republican protective tariff was loading them. At the election these same farmers gave Harrison 292 more majority than they gave Blaine in 1884, and rolled up a majority against Hill 319 larger than that against him in 1885. Let Mr. Hill keep right on with his Democratic substitutes for the truth.

THE fragments of a dinner pail, found in the wreck of the Scanlan office in New York which was blown up Thursday morning, show that the dynamite was carried into the office beneath a covering of food and set down behind a door. Mahoney, the foreman whose life was sought, found the pail a few minutes before the explosion, and supposing a workman had placed it there, allowed it to remain. While he was at breakfast the explosion occurred. The big hole blown in the floor is exactly beneath the spot where the pail sat. It is related of one of Scanlan's non-Union employes, that he entered by mistake a shop where two Union men were at work. One of them threw a large butcher knife at him. It missed him and stuck in the door. "The holy cause of labor" does not grow in public respect from such incidents.

IN TERRY SHOOTING CASE.

Final Report of San Joaquin County Grand Jurors.

A LAND BOOM AT PIERRE.

People Flocking to the Capital Of South-Dakota.

EXCITEMENT IN HAWAII.

NAGLE CANNOT BE TRIED IN ANY COURT

Grand Jury of Joaquin County Has Presented Final Report.

By Telegraph to The Freeman.

STOCKTON, Cal., Oct. 5.—The Grand Jury of San Joaquin County has presented its final report concerning the case of United States Marshal Nagle. The report says the facts show the killing of Judge Terry was intentional and deliberate, and while the Constitution and laws of the State require that a crime against its laws should be tried thereunder, the accused was taken from the power of the State by a process emanating from the United States Circuit Court. The report continues: "The United States Circuit Court has decided that Nagle cannot be tried by a State Court essentially for a like want of jurisdiction from which it is fair to conclude he cannot be tried in any Court."

TREMENDOUS BOOM AT PIERRE, S. D.

Caused by its Being Selected as Capital—People Celebrating.

By Telegraph to The Freeman.

PIERRE, S. D., Oct. 5.—The election of Pierre as the Capital of South Dakota bids fair to create a tremendous boom here. Strangers are flocking into the City by thousands, every train being loaded with prospectors and speculators. Over $500,000 worth of property changed hands yesterday. Lots which could have been bought a week ago for $100 sold yesterday for $1,000. The people are excited, the town is in a constant hubbub, night and day, and it is impossible to preserve order. The people have been celebrating incessantly for 48 hours. Fort Pierre, across the River, is also crowded with boomers and intended settlers, many of whom have escaped into the reservation, notwithstanding the large force of regulars and Indian police.

A scheme was discovered yesterday of a gang of boomers to sneak across the River at midnight and take possession of the land around Fort Pierre, and thereby capture the town site. Application had been quietly made to the Government for town sites paper. The scheme was thwarted. Military assistance has been telegraphed for, and every attempt will be made to preserve order.

IN THE BUSY FIELD OF POLITICS.

Majority Claimed for Prohibition in North Dakota—Dead Lock in a Convention.

By Telegraph to The Freeman.

FARGO, N. D., Oct. 5.—The *Republican* publishes an estimate of the vote on Prohibition in 30 counties, which shows a net majority for Prohibition of 1,796. These correspond with reports received by J. C. White, Secretary of the North-Dakota Non-Partisan Prohibition Alliance. This, however, is reduced by McIntosh, which gave the majority against the article. That leaves Steel, Greggs, Rolette, Merritt, Billings and Emmons to be heard from, the aggregate vote of which, it is estimated, will be so evenly divided as not materially to change the result. The other counties in the State are unorganized.

BUFFALO, Oct. 5.—The Eighth District Judicial Convention to-day adjourned until Wednesday next in Buffalo without making a nomination. There was no change in the situation at this morning's session. The last vote stood: Barker 14, Potter 9, Scott 6, Lambert 4.

EXCITING RUMOR AT HONOLULU.

Hawaiians Believed the Islands Had Been Annexed to United States.

By Telegraph to The Freeman

SAN FRANCISCO, Oct. 5.—The steamer Australia arrived last evening from Honolulu. H. A. P. Carter, Hawaiian Minister to Washington, and George W. Merrill, Ex-American Minister to Hawaii, were passengers. Considerable excitement was caused among the Hawaiians on September 25 by a rumor that the Hawaiian Ministry had made a treaty annexing the Islands to the United States. The rumor originated from the fact that the proposition to seek full reciprocity between the United States and the Hawaiians has been discussed, but no action has been taken.

THE INTERNATIONAL CONGRESS.

People of South-American States are Greatly Interested Therein.

By Telegraph to The Freeman.

BUENOS AYRES, Oct. 5.—Secretary Blaine's address to the delegates to the International Congress was published in the newspapers of this country. The daily reports of the movements of the delegates are read with much interest.

RIO DE JANEIRO, Oct. 5.—The newspapers throughout Brazil published in full Secretary Blaine's address to the delegates to the International Congress. The public is hopeful of great commercial benefits resulting from the Congress.

Vacancies Filled in the Army.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The three vacancies in the staff departments of the Army were filled to-day by the following appointments: Lieutenant George S. Herit, Eighteenth Infantry, to be Assistant Quartermaster, with the rank of Captain; Lieutenant Henry B. Osgood, Third Artillery and General S. W. Alexander, of Iowa, to be Commissaries in the Subsistence Department with the rank of Captain.

Prairie Fire in Iowa.

By Telegraph to The Freeman.

SPIRIT LAKE, Ia., Oct. 5.—A prairie fire started several miles east of here yesterday and has been burning ever since. Driven by a strong wind from the south it has swept over a great portion of Dickinson County and seems to be beyond control. The damage already done is very heavy. A great deal of corn in the field and grain in stock has been destroyed, and probably some farm houses.

Large Reward for a Murderer.

By Telegraph to The Freeman.

ST. JOHN, N. B., Oct. 5.—The New-Brunswick Government and City authorities each offer a reward of $1,000 for the discovery of the person or persons who sent candies loaded with strychnine to Mrs. McRae. The case is the all-absorbing topic here and wild stories of other attempts at poisoning are in circulation.

What Excites Base Ballists.

By Telegraph to The Freeman.

CLEVELAND, O., Oct. 5.—It is understood that Pitcher Clarkson, of the Bostons, has offered the Cleveland battery for this afternoon $500 cash providing they win to-day's game from New-York. The report has excited base ball circles to the highest pitch.

THE PARTING WITH BABY BEATRICE.

Mrs. Hamilton's Tragic Actions When Mrs. Rupp Took the Infant.

By Telegraph to The Freeman.

MAYS LANDING, N. J., Oct. 5.—When Mrs. Rupp entered Mrs. Hamilton's room here yesterday to take away Baby Beatrice Mrs. Hamilton was playing with her, and she fell in a rage when her visitor's errand was announced. She held the child tightly in her arms and refused to give her up. "You shall not take my child away from me," she cried. "It is the only living being in the world who cares for me." Mrs. Rupp summoned Mrs. Johnson, the Sheriff's wife and a maid employed in the house. After exerting their united strength the three women wrenched the baby from Mrs. Hamilton and one of them ran with her out of the room while the other two kept Mrs. Hamilton from following. "Oh, Beatrice, Beatrice, my child!" cried Mrs. Hamilton, stretching out her arms yearningly as the door closed. Then she fell to the floor in a swoon. Mrs. Johnson thought it best to keep a watch on her until late last evening. Mrs. Hamilton said repeatedly she had not a single person in the world whom she could call a friend. Several times she threatened to take her life. As the evening wore on she became quieter. What probably increased her grief was the serving of the summons in the suit for the annullment of her marriage.

Mrs. Hamilton left here at 4:30 o'clock this morning in charge of Sheriff Johnson for the penitentiary at Trenton.

SUIT AGAINST A TELEGRAPH COMPANY

Brought by the Boston Safe Deposit Company—What is Alleged.

By Telegraph to The Freeman.

HARTFORD, Conn., Oct. 5.—The Boston Safe Deposit Trust Company was the complainant in the United States Circuit Court here yesterday in a foreclosure suit against the American Rapid Telegraph Company. There was a distinguished array of counsel. The Trust Company sues as Trustee for the holders of $3,000,000 of bonds, on which interest has been defaulted. The Receiver of the Rapid Company claims that it was illegal to exchange the stock of the Company for its bonds, there was no consideration to sustain the mortgage and bonds issued, and the transaction was void as against public policy. The mortgage was executed and the bonds issued in pursuance of a plan entered into between the American Rapid and the Bankers' & Merchants' Telegraph Companies, under which the latter was to secure control of the Rapid and the stockholders of the Rapid were to transfer their stock to the Bankers' & Merchants' and take in exchange the bonds on which the Trust Company brings suit.

GANG OF BURGLARS BROKEN UP.

The Result of a Public Meeting Held in Macon, Missouri.

By Telegraph to The Freeman.

MACON, Mo., Oct. 5.—For two months past there have occurred here an extraordinary number of burglaries. Jewelry and money to the amount of hundreds of dollars have been stolen. A citizens' meeting was held last Monday to consider the best means of detecting the burglaries. Harry Gray, a 12-year-old Negro boy who had been suspected of being implicated in the crimes, was called before it. He confessed that he was a member of a gang of young burglars organized two months ago. Matthew Brown, aged 17 years, pleaded guilty to four charges. He was sentenced to the penitentiary for 10 years on each charge, or 40 years in all. Elder Tidings also pleaded guilty to four charges. He was but 13 years old and the Judge only gave him two years in all. James Guy pleaded to one charge. He got 10 years. The cases of four others will be tried next week.

WHAT N. Y. BANK REPORT SHOWS.

The Reserve Held Less Than the Legal Requirements Call For.

By Telegraph to The Freeman

NEW-YORK, Oct. 5.—For the first time since the week following the May panic of 1884 the Bank Statement published to-day shows the reserve held to be less than the 25 per cent. of deposits required by the National Banking Law. The deposits amount to $412,273,800 against which only $101,400,400 is held in reserve. The legal requirement is $103,068,450. The deficit is almost wholly caused by the drain of money to the West and South where over $6,000,000 was shipped last week and almost as much went in the week preceding. The statement staggered the stock market when it came out just before the close, but as nearly all the operators had taken the bull side, they endeavored to resist any rush to sell and were partially successful. The exports of specie from this port last week amounted to $2,149,000; imports $70,000.

Glass Blowers' Strike Settled.

By Telegraph to The Freeman.

BALTIMORE, Oct 5.—The strike of the window-light glass blowers, which began last June and has seriously affected manufacturers and 5,000 employes, most of whom are located in New-York, New Jersey, Pennsylvania and Maryland, was settled here to-day by delegates representing both sides. A scale to continue one year was signed.

Dividend for Albion Bank Creditors.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The Comptroller of the Currency has declared a first dividend of 28½ per cent. in favor of the creditors of the First National Bank of Albion, N. Y., on claims proved amounting to $385,822. This bank failed on August 26, 1884.

BOLD HIGHWAYMEN IN KANSAS CITY.

Man Attacked in Front of His Own Home Last Night.

By Telegraph to the Freeman.

KANSAS CITY, Mo., Oct. 5.—William P. Rogers, General Agent for Missouri & Kansas of the Equitable Life Insurance Company, of Iowa, last night was shot by a footpad in front of his own home and dangerously wounded. A man seized Mr. Rogers by the arms, bending them backward while another thrust a pistol in his face. The latter demanded his money. Mr. Rogers jerked his arms from the grasp of the man behind and brushed aside the pistol held by the man in front. Both robbers then stepped aside and one discharged his pistol, it being held so close to Mr. Rogers' face that all of his left side was badly powder-burned. The bullet entered the right cheek and passed through to the left. Walking quietly away the foot-pads turned and shot again at the wounded man. The shot did no harm. The robbers escaped.

ELECTRIC LIGHT CASE DISMISSED.

It was in Relation to the Fibrous Carbon or Incandescent Conductor.

By Telegraph to The Freeman.

PITTSBURG, Pa., Oct. 5.—In the United States Court to-day Justice Bradley, of the Supreme Court, handed down an opinion dismissing the famous electric light case of Westinghouse against Edison. The suit was brought two years ago by the Westinghouse interests against the McKeesport or Edison Electric Light Company, to restrain defendants from using the fibrous carbon or incandescent conductor in the air-tight globe. The point at issue was the form and substance of the conductors. It was claimed by the plaintiffs that they had been granted a patent on the fibrous carbon, while upon the other hand the Edison interests claimed they had filed an application for a patent a month before the application of the plaintiff.

The Court holds that the claim to priority of invention in the fibrous carbon filament is not valid as Edison had accomplished the result before Sawyer, Mann, or Westinghouse.

THE PAN-AMERICAN EXCURSIONISTS.

Visit Paid to the Central High School in Cultured Boston.

By Telegraph to The Freeman.

FALL RIVER, Mass., Oct. 3.—The Pan-American excursionists left Fall River for Boston this morning.

BOSTON, Oct. 5.—The Pan-American excursionists arrived here at 9:55 A. M. They were welcomed by the Mayor and were taken in carriages to the Hotel Vendome. Afterwards the party again entered the carriages and started on a tour of inspection. The first stop was at the Central High School for Boys. The visitors were welcomed by President Gallagher, of the School Board, and escorted through the building. The day was a holiday, but many pupils had voluntarily come to school. The pupils were seen at work in numerous departments and their proficiency pleased the visitors. An exhibition military drill was given by 600 boys. The excursionists afterwards took a train for Waltham.

Fatal Result of a Quarrel.

By Telegraph to The Freeman.

WOONSOCKET, R. I., Oct. 5.—Henry Andrews, a large coal dealer and owner of the cotton mills at Farnumsville, Mass., died here to-day, aged 50. On September 27 he quarreled over a business matter with William Blanchard, also a well known business man. Blanchard knocked Andrews down with a stick, inflicting a wound from the effects of which, it is supposed, blood poisoning and death ensued. The authorities are investigating the case. Andrews and his family were, during his illness, disposed to exonerate Blanchard. Blanchard has been arrested.

Alleged Violation of an Injunction.

By Telegraph to The Freeman.

CHICAGO, Oct. 5.—In Judge Shephard's Court this morning Broker Wallace filed an affidavit stating that the International Packing Company had violated the injunction served upon them yesterday. Wallace had contracted to buy 250 barrels of pork of the Company. In spite of the order of the Court restraining delivery of the pork, the Company offered to make the delivery, and upon Wallace's refusing the tender sold the pork at auction for $10.50 per barrel.

Complaint Against a Railroad.

By Telegraph to The Freeman.

ALBANY, N. Y., Oct. 5.—The State Railroad Commissioners will give a hearing on Wednesday, October 16, at 10 o'clock, in the Board of Supervisors' room in Elmira, on the complaint of James M. Roe, of that City, against the Erie Railroad, asking that the culverts under the road bridge over the Chemung River be opened, so that the cause of the backing up of the water during freshets may be disposed of.

Costs of Parnell Commission.

By Cable to The Freeman.

LONDON, Oct. 5.—The legal costs on the Irish side of the Parnell Commission, including the expenses for witnesses and reporters, are fully covered by the indemnity fund. Sir Charles Russell received £1,000 for preparing the briefs, in addition to £50 daily. Messrs. Reid and Lockwood each received one-half of those amounts. The expenses of the *Times* largely exceed those of the Irish side.

Another Strike in London.

By Cable to The Freeman.

LONDON, Oct. 5.—The laborers employed in the wool ware houses on the London docks have struck, owing, as they claim, to the preference given to "black legs" by the employers. Burns and Tillett, the labor leaders, are trying to arrange the trouble but it is feared the strike will spread.

An Engagement Announced.

By Telegraph to The Freeman.

BINGHAMTON, N. Y., Oct. 5—The engagement of General James Otis Woodward, Grand Commander of the Patriarchs Militant, Department of New-York, division of the Atlantic, to Miss Edith Jones, daughter of Lieutenant-Governor Jones, of this City, is announced here to-day.

STEAMSHIPS COLLIDE.

State of Georgia's Bow Stove In—One Man Killed.

NAVASSA ISLAND MURDERS.

Warrants Issued for Negroes By U. S. Circuit Court.

DOINGS OF THE MORMONS.

COLLIDED WITH THE STEAMER AGATE.

State of Georgia Had Its Bows Stove In—One Man Killed.

By Cable to The Freeman.

LONDON, Oct. 5.—The State Line steamer State of Georgia, from Glasgow for New-York, has returned to the Clyde, having collided with the steamer Agate. Its bows are stove. One man was killed.

LATER.—The State of Georgia has arrived at Greenock. Its damage is all above the water line. The vessel with which it collided is the coasting steamer Agate. A heavy fog prevailed at the time. The Agate struck the Georgia on the port bow with great force, smashing five of the latter's plates and 10 of its frames. Several of the crew lying in their bunks had narrow escapes. One man was seriously injured. The name of the man killed was McGarrity. The Agate's forecastle head was smashed.

WARRANTS ISSUED FOR THE NEGROES

Concerned in Navassa Island Murder—Authority of the United States, Etc.

By Telegraph to The Freeman.

BALTIMORE, Oct. 5.—A warrant was issued by Judge Bond, of the United States Circuit Court, yesterday for the arrest of the Negroes concerned in the Navassa Island murder. United States Marshal Cairnes made return to the warrant that he was powerless to make the arrests, whereupon Judge Bond certified to President Harrison the facts of the case, and they will be laid before the President by counsel for the receivers for his action. The Island comes under the jurisdiction of the United States in consequence of its discovery in 1856 by Captain Peter Duncan, who took the proper action whereby the United States extended its protective power over the Island, by proclamation, etc. Captain Duncan sold the Island to Captain E. K. Cooper and by various transfers it afterwards became the property of the Navassa Phosphate Company. The revised statutes of the United States hold a murder committed on the Island the same as if committed on a vessel on the high seas.

MORMONS HOLDING A CONVENTION.

They Believe Ecclesiastical Supremacy Will be Lost with Political Power.

By Telegraph to The Freeman.

SALT LAKE CITY, Oct. 5.—The Sixtieth General Semi-Annual Conference of the Mormon Church began yesterday. Wilfred Woodruff, President of the Church, presided and George Q. Cannon, of the first Presidency, was present. There was also present five of the 12 Apostles of the church and a great number of other high church officials. President Woodruff, in his address, said the Mormon Church had been established by God, and no power on earth could stay its progress. Elder Jacob Gates, Elder Henry, Apostle Grant and Elder Abram spoke in a similar vein. The Church authorities are embracing every opportunity to keep the people in line politically for they fear that with the loss of political power ecclesiastical supremacy would be greatly weakened.

CRASH ON A PENNSYLVANIA RAILROAD.

Rear End of a Detached Freight Crashed Into a Passenger Train.

By Telegraph to The Freeman.

CORRY, Pa., Oct. 5.—The rear end of a freight on the Western New-York & Pennsylvania Railroad broke loose as the train was climbing the summit four miles south of here this morning, and rushing down the hill, crashed into the morning passenger train which was following, with terrific force. All the passengers were bruised, some injured seriously but none fatally. Those seriously injured are Conductor Fox, head scalp wound; Baggageman L. W. Bessie, of Oil City, head bruised; Engineer Sullivan, of Mayville, badly cut and bruised and leg broken; William Miner, of Spring Creek, leg smashed.

In Episcopal Convention To-Day.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The General Convention of the Protestant Episcopal Church resumed its session to-day. A memorial from the colored members of the church was presented to the House of Deputies in which it was asked that they have equal representation. Resolution Twelve again coming up, the Rev. Dr. J. J. Baulex, of Arkansas, spoke against it. He argued that the Nicene Creed presented to the Convention was not a Catholic Creed, but a Roman Creed and should not be accepted. Dr. Kedney, of Michigan, favored the resolution. The Rev. R. A. Holland, of Missouri; the Rev. Dr. G. M. Christian, of Newark, N. J.; the Rev. James P. Vaulx, of Arkansas, and Stephen P. Noah, lay delegate for the New-York Diocese, favored the resolution. The resolution was adopted. This vote makes the Nicene Creed part of the Prayer Book, and also part of the service on Feast Days.

Eight Counterfeiters Captured.

By Telegraph to The Freeman.

INDIANAPOLIS, Ind., Oct. 5.—Two gangs of counterfeiters were surrounded near Paoli yesterday by United States officers. Eight men were captured. Several months ago spurious silver dollars were put on the market in this vicinity. A trusted man ingratiated himself into the confidence of the counterfeiters. There are 15 men in all engaged in the making of the counterfeit coin.

In Favor of Arbitration.

By Cable to The Freeman.

LONDON, Oct. 5.—Sir G. O. Treveiyan, in a letter to the Arbitration Society, eulogizes the movement championed by the Society as in the highest degree practical. In his opinion no single public act ever conferred upon humanity benefits so far-reaching and so permanent as the Geneva Arbitration between America and Great Britain.

Action in Cronin Murder Case.

By Telegraph to The Freeman.

CHICAGO, Oct. 5.—In court this morning, States Attorney Longenecker made a motion that the case against Frank Woodruff, one of the men indicted for the murder of Dr. Cronin, be continued until the next term. This was strenuously opposed by counsel for Woodruff. Judge McConnell, however, granted the motion.

But Few Visitors.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—There were very few visitors at the White House to-day. Ex-Governor Warmoth, Collector of Customs at New-Orleans, was the only one accorded an interview with the President, who was reported to be very busy with official matters

NOTES ON NEWS OF THE DAY.

THE Republicans of the third Ulster district will nominate a candidate for Assembly at the Pine Bush Hotel in Rochester the 10th inst. And the candidate thus nominated is going to be elected. The third is not a whisky district.

TENNESSEE White Caps have been driving Mormon elders out of the state. This is good for Tennessee. That commonwealth should not be required to endure Mormon elders and White Caps at the same time, whether the driving out means the survival or the extinction of the fittest.

RICHARD WEBB, a young wheelman of Holyoke, Mass., is missing. His wheel and hat were found on the high bridge that crosses the Connecticut from the northern end of Springfield yesterday morning. He is supposed to have taken a "header" from the bridge and plunged into the river.

SULLIVAN, sub-contractor for Snaith in the Assembly ceiling job, was arrested yesterday and held in $50,000 bail. A few days hence another arrest will be made, and afterwards another. This farce will be kept up till after election. And then Hill and Tabor will drop the whole business like a hot potato. They dare not bring the conspirators to trial.

THE Montana Republicans claim the Legislature. They admit that the returns received elect Toole, Democrat, Governor, but expect that those yet to come in will elect Power, Republican. The majority for Carter, Republican, for Congress, is decisive. All the Republican candidates for state offices except Power are elected beyond a doubt.

CHICAGO drank 1,675,000 barrels of beer last year. A statistician finds that this beer at five cents a glass cost the consumers $26,880,000. This sum would have built 11,168 homes at $2,400 each, capable of sheltering one-fifth of Chicago's population. Gov. Hill's favorite philosophy of "personal liberty" is doing a great work in the United States.

THE *North German Gazette* of Berlin thinks the Pan-American Congress an advertisement for attracting the attention of the whole Western hemisphere to "the imposing preponderance of the industrial enterprise and commerce of the United States, with a view to the proposed international exhibition of 1892." We do not know that any American has taken this view, but it is not unlikely that such will be the effect.

THE delegates to the Pan-American Congress took a sail down the Hudson from West Point to New York yesterday, on the United States vessel Yorktown. They had been previously handsomely entertained by Commander Wilson at the Military Academy. All of the delegates stamped as ridiculous the story that their governments were dissatisfied with the election of Mr. Blaine as President of the Congress. Blaine's address in full has been published in Lima and Mexico. Its sentiments are "most cordially approved" in Peru, while in Mexico it is pronounced "the strongest utterance of its class ever enunciated by any American."

THE Hatfield-McCoy feud in the mountains of Eastern Kentucky reached the climax of bloody tragedy last Tuesday when John Hand and Julia McCoy were to be married. Hand was related to the Hatfield gang, but neither he nor the bride's father had taken part in the feud. The wedding was proceeding in the evening, when a volley was fired through the windows by members of the Hatfield party. Groom and bride were killed instantly, and the clergyman who was performing the ceremony was wounded and died in an hour. More than a score of murders have been caused by this feud, and several women have been shot down in cold blood.

THE Democrats of Saratoga county held a convention at Hadley, a wilderness station in the northwest corner of the county, last Saturday. A Sunday school excursion was to travel the same way, so the political delegates bought excursion tickets and traveled on the railroad as good little Sunday school children, thus saving about half their fares. It is needless to say that they were all quite sober when they got off at the station. Our Democratic contemporaries are in the habit of ridiculing "Sunday school politics," but there is little doubt that they will prevail in Saratoga if the good people there have the forethought to get up an excursion on the same day and at the same place that a Democratic convention is to be held.

GOV. HILL told the farmers at the Delaware county fair yesterday how cruelly they had been taxed by the late Republican Legislature. He did not inform them that his vetoes of nearly $2,000,000 of the appropriations would not leave a dollar the more in their pockets, but would pile up a big surplus in the treasury where it would be handy for a Democratic steal. Last year certain Democratic orators went through Delaware county, telling the farmers of the awful burdens with which a Republican protective tariff was loading them. At the election these same farmers gave Harrison 292 more majority than they gave Blaine in 1884, and rolled up a majority against Hill 319 larger than that against him in 1885. Let Mr. Hill keep right on with his Democratic substitutes for the truth.

THE fragments of a dinner pail, found in the wreck of the Scanlan office in New York which was blown up Thursday morning, show that the dynamite was carried into the office beneath a covering of food and set down behind a door. Mahoney, the foreman whose life was sought, found the pail a few minutes before the explosion, and supposing a workman had placed it there, allowed it to remain. While he was at breakfast the explosion occurred. The big hole blown in the floor is exactly beneath the spot where the pail sat. It is related of one of Scanlan's non-Union employes, that he entered by mistake a shop where two Union men were at work. One of them threw a large butcher knife at him. It missed him and stuck in the door. "The holy cause of labor" does not grow in public respect from such incidents.

IN TERRY SHOOTING CASE.

Final Report of San Joaquin County Grand Jurors.

A LAND BOOM AT PIERRE.

People Flocking to the Capital Of South-Dakota.

EXCITEMENT IN HAWAII.

NAGLE CANNOT BE TRIED IN ANY COURT

Grand Jury of Joaquin County Has Presented Final Report.

By Telegraph to The Freeman.

STOCKTON, Cal., Oct. 5.—The Grand Jury of San Joaquin County has presented its final report concerning the case of United States Marshal Nagle. The report says the facts show the killing of Judge Terry was intentional and deliberate, and while the Constitution and laws of the State require that a crime against its laws should be tried thereunder, the accused was taken from the power of the State by a process emanating from the United States Circuit Court. The report continues: "The United States Circuit Court has decided that Nagle cannot be tried by a State Court essentially for a like want of jurisdiction from which it is fair to conclude he cannot be tried in any Court."

TREMENDOUS BOOM AT PIERRE, S. D.

Caused by its Being Selected as Capital—People Celebrating.

By Telegraph to The Freeman.

PIERRE, S. D., Oct. 5.—The election of Pierre as the Capital of South Dakota bids fair to create a tremendous boom here. Strangers are flocking into the City by thousands, every train being loaded with prospectors and speculators. Over $500,000 worth of property changed hands yesterday. Lots which could have been bought a week ago for $100 sold yesterday for $1,000. The people are excited, the town is in a constant hubbub, night and day, and it is impossible to preserve order. The people have been celebrating incessantly for 48 hours. Fort Pierre, across the River, is also crowded with boomers and intended settlers, many of whom have escaped into the reservation, notwithstanding the large force of regulars and Indian police.

A scheme was discovered yesterday of a gang of boomers to sneak across the River at midnight and take possession of the land around Fort Pierre, and thereby capture the town site. Application had been quietly made to the Government for town sites paper. The scheme was thwarted. Military assistance has been telegraphed for, and every attempt will be made to preserve order.

IN THE BUSY FIELD OF POLITICS.

Majority Claimed for Prohibition in North Dakota—Dead Lock in a Convention.

By Telegraph to The Freeman.

FARGO, N. D., Oct. 5.—The *Republican* publishes an estimate of the vote on Prohibition in 30 conties, which shows a net majority for Prohibition of 1,796. These correspond with reports received by J. C. White, Secretary of the North-Dakota Non-Partisan Prohibition Alliance. This, however, is reduced by McIntosh, which gave the majority against the article. That leaves Steel, Greggs, Rolette, Merritt, Billings and Emmons to be heard from, the aggregate vote of which, it is estimated, will be so evenly divided as not materially to change the result. The other counties in the State are unorganized.

BUFFALO, Oct. 5.—The Eighth District Judicial Convention to-day adjourned until Wednesday next in Buffalo without making a nomination. There was no change in the situation at this morning's session. The last vote stood: Barker 14, Potter 9, Scott 6, Lambert 4.

EXCITING RUMOR AT HONOLULU.

Hawaiians Believed the Islands Had Been Annexed to United States.

By Telegraph to The Freeman

SAN FRANCISCO, Oct. 5.—The steamer Australia arrived last evening from Honolulu. H. A. P. Carter, Hawaiian Minister to Washington, and George W. Merrill, Ex-American Minister to Hawaii, were passengers. Considerable excitement was caused among the Hawaiians on September 25 by a rumor that the Hawaiian Ministry had made a treaty annexing the Islands to the United States. The rumor originated from the fact that the proposition to seek full reciprocity between the United States and the Hawaiians has been discussed, but no action has been taken.

THE INTERNATIONAL CONGRESS.

People of South-American States are Greatly Interested Therein.

BUENOS AYRES, Oct. 5.—Secretary Blaine's address to the delegates to the International Congress was published in the newspapers of this country. The daily reports of the movements of the delegates are read with much interest.

RIO DE JANEIRO, Oct. 5.—The newspapers throughout Brazil published in full Secretary Blaine's address to the delegates to the International Congress. The public is hopeful of great commercial benefits resulting from the Congress.

Vacancies Filled in the Army.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The three vacancies in the staff departments of the Army were filled to-day by the following appointments: Lieutenant George S. Herit, Eighteenth Infantry, to be Assistant Quartermaster, with the rank of Captain; Lieutenant Henry B. Osgood, Third Artillery and General S. W. Alexander, of Iowa, to be Commissaries in the Subsistence Department with the rank of Captain.

Prairie Fire in Iowa.

By Telegraph to The Freeman.

SPIRIT LAKE, Ia., Oct. 5.—A prairie fire started several miles east of here yesterday and has been burning ever since. Driven by a strong wind from the south it has swept over a great portion of Dickinson County and seems to be beyond control. The damage already done is very heavy. A great deal of corn in the field and grain in stock has been destroyed, and probably some farm houses.

Large Reward for a Murderer.

By Telegraph to The Freeman.

ST. JOHN, N. B., Oct. 5.—The New-Brunswick Government and City authorities each offer a reward of $1,000 for the discovery of the person or persons who sent candies loaded with strychnine to Mrs. McRae. The case is the all-absorbing topic here and wild stories of other attempts at poisoning are in circulation.

What Excites Base Ballists.

By Telegraph to The Freeman.

CLEVELAND, O., Oct. 5.—It is understood that Pitcher Clarkson, of the Bostons, has offered the Cleveland battery for this afternoon $500 cash providing they win to-day's game from New-York. The report has excited base ball circles to the highest pitch.

THE PARTING WITH BABY BEATRICE.

Mrs. Hamilton's Tragic Actions When Mrs. Rupp Took the Infant.

By Telegraph to The Freeman.

MAYS LANDING, N. J., Oct. 5.—When Mrs. Rupp entered Mrs. Hamilton's room here yesterday to take away Baby Beatrice Mrs. Hamilton was playing with her, and she fell in a rage when her visitor's errand was announced. She held the child tightly in her arms and refused to give her up. "You shall not take my child away from me," she cried. "It is the only living being in the world who cares for me." Mrs. Rupp summoned Mrs. Johnson, the Sheriff's wife and a maid employed in the house. After exerting their united strength the three women wrenched the baby from Mrs. Hamilton and one of them ran with her out of the room while the other two kept Mrs. Hamilton from following. "Oh, Beatrice, Beatrice, my child!" cried Mrs. Hamilton, stretching out her arms yearningly as the door closed. Then she fell to the floor in a swoon. Mrs. Johnson thought it best to keep a watch on her until late last evening. Mrs. Hamilton said repeatedly she had not a single person in the world whom she could call a friend. Several times she threatened to take her life. As the evening wore on she became quieter. What probably increased her grief was the serving of the summons in the suit for the annullment of her marriage.

Mrs. Hamilton left here at 4:30 o'clock this morning in charge of Sheriff Johnson for the penitentiary at Trenton.

SUIT AGAINST A TELEGRAPH COMPANY

Brought by the Boston Safe Deposit Company—What is Alleged.

By Telegraph to The Freeman.

HARTFORD, Conn., Oct. 5.—The Boston Safe Deposit Trust Company was the complainant in the United States Circuit Court here yesterday in a foreclosure suit against the American Rapid Telegraph Company. There was a distinguished array of counsel. The Trust Company sues as Trustee for the holders of $3,000,000 of bonds, on which interest has been defaulted. The Receiver of the Rapid Company claims that it was illegal to exchange the stock of the Company for its bonds, there was no consideration to sustain the mortgage and bonds issued, and the transaction was void as against public policy. The mortgage was executed and the bonds issued in pursuance of a plan entered into between the American Rapid and the Bankers' & Merchants' Telegraph Companies, under which the latter was to secure control of the Rapid and the stockholders of the Rapid were to transfer their stock to the Bankers' & Merchants' and take in exchange the bonds on which the Trust Company brings suit.

GANG OF BURGLARS BROKEN UP.

The Result of a Public Meeting Held in Macon, Missouri.

By Telegraph to The Freeman.

MACON, Mo., Oct. 5.—For two months past there have occurred here an extraordinary number of burglaries. Jewelry and money to the amount of hundreds of dollars have been stolen. A citizens' meeting was held last Monday to consider the best means of detecting the burglaries. Harry Gray, a 12-year-old Negro boy who had been suspected of being implicated in the crimes, was called before it. He confessed that he was a member of a gang of young burglars organized two months ago. Matthew Brown, aged 17 years, pleaded guilty to four charges. He was sentenced to the penitentiary for 10 years on each charge, or 40 years in all. Elder Tidings also pleaded guilty to four charges. He was but 13 years old and the Judge only gave him two years in all. James Guy pleaded to one charge. He got 10 years. The cases of four others will be tried next week.

WHAT N. Y. BANK REPORT SHOWS.

The Reserve Held Less Than the Legal Requirements Call For.

By Telegraph to The Freeman

NEW-YORK, Oct. 5.—For the first time since the week following the May panic of 1884 the Bank Statement published to-day shows the reserve held to be less than the 25 per cent. of deposits required by the National Banking Law. The deposits amount to $412,273,800 against which only $101,400,400 is held in reserve. The legal requirement is $103,068,450. The deficit is almost wholly caused by the drain of money to the West and South where over $6,000,000 was shipped last week and almost as much went in the week preceding. The statement staggered the stock market when it came out just before the close, but as nearly all the operators had taken the bull side, they endeavored to resist any rush to sell and were partially successful. The exports of specie from this port last week amounted to $2,149,000; imports $70,000.

Glass Blowers' Strike Settled.

By Telegraph to The Freeman.

BALTIMORE, Oct 5.—The strike of the window-light glass blowers, which began last June and has seriously affected manufacturers and 5,000 employes, most of whom are located in New-York, New-Jersey, Pennsylvania and Maryland, was settled here to-day by delegates representing both sides. A scale to continue one year was signed.

Dividend for Albion Bank Creditors.

By Telegraph to The Freeman.

WASHINGTON, Oct. 5.—The Comptroller of the Currency has declared a first dividend of 28½ per cent. in favor of the creditors of the First National Bank of Albion, N. Y., on claims proved amounting to $385,822. This bank failed on August 26, 1884.

BOLD HIGHWAYMEN IN KANSAS CITY.

Man Attacked in Front of His Own Home Last Night.

By Telegraph to the Freeman.

KANSAS CITY, Mo., Oct. 5.—William P. Rogers, General Agent for Missouri & Kansas of the Equitable Life Insurance Company, of Iowa, last night was shot by a footpad in front of his own home and dangerously wounded. A man seized Mr. Rogers by the arms, bending them backward while another thrust a pistol in his face. The latter demanded his money. Mr. Rogers jerked his arms from the grasp of the man behind and brushed aside the pistol held by the man in front. Both robbers then stepped aside and one discharged his pistol, it being held so close to Mr. Rogers' face that all of his left side was badly powder-burned. The bullet entered the right cheek and passed through to the left. Walking quietly away the foot-pads turned and shot again at the wounded man. The shot did no harm. The robbers escaped.

ELECTRIC LIGHT CASE DISMISSED.

It was in Relation to the Fibrous Carbon or Incandescent Conductor.

By Telegraph to The Freeman.

PITTSBURG, Pa., Oct. 5.—In the United States Court to-day Justice Bradley, of the Supreme Court, handed down an opinion dismissing the famous electric light case of Westinghouse against Edison. The suit was brought two years ago by the Westinghouse interests against the McKeesport or Edison Electric Light Company, to restrain defendants from using the fibrous carbon or incandescent conductor in the air-tight globe. The point at issue was the form and substance of the conductors. It was claimed by the plaintiffs that they had been granted a patent on the fibrous carbon, while upon the other hand the Edison interests claimed they had filed an application for a patent a month before the application of the plaintiff.

The Court holds that the claim to priority of invention in the fibrous carbon filament is not valid as Edison had accomplished the result before Sawyer, Mann, or Westinghouse.

THE PAN-AMERICAN EXCURSIONISTS.

Visit Paid to the Central High School in Cultured Boston.

By Telegraph to The Freeman.

FALL RIVER, Mass., Oct. 3.—The Pan-American excursionists left Fall River for Boston this morning.

BOSTON, Oct. 5.—The Pan-American excursionists arrived here at 9:05 A. M. They were welcomed by the Mayor and were taken in carriages to the Hotel Vendome. Afterwards the party again entered the carriages and started on a tour of inspection. The first stop was at the Central High School for Boys. The visitors were welcomed by President Gallagher, of the School Board, and escorted through the building. The day was a holiday, but many pupils had voluntarily come to school. The pupils were seen at work in numerous departments and their proficiency pleased the visitors. An exhibition military drill was given by 600 boys. The excursionists afterwards took a train for Waltham.

Fatal Result of a Quarrel.

By Telegraph to The Freeman.

WOONSOCKET, R. I., Oct. 5.—Henry Andrews, a large coal dealer and owner of the cotton mills at Farnumsville, Mass., died here to-day, aged 50. On September 27 he quarreled over a business matter with William Blanchard, also a well known business man. Blanchard knocked Andrews down with a stick, inflicting a wound from the effects of which, it is supposed, blood poisoning and death ensued. The authorities are investigating the case. Andrews and his family were, during his illness, disposed to exonerate Blanchard. Blanchard has been arrested.

Alleged Violation of an Injunction.

By Telegraph to The Freeman.

CHICAGO, Oct. 5.—In Judge Shephard's Court this morning Broker Wallace filed an affidavit stating that the International Packing Company had violated the injunction served upon them yesterday. Wallace had contracted to buy 250 barrels of pork of the Company. In spite of the order of the Court restraining delivery of the pork, the Company offered to make the delivery, and upon Wallace's refusing the tender sold the pork at auction for $10.50 per barrel.

Complaint Against a Railroad.

By Telegraph to The Freeman.

ALBANY, N. Y., Oct. 5.—The State Railroad Commissioners will give a hearing on Wednesday, October 16, at 10 o'clock, in the Board of Supervisors' room in Elmira, on the complaint of James M. Roe, of that City, against the Erie Railroad, asking that the culverts under the road bridge over the Chemung River be opened, so that the cause of the backing up of the water during freshets may be disposed of.

Costs of Parnell Commission.

By Cable to The Freeman.

LONDON, Oct. 5.—The legal costs on the Irish side of the Parnell Commission, including the expenses for witnesses and reporters, are fully covered by the indemnity fund. Sir Charles Russell received £1,000 for preparing the briefs, in addition to £50 daily. Messrs. Reid and Lockwood each received one-half of those amounts. The expenses of the *Times* largely exceed those of the Irish side.

Another Strike in London.

By Cable to The Freeman.

LONDON, Oct. 5.—The laborers employed in the wool ware-houses on the London docks have struck, owing, as they claim, to the preference given to "black legs" by the employers. Burns and Tillett, the labor leaders, are trying to arrange the trouble but it is feared the strike will spread.

COLLIDED WITH THE STEAMER AGATE.

State of Georgia Had Its Bows Stove In—One Man Killed.

By Cable to The Freeman.

LONDON, Oct. 5.—The State Line steamer State of Georgia, from Glasgow for New-York, has returned to the Clyde, having collided with the steamer Agate. Its bows are stove. One man was killed.

LATER.—The State of Georgia has arrived at Greenock. Its damage is all above the water line. The vessel with which it collided is the coasting steamer Agate. A heavy fog prevailed at the time. The Agate struck the Georgia on the port bow with great force, smashing five of the latter's plates and 10 of its frames. Several of the crew lying in their bunks had narrow escapes. One man was seriously injured. The name of the man killed was McGarrity. The Agate's forecastle head was smashed.

WARRANTS ISSUED FOR THE NEGROES

Concerned in Navassa Island Murder—Authority of the United States, Etc.

By Telegraph to The Freeman.

BALTIMORE, Oct. 5.—A warrant was issued by Judge Bond, of the United States Circuit Court, yesterday for the arrest of the Negroes concerned in the Navassa Island murder. United States Marshal Cairnes made return to the warrant that he was powerless to make the arrests, whereupon Judge Bond certified to President Harrison the facts of the case, and they will be laid before the President by counsel for the receivers for his action. The Island comes under the jurisdiction of the United States in consequence of its discovery in 1856 by Captain Peter Duncan, who took the proper action whereby the United States extended its protective power over the Island, by proclamation, etc. Captain Duncan sold the Island to Captain E. K. Cooper and by various transfers it afterwards became the property of the Navassa Phosphate Company. The revised statutes of the United States hold a murder committed on the Island the same as if committed on a vessel on the high seas.

MORMONS HOLDING A CONVENTION.

They Believe Ecclesiastical Supremacy Will be Lost with Political Power.

By Telegraph to The Freeman.

SALT LAKE CITY, Oct. 5.—The Sixtieth General Semi-Annual Conference of the Mormon Church began yesterday. Wilfred Woodruff, President of the Church, presided and George Q. Cannon, of the first Presidency, was present. There was also present five of the 12 Apostles of the church and a great number of other high church officials. President Woodruff, in his address, said the Mormon Church had been established by God, and no power on earth could stay its progress. Elder Jacob Gates, Elder Henry, Apostle Grant and Elder Abram spoke in a similar vein. The Church authorities are embracing every opportunity to keep the people in line politically for they fear that with the loss of political power ecclesiastical supremacy would be greatly weakened.

CRASH ON A PENNSYLVANIA RAILROAD.

Rear End of a Detached Freight Crashed Into a Passenger Train.

By Telegraph to The Freeman.

CORRY, Pa., Oct. 5.—The rear end of a freight on the Western New-York & Pennsylvania Railroad broke loose as the train was climbing the summit four miles south of here this morning, and rushing down the hill, crashed into the morning passenger train which was following, with terrific force. All the passengers were bruised, some injured seriously but none fatally. Those seriously injured are Conductor Fox, bad scalp wound; Baggageman L. W. Bessie, of Oil City, hand bruised; Engineer Sullivan, of Mayville, badly cut and bruised and leg broken; William Miner, of Spring Creek, leg smashed.

In Episcopal Convention To-Day.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The General Convention of the Protestant Episcopal Church resumed its session to-day. A memorial from the colored members of the church was presented to the House of Deputies in which it was asked that they have equal representation. Resolution Twelve again coming up, the Rev. Dr. J. J. Baulex, of Arkansas, spoke against it. He argued that the Nicene Creed presented to the Convention was not a Catholic Creed, but a Roman Creed and should not be accepted. Dr. Kedney, of Michigan, favored the resolution. The Rev. R. A. Holland, of Missouri; the Rev. Dr. G. M. Christian, of Newark, N. J.; the Rev. James P. Vaulx, of Arkansas, and Stephen P. Noah, lay delegate for the New-York Diocese, favored the resolution. The resolution was adopted. This vote makes the Nicene Creed part of the Prayer Book, and also part of the service on Feast Days.

Eight Counterfeiters Captured.

By Telegraph to The Freeman.

INDIANAPOLIS, Ind., Oct. 5.—Two gangs of counterfeiters were surrounded near Paoli yesterday by United States officers. Eight men were captured. Several months ago spurious silver dollars were put on the market in this vicinity. A trusted man ingratiated himself into the confidence of the counterfeiters. There are 15 men in all engaged in the making of the counterfeit coin.

REPUBLICAN COUNTY CONVENTION.

The Republican Electors of the several towns in the County of Ulster and the Wards of the City of Kingston are requested to choose Delegates, as heretofore allotted, to attend a Convention to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889, at 11 o'clock noon, for the purpose of nominating County Officers and choosing Delegates to the Senatorial and Judicial Conventions and for transacting such other business as may be brought forward for consideration. The Town and City Committees are also requested to call the caucuses in their respective towns, districts and wards to select delegates to such County Convention, at such places as they may designate and to give notice thereof in the manner prescribed by the annexed resolution, on the 11th day of October, which is hereby fixed as the day on which such caucuses are to be held. By order of the County Committee.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

The following resolution was unanimously adopted at the Republican County Convention, held October 3, 1888, and is the resolution referred to in the above call and to which attention of town and city committees is called.

Resolved, That hereafter the County Central Committee issue the call for the County Convention at least thirty days before the time fixed by them for the holding of such Convention; and that in such call they fix the time for the holding of caucuses in the various towns of the County and the wards of the City of Kingston; which time shall be at least five days before the holding of the said County Convention.

Resolved, That the various Town Committees and the City Committee issue the call for caucuses in their respective towns and districts and in the wards of the City, and post the same in at least six public places in said towns and districts or wards at least six days before the holding of such caucuses, which caucuses shall be held at least five days before the meeting of the County Convention.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

REPUBLICAN WARD CAUCUSES.

The Republican electors of the various wards of the City of Kingston are requested to meet in their respective wards as follows: First Ward, Court House; Second Ward, City Hall; Third Ward, Greeley Hall; Fourth Ward, Steimer's Hotel; Fifth Ward, Engine House, Mill street; Sixth Ward, Engine House, Abeel street; Seventh Ward, Engine House, Hone street; Eighth Ward, Engine House, Wilbur; Ninth Ward, Engine House, Clinton avenue, on FRIDAY EVENING, OCTOBER 11, at 7:30 o'clock, for the purpose of electing delegates to the Republican County Convention, to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889. By order of City Committee.

NOAH WOLVEN, Chairman.
GEORGE M. ZELLMER, Secretary.

THE GOVERNOR'S VERACITY QUESTIONED.

Gov. Hill's Kingston speech is being handled without gloves by the Metropolitan press. The New York *Press* accuses him of "peddling falsehoods." It finds several of these in his effort. For instance, it was not the truth that "the Democracy of the state heartily endorsed the nominees of the Syracuse convention." Only one of them was thus endorsed. It was not true that "in renominating Wemple and Tabor the convention followed precedent." Only one Comptroller has held two terms since 1875, and only one Attorney General since 1871. It was not true that "the Republicans tried to frighten him from his purpose to have these officials renominated by connecting them with the 'ceiling scandal' so called." He knew the Republicans fairly held their breath in fear lest the opposition to their nomination would run strong enough to defeat it. And it reminds the Governor that the ceiling scandal was not merely a scandal "so called" but a real one. It was not true that the connection of Wemple and Tabor with the scandal "has not been explained and is not susceptible of proof." Gov. Hill knew when he made this assertion that the proof of their part in the fraud is contained in the printed evidence taken by two Legislative committees, while the explanation contained in printed statements by the officials themselves sustained the evidence taken in the investigation. Thus Tabor drew the contract by which $100,000 more than legitimate profits was taken from the state, and Tabor neglected the instructions of the Legislative committees to prosecute the conspirators until the eve of the Hill convention. Wemple allowed the same conspirators to draw $14,000 from the Treasury in excess of the amount they were entitled to under the contract. The proof of these facts has been before the people for several months, and Gov. Hill is the only intelligent man in the state who has the hardihood to pretend ignorance of them. It was not true, again, that the ceiling reconstruction was "in its inception and execution solely of Republican manipulation and under Republican control.' The job was put up by a Democratic contractor in Albany named Snaith, the Democratic Superintendent of Public Buildings named Andrews, the leader of the Democratic side of the Assembly named Sheehan, and Gov. Hill himself. "The ceiling contract was drawn by a Democrat, the superintendence of the work was lodged with a Democrat, a Democrat and an Englishman belonging to neither party were the contractors, a Democratic Governor signed the bill, a Democratic inspector for the state was brought from Buffalo, a Democratic Comptroller allowed the contractors to get away with thousands of dollars to which they were not entitled under the law and the contract, and a grand jury of a Democratic county refused to indict the conspirators when the evidence was laid before them by a Democratic District Attorney under the initiative of a Democratic Attorney General."

The *Tribune* takes up the Governor's assertion that the charges against Wemple and Tabor are baseless, and quotes from the report of the investigating committee, which report received the Democratic signatures of Assemblyman O'Neill, Martin and Greene, to show Wemple's responsibility. Here is the quotation that convicts the Comptroller:

We are of the opinion that the Controller of the state is guilty of negligence in paying to the contractor amounts largely in excess of that to which he was entitled by the terms of his contract until the work should be finally accepted on the part of the state. And while under the method under which his work was done, he was not required accurately to determine the value of the work performed or materials furnished, he was clearly under obligations, as disbursing officer of the state, to know the amount of money paid under the contract, and is clearly charged with the duty of retaining in his hands, until its final accounting, 2 per cent of the contract price. This he failed to do, as there remains in his hands but $40,428, instead of $54,030, as required by the contract.

This seems to dispose of Hill's effort to whitewash Wemple. As for Tabor, two Legislative reports, one in February and the other in May, proved conclusively that the state had been robbed, and the later report instructed the Attorney General to commence proceedings against the contractors and their bondsmen. He knew his duty in February —he certainly knew it in May—as well as he knows it in October. But he did not commence the prosecution till the very eve of the convention from which he expected a nomination. His neglect of this duty proves him unfit to be the Attorney General of the state.

These reviews will be interesting to the few people of Kingston who listened to the Governor's speech last Thursday night. We doubt whether he will repeat his statements elsewhere. He came here last fall and spoke to an audience of liquor dealers and drunken men, and rode in a procession of beer barrels. In a place that turns out such listeners he might feel justified in assuming that any sort of roorback would go down. But if telling stump whoppers were a felony, and the Governor were put on trial for the same before an Ulster county jury, he would be seriously in danger of conviction in the first degree.

JONES'S SPEECH.

The papers are having a great deal of fun with Jones's speech at the Syracuse convention. Poor Jones is catching it right and left, for being "silly," "verbose," "grandiloquent," and especially for his extraordinary tribute to Gov. Hill. The Elmira *Advertiser* calls it "absurd" and "ridiculous," but thinks it fitted the occasion because it was "an absurd task to defend an absurd party, and he fulfilled his absurd duty in an absurd speech." We might quote several columns of similar comment from our exchanges if necessary. All are agreed that Jones outshone himself in his favorite role of buffoon.

But now comes an Albany letter with the remarkable statement that Jones is not responsible for the extraordinary sentiments of the speech. We quote: "Gov. Hill had the tone and the action of the convention so much at heart that in addition to framing its platform and making its ticket he wrote the presiding officer's speech. He forwarded it to Lieut. Gov. Jones with the request that he make use of it instead of delivering one of his own composition." The service was without doubt purely confidential between the Governor and his Lieutenant. Jones could do nothing but comply, for another Democrat would have been named for chairman if he had sent this ridiculous speech back to its author. Jones delivered it without pausing to study its peculiarities, and went home to find himself the laughing stock of all readers of the English language. Is it any wonder that he refused to retain the secret any longer, when by disclosing it he could acquit himself of the folly? Who can blame him for telling the truth?

Now let us see what the Governor wrote concerning himself. It is the most extraordinary paragraph in this extraordinary speech:

They defeated us nationally by the combination of bribery, coercion and falsehood, but when it came to a question of our own state affairs, a majority of the people were not to be bought, could not be bulldozed and were not to be deceived; for always in their view, wherever the conflict waged the fiercest, there rode a gallant knight who bore his banner far above the heads of the surging masses of combatants, on the one side of which were emblazoned the arms of the state of New-York, with the motto "Excelsior"; on the reverse, the name of our honored leader, beneath which was the legend "I am a Democrat."

The people remember this "gallant knight," riding in the Centennial procession through the streets of New York last spring. He did not carry a banner then, but was busy with both hands and feet supporting himself upon his steed. When he attempted to return a salute by lifting his hat, one of the reins dropped from his hands, and as it was handed up to him the other dropped. The "fiery charger," selected with due consideration for the Governor's inexperience, was led by two orderlies, one on either side. "Hill's Ride," though not as thrilling as some war exploits on horseback, was worthy of a poem by Buchanan Reed, or at least by R. J. Burdette. It was as unique a thing in its way as the speech of eulogy upon himself that he saddled on Jones.

ELECTION POSSIBILITIES IN 1892.

The Brooklyn *Eagle* prints another interesting calculation of election possibilities in 1892. Following a table of the late electoral vote which shows a majority of 65 for Harrison, it adds the 13 votes to come from the four new states, making a total of 414 in the next electoral college. This makes 208 necessary for a choice. It then finds that, with the electoral votes of 1888 unchanged in other states, and all the new states voting Republican, the Republicans can elect a President by 2 majority without the help of New-York. Should Montana with its four electoral votes go Democratic, the Electoral College would be tied, and the Presidential election would go to the House of Representatives which is to be elected in 1890. By this calculation New York ceases to be a pivotal state, and the choice must go to the party that carries Indiana. If this situation should continue till 1892, it would probably assure the renomination of Harrison.

But another consideration enters into the calculation. The census is to be taken in 1890, and the tables of population will be ready for the present Congress to use for the purpose of a new apportionment at its last or short session, beginning in December, 1890, and ending in March, 1891. The fifty-second Congress will then have been elected, and if its complexion should be such as to make a Democratic apportionment possible, the bill will be hurried through before adjournment. The most serious thing that the Republican party would have to apprehend from a Democratic apportionment is the reduction of the delegations in New York, Indiana, Missouri, and other doubtful states, thus probably necessitating the election of the entire delegations in those states on a single ticket, a scheme that would be abetted by the Democratic Governors in office by the use of the veto power upon state apportionment bills if necessary. Thus, if the New York delegation were reduced to 33 by the fifty-second Congress in its first session, beginning in December, 1891, the Legislature elected in the fall of the same year would undoubtedly district the state in time for the election in 1892. But if the successor of Gov. Hill should be a Democrat he would veto this bill, and throw the election of 33 Congressmen back upon the state at large along with the electors. This would cause the most important and exciting contest ever known in this state.

All such possibilities of evil can be avoided by the passage of an apportionment bill by the present Congress. This will enable every Legislature to redistrict its state in time for the election in 1892. And we predict that the membership of Congress will be enlarged sufficiently to allow New York and the other great and controlling states of the East to retain their present representation. The increase will go to the West, the Pacific Coast and Texas.

HILL'S STATE COMMITTEE.

Men Rewarded for Knifing Cleveland—A Boodler on the List.

[From the Buffalo Commercial Advertiser.]

An intelligent observer at Syracuse says that one peculiarity about the construction of the committee, and one for all thoughtful Democrats to regard with especial care, is that one-half of the members of the committee are men who were conspicuous for their treachery to the national ticket last fall. McMahon of Cattaraugus, Pat Sutley of Livingston and "Billy" Tracy of Rochester are all known as Hill Democrats who "knifed" Cleveland last year. The first two were dropped from the State Committee two years ago on account of their open hostility to Cleveland. To be known as a man who "sold out" or "knifed" Grover Cleveland last year is not a detriment, but a positive aid to aspiring Democratic politicians under the Hill regime, which now completely controls the party machinery.

These facts are sufficient. They show that the so-called "better element" of the Democratic party have tired of the struggle against Governor Hill and the influences he represents and have given him his head and a free rein. Meanwhile the exigencies of the Hill school of practice are bringing to the front in the Democratic organization some of the most questionable characters ever seen in New York politics. For two years the respectable Democrats in Westchester county have succeeded in keeping D. J. Hickey off the State Committee. He was deeply involved, the *New York Times* says, in the Westchester Boulevard frauds in 1881 and has no standing in the community. But he is a rank Hill Democrat and this year he goes on the State Committee. Governor Hill is setting up a dictatorship in his party. Personal allegiance to his fortunes is coming to be the decisive test of Democratic partisanship. It is needless to say that such a test is bound to have a disastrous effect on the character of the Democratic organization and to send many of the ablest and most respectable members of the party into retirement and quiet opposition.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating easy of application, and one that will reach all the remote sores and ulcerated surfaces. Cured by Cuticura

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $6. I would not be without the CUTICURA REMEDIES in my house, as I find them useful in many cases and I think they are the only skin and blood medicines.

Burning and Itching.

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they had never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I tried your CUTICURA REMEDIES. After three weeks' use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

Consists of one bottle of the Radical Cure, one box Catarrhal Solvent, and Improved Inhaler, all in one package; price $1. Ask for Sanford's Radical Cure. Sold everywhere

REPUBLICAN COUNTY CONVENTION.

The Republican Electors of the several towns in the County of Ulster and the Wards of the City of Kingston are requested to choose Delegates, as heretofore alloted, to attend a Convention to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889, at 11 o'clock noon, for the purpose of nominating County Officers and choosing Delegates to the Senatorial and Judicial Conventions and for transacting such other business as may be brought forward for consideration. The Town and City Committees are also requested to call the caucuses in their respective towns, districts and wards to select delegates to such County Convention, at such places as they may designate and to give notice thereof in the manner prescribed by the annexed resolution, on the 11th day of October, which is hereby fixed as the day on which such caucuses are to be held. By order of the County Committee.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

The following resolution was unanimously adopted at the Republican County Convention, held October 3, 1888, and is the resolution referred to in the above call and to which attention of town and city committees is called.

Resolved, That hereafter the County Central Committee issue the call for the County Convention at least thirty days before the time fixed by them for the holding of such Convention; and that in such call they fix the time for the holding of caucuses in the various towns of the County and the wards of the City of Kingston; which time shall be at least five days before the holding of the said County Convention.

Resolved, That the various Town Committees and the City Committee issue the call for caucuses in their respective towns and districts and in the wards of the City, and post the same in at least six public places in said towns and districts or wards at least six days before the holding of such caucuses, which caucuses shall be held at least five days before the meeting of the County Convention.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

REPUBLICAN WARD CAUCUSES.

The Republican electors of the various wards of the City of Kingston are requested to meet in their respective wards as follows: First Ward, Court House; Second Ward, City Hall; Third Ward, Greeley Hall; Fourth Ward, Steimer's Hotel; Fifth Ward, Engine House, Mill street; Sixth Ward, Engine House, Abeel street; Seventh Ward, Engine House, Hone street; Eighth Ward, Engine House, Wilbur; Ninth Ward, Engine House, Clinton avenue, on FRIDAY EVENING, OCTOBER 11, at 7:30 o'clock, for the purpose of electing delegates to the Republican County Convention, to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889. By order of City Committee.

NOAH WOLVEN, Chairman.
GEORGE M. ZELLMER, Secretary.

SECOND ASSEMBLY DIST. CONVENTION.

The Republican electors of the various towns and wards comprising the Second Assembly District of Ulster County, are requested to meet in their respective towns and wards, and choose delegates from each to meet at the Mansion House, Rondout, on SATURDAY, OCTOBER 19th, at 12 M. to nominate a candidate for Member of Assembly and to transact such other business as may be necessary.

GEO. B. HIBBARD,
P. E. MERRITT,
JAS. E. OSTRANDER,
Committee.

THIRD ASSEMBLY DIST. CONVENTION.

The Republican Electors of the several towns of the Third Assembly District of Ulster county are requested to meet in caucus to send delegates to an Assembly Convention to be held at Barnhart's Hotel, Pine Bush, in the town of Rochester, on the 10th day of OCTOBER, 1889, at 1 o'clock, P. M., for the purpose of selecting a candidate for Member of Assembly.

THE GOVERNOR'S VERACITY QUESTIONED.

Gov. Hill's Kingston speech is being handled without gloves by the Metropolitan press. The New York *Press* accuses him of "peddling falsehoods." It finds several of these in his effort. For instance, it was not the truth that "the Democracy of the state heartily endorsed the nominees of the Syracuse convention." Only one of them was thus endorsed. It was not true that "in renominating Wemple and Tabor the convention followed precedent." Only one Comptroller has held two terms since 1875, and only one Attorney General since 1871. It was not true that "the Republicans tried to frighten him from his purpose to have these officials renominated by connecting them with the 'ceiling scandal' so called." He knew the Republicans fairly held their breath in fear lest the opposition to their nomination would run strong enough to defeat it. And it reminds the Governor that the ceiling scandal was not merely a scandal "so called" but a real one. It was not true that the connection of Wemple and Tabor with the scandal "has not been explained and is not susceptible of proof." Gov. Hill knew when he made this assertion that the proof of their part in the fraud is contained in the printed evidence taken by two Legislative committees, while the explanation contained in printed statements by the officials themselves sustained the evidence taken in the investigation. Thus Tabor drew the contract by which $100,000 more than legitimate profits was taken from the state, and Tabor neglected the instructions of the Legislative committees to prosecute the conspirators until the eve of the Hill convention. Wemple allowed the same conspirators to draw $14,000 from the Treasury in excess of the amount they were entitled to under the contract. The proof of these facts has been before the people for several months, and Gov. Hill is the only intelligent man in the state who has the hardihood to pretend ignorance of them. It was not true, again, that the ceiling reconstruction was "in its inception and execution solely of Republican manipulation and under Republican control.' The job was put up by a Democratic contractor in Albany named Snaith, the Democratic Superintendent of Public Buildings named Andrews, the leader of the Democratic side of the Assembly named Sheehan, and Gov. Hill himself. "The ceiling contract was drawn by a Democrat, the superintendence of the work was lodged with a Democrat, a Democrat and an Englishman belonging to neither party were the contractors, a Democratic Governor signed the bill, a Democratic inspector for the state was brought from Buffalo, a Democratic Comptroller allowed the contractors to get away with thousands of dollars to which they were not entitled under the law and the contract, and a grand jury of a Democratic county refused to indict the conspirators when the evidence was laid before them by a Democratic District Attorney under the initiative of a Democratic Attorney General."

The *Tribune* takes up the Governor's assertion that the charges against Wemple and Tabor are baseless, and quotes from the report of the investigating committee, which report received the Democratic signatures of Assemblyman O'Neill, Martin and Greene, to show Wemple's responsibility. Here is the quotation that convicts the Comptroller:

We are of the opinion that the Controller of the state is guilty of negligence in paying to the contractor amounts largely in excess of that to which he was entitled by the terms of his contract until the work should be finally accepted on the part of the state. And while under the method under which his work was done, he was not required accurately to determine the value of the work performed or materials furnished, he was clearly under obligations, as disbursing officer of the state, to know the amount of money paid under the contract, and is clearly charged with the duty of retaining in his hands, until its final accounting, 2 per cent of the contract price. This he failed to do, as there remains in his hands but $40,428, instead of $54,030, as required by the contract.

This seems to dispose of Hill's effort to whitewash Wemple. As for Tabor, two Legislative reports, one in February and the other in May, proved conclusively that the state had been robbed, and the later report instructed the Attorney General to commence proceedings against the contractors and their bondsmen. He knew his duty in February—he certainly knew it in May—as well as he knows it in October. But he did not commence the prosecution till the very eve of the convention from which he expected a nomination. His neglect of this duty proves him unfit to be the Attorney General of the state.

These reviews will be interesting to the few people of Kingston who listened to the Governor's speech last Thursday night. We doubt whether he will repeat his statements elsewhere. He came here last fall and spoke to an audience of liquor dealers and drunken men, and rode in a procession of beer barrels. In a place that turns out such listeners he might feel justified in assuming that any sort of roorback would go down. But if telling stump whoppers were a felony, and the Governor were put on trial for the same before an Ulster county jury, he would be seriously in danger of conviction in the first degree.

JONES'S SPEECH.

The papers are having a great deal of fun with Jones's speech at the Syracuse convention. Poor Jones is catching it right and left, for being "silly," "verbose," "grandiloquent," and especially for his extraordinary tribute to Gov. Hill. The Elmira *Advertiser* calls it "absurd" and "ridiculous," but thinks it fitted the occasion because it was "an absurd task to defend an absurd party, and he fulfilled his absurd duty in an absurd speech." We might quote several columns of similar comment from our exchanges if necessary. All are agreed that Jones outshone himself in his favorite role of buffoon.

But now comes an Albany letter with the remarkable statement that Jones is not responsible for the extraordinary sentiments of the speech. We quote: "Gov. Hill had the tone and the action of the convention so much at heart that in addition to framing its platform and making its ticket he wrote the presiding officer's speech. He forwarded it to Lieut. Gov. Jones with the request that he make use of it instead of delivering one of his own composition." The service was without doubt purely confidential between the Governor and his Lieutenant. Jones could do nothing but comply, for another Democrat would have been named for chairman if he had sent this ridiculous speech back to its author. Jones delivered it without pausing to study its peculiarities, and went home to find himself the laughing stock of all readers of the English language. Is it any wonder that he refused to retain the secret any longer, when by disclosing it he could acquit himself of the folly? Who can blame him for telling the truth?

Now let us see what the Governor wrote concerning himself. It is the most extraordinary paragraph in this extraordinary speech:

They defeated us nationally by the combination of bribery, coercion and falsehood, but when it came to a question of our own state affairs, a majority of the people were not to be bought, could not be bulldozed and were not to be deceived; for always in their view, wherever the conflict waged the fiercest, there rode a gallant knight who bore his banner far above the heads of the surging masses of combatants, on the one side of which were emblazoned the arms of the state of New-York, with the motto "Excelsior"; on the reverse, the name of our honored leader, beneath which was the legend "I am a Democrat."

The people remember this "gallant knight," riding in the Centennial procession through the streets of New York last spring. He did not carry a banner then, but was busy with both hands and feet supporting himself upon his steed. When he attempted to return a salute by lifting his hat, one of the reins dropped from his hands, and as it was handed up to him the other dropped. The "fiery charger," selected with due consideration for the Governor's inexperience, was led by two orderlies, one on either side. "Hill's Ride," though not as thrilling as some war exploits on horseback, was worthy of a poem by Buchanan Reed, or at least by R. J. Burdette. It was as unique a thing in its way as the speech of eulogy upon himself that he saddled on Jones.

ELECTION POSSIBILITIES IN 1892.

The Brooklyn *Eagle* prints another interesting calculation of election possibilities in 1892. Following a table of the late electoral vote which shows a majority of 65 for Harrison, it adds the 13 votes to come from the four new states, making a total of 414 in the next electoral college. This makes 208 necessary for a choice. It then finds that, with the electoral votes of 1888 unchanged in other states, and all the new states voting Republican, the Republicans can elect a President by 2 majority without the help of New-York. Should Montana with its four electoral votes go Democratic, the Electoral College would be tied, and the Presidential election would go to the House of Representatives which is to be elected in 1890. By this calculation New York ceases to be a pivotal state, and the choice must go to the party that carries Indiana. If this situation should continue till 1892, it would probably assure the renomination of Harrison.

But another consideration enters into the calculation. The census is to be taken in 1890, and the tables of population will be ready for the present Congress to use for the purpose of a new apportionment at its last or short session, beginning in December, 1890, and ending in March, 1891. The fifty-second Congress will then have been elected, and if its complexion should be such as to make a Democratic apportionment possible, the bill will be hurried through before adjournment. The most serious thing that the Republican party would have to apprehend from a Democratic apportionment is the reduction of the delegations in New York, Indiana, Missouri, and other doubtful states, thus probably necessitating the election of the entire delegations in those states on a single ticket, a scheme that would be abetted by the Democratic Governors in office by the use of the veto power upon state apportionment bills if necessary. Thus, if the New York delegation were reduced to 33 by the fifty-second Congress in its first session, beginning in December, 1891, the Legislature elected in the fall of the same year would undoubtedly district the state in time for the election in 1892. But if the successor of Gov. Hill should be a Democrat he would veto this bill, and throw the election of 33 Congressmen back upon the state at large along with the electors. This would cause the most important and exciting contest ever known in this state.

All such possibilities of evil can be avoided by the passage of an apportionment bill by the present Congress. This will enable every Legislature to redistrict its state in time for the election in 1892. And we predict that the membership of Congress will be enlarged sufficiently to allow New York and the other great and controlling states of the East to retain their present representation. The increase will go to the West, the Pacific Coast and Texas.

HILL'S STATE COMMITTEE.

Men Rewarded for Knifing Cleveland—A Boodler on the List.

[From the Buffalo Commercial Advertiser.]

An intelligent observer at Syracuse says that one peculiarity about the construction of the committee, and one for all thoughtful Democrats to regard with especial care, is that one-half of the members of the committee are men who were conspicuous for their treachery to the national ticket last fall. McMahon of Cattaraugus, Pat Sutley of Livingston and "Billy" Tracy of Rochester are all known as Hill Democrats who "knifed" Cleveland last year. The first two were dropped from the State Committee two years ago on account of their open hostility to Cleveland. To be known as a man who "sold out" or "knifed" Grover Cleveland last year is not a detriment, but a positive aid to aspiring Democratic politicians under the Hill regime, which now completely controls the party machinery.

These facts are sufficient. They show that the so-called "better element" of the Democratic party have tired of the struggle against Governor Hill and the influences he represents and have given him his head and a free rein. Meanwhile the exigencies of the Hill school of practice are bringing to the front in the Democratic organization some of the most questionable characters ever seen in New York politics. For two years the respectable Democrats in Westchester county have succeeded in keeping D. J. Hickey off the State Committee. He was deeply involved, the *New York Times* says, in the Westchester Boulevard frauds in 1881 and has no standing in the community. But he is a rank Hill Democrat and this year he goes on the State Committee. Governor Hill is setting up a dictatorship in his party. Personal allegiance to his fortunes is coming to be the decisive test of Democratic partisanship. It is needless to say that such a test is bound to have a disastrous effect on the character of the Democratic organization and to send many of the ablest and most respectable members of the party into retirement and quiet opposition.

IT IS FOOLISH

To send for the doctor every time you don't feel just right. My doctor's bill for years was over a hundred dollars a year, which made a pretty big hole in my wages. For the past two years I only spent ten dollars, with which I bought a dozen bottles of Sulphur Bitters, and health has been in my family since using them.—Robert Johnson, Machinist.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

Skins on Fire.

Agonizing, Itching, Burning, and Bleeding Eczema in its Worst Stages. A Raw Sore From Head to Feet. Hair Gone. Doctors and Hospitals Fail. Tried Everything. Cured by the Cuticura Remedies for $6.

Cured by Cuticura

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $6. I would not be without the CUTICURA REMEDIES in my house, as I find them useful in many cases and I think they are the only skin and blood medicines.

ISAAC H. GERMAN, Wurtsboro, N. Y.

Burning and Itching.

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they had never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I tried your CUTICURA REMEDIES. After three weeks' use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

C. E. OSMER, Taftsville, Vt.

Most Intense Itching.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy-cheeked boy.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

Consists of one bottle of the Radical Cure, one box Catarrhal Solvent, and Improved Inhaler, all in one package; price $1. Ask for Sanford's Radical Cure. Sold everywhere.

REPUBLICAN COUNTY CONVENTION.

The Republican Electors of the several towns in the County of Ulster and the Wards of the City of Kingston are requested to choose Delegates, as heretofore alloted, to attend a Convention to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889, at 11 o'clock noon, for the purpose of nominating County Officers and choosing Delegates to the Senatorial and Judicial Conventions and for transacting such other business as may be brought forward for consideration. The Town and City Committees are also requested to call the caucuses in their respective towns, districts and wards to select delegates to such County Convention, at such places as they may designate and to give notice thereof in the manner prescribed by the annexed resolution, on the 11th day of October, which is hereby fixed as the day on which such caucuses are to be held. By order of the County Committee.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

The following resolution was unanimously adopted at the Republican County Convention, held October 3, 1888, and is the resolution referred to in the above call and to which attention of town and city committees is called.

Resolved, That hereafter the County Central Committee issue the call for the County Convention at least thirty days before the time fixed by them for the holding of such Convention; and that in such call they fix the time for the holding of caucuses in the various towns of the County and the wards of the City of Kingston; which time shall be at least five days before the holding of the said County Convention.

Resolved, That the various Town Committees and the City Committee issue the call for caucuses in their respective towns and districts and in the wards of the City, and post the same in at least six public places in said towns and districts or wards at least six days before the holding of such caucuses, which caucuses shall be held at least five days before the meeting of the County Convention.

W. R. SHEFFIELD, Chairman.
A. S. NEWCOMB, Secretary.

REPUBLICAN WARD CAUCUSES.

The Republican electors of the various wards of the City of Kingston are requested to meet in their respective wards as follows: First Ward, Court House; Second Ward, City Hall; Third Ward, Greeley Hall; Fourth Ward, Steimer's Hotel; Fifth Ward, Engine House, Mill street; Sixth Ward, Engine House, Abeel street; Seventh Ward, Engine House, Hone street; Eighth Ward, Engine House, Wilbur; Ninth Ward, Engine House, Clinton avenue, on FRIDAY EVENING, OCTOBER 11, at 7:30 o'clock, for the purpose of electing delegates to the Republican County Convention, to be held at the Court House, in the City of Kingston, on Thursday, October 17, 1889. By order of City Committee.

NOAH WOLVEN, Chairman.
GEORGE M. ZELLMER, Secretary.

THE GOVERNOR'S VERACITY QUESTIONED.

Gov. Hill's Kingston speech is being handled without gloves by the Metropolitan press. The New York *Press* accuses him of "peddling falsehoods." It finds several of these in his effort. For instance, it was not the truth that "the Democracy of the state heartily endorsed the nominees of the Syracuse convention." Only one of them was thus endorsed. It was not true that "in renominating Wemple and Tabor the convention followed precedent." Only one Comptroller has held two terms since 1875, and only one Attorney General since 1871. It was not true that "the Republicans tried to frighten him from his purpose to have these officials renominated by connecting them with the 'ceiling scandal' so called." He knew the Republicans fairly held their breath in fear lest the opposition to their nomination would run strong enough to defeat it. And it reminds the Governor that the ceiling scandal was not merely a scandal "so called" but a real one. It was not true that the connection of Wemple and Tabor with the scandal "has not been explained and is not susceptible of proof." Gov. Hill knew when he made this assertion that the proof of their part in the fraud is contained in the printed evidence taken by two Legislative committees, while the explanation contained in printed statements by the officials themselves sustained the evidence taken in the investigation. Thus Tabor drew the contract by which $100,000 more than legitimate profits was taken from the state, and Tabor neglected the instructions of the Legislative committees to prosecute the conspirators until the eve of the Hill convention. Wemple allowed the same conspirators to draw $14,000 from the Treasury in excess of the amount they were entitled to under the contract. The proof of these facts has been before the people for several months, and Gov. Hill is the only intelligent man in the state who has the hardihood to pretend ignorance of them. It was not true, again, that the ceiling reconstruction was "in its inception and execution solely of Republican manipulation and under Republican control.' The job was put up by a Democratic contractor in Albany named Snaith, the Democratic Superintendent of Public Buildings named Andrews, the leader of the Democratic side of the Assembly named Sheehan, and Gov. Hill himself. "The ceiling contract was drawn by a Democrat, the superintendence of the work was lodged with a Democrat, a Democrat and an Englishman belonging to neither party were the contractors, a Democratic Governor signed the bill, a Democratic inspector for the state was brought from Buffalo, a Democratic Comptroller allowed the contractors to get away with thousands of dollars to which they were not entitled under the law and the contract, and a grand jury of a Democratic county refused to indict the conspirators when the evidence was laid before them by a Democratic District Attorney under the initiative of a Democratic Attorney General."

The *Tribune* takes up the Governor's assertion that the charges against Wemple and Tabor are baseless, and quotes from the report of the investigating committee, which report received the Democratic signatures of Assemblyman O'Neill, Martin and Greene, to show Wemple's responsibility. Here is the quotation that convicts the Comptroller:

> We are of the opinion that the Controller of the state is guilty of negligence in paying to the contractor amounts largely in excess of that to which he was entitled by the terms of his contract until the work should be finally accepted on the part of the state. And while under the method under which his work was done, he was not required accurately to determine the value of the work performed or materials furnished, he was clearly under obligations, as disbursing officer of the state, to know the amount of money paid under the contract, and is clearly charged with the duty of retaining in his hands, until its final accounting, 2 per cent of the contract price. This he failed to do, as there remains in his hands but $40,428, instead of $54,030, as required by the contract.

This seems to dispose of Hill's effort to whitewash Wemple. As for Tabor, two Legislative reports, one in February and the other in May, proved conclusively that the state had been robbed, and the later report instructed the Attorney General to commence proceedings against the contractors and their bondsmen. He knew his duty in February—he certainly knew it in May—as well as he knows it in October. But he did not commence the prosecution till the very eve of the convention from which he expected a nomination. His neglect of this duty proves him unfit to be the Attorney General of the state.

These reviews will be interesting to the few people of Kingston who listened to the Governor's speech last Thursday night. We doubt whether he will repeat his statements elsewhere. He came here last fall and spoke to an audience of liquor dealers and drunken men, and rode in a procession of beer barrels. In a place that turns out such listeners he might feel justified in assuming that any sort of roorback would go down. But if telling stump whoppers were a felony, and the Governor were put on trial for the same before an Ulster county jury, he would be seriously in danger of conviction in the first degree.

JONES'S SPEECH.

The papers are having a great deal of fun with Jones's speech at the Syracuse convention. Poor Jones is catching it right and left, for being "silly," "verbose," "grandiloquent," and especially for his extraordinary tribute to Gov. Hill. The Elmira *Advertiser* calls it "absurd" and "ridiculous," but thinks it fitted the occasion because it was "an absurd task to defend an absurd party, and he fulfilled his absurd duty in an absurd speech." We might quote several columns of similar comment from our exchanges if necessary. All are agreed that Jones outshone himself in his favorite role of buffoon.

But now comes an Albany letter with the remarkable statement that Jones is not responsible for the extraordinary sentiments of the speech. We quote: "Gov. Hill had the tone and the action of the convention so much at heart that in addition to framing its platform and making its ticket he wrote the presiding officer's speech. He forwarded it to Lieut. Gov. Jones with the request that he make use of it instead of delivering one of his own composition." The service was without doubt purely confidential between the Governor and his Lieutenant. Jones could do nothing but comply, for another Democrat would have been named for chairman if he had sent this ridiculous speech back to its author. Jones delivered it without pausing to study its peculiarities, and went home to find himself the laughing stock of all readers of the English language. Is it any wonder that he refused to retain the secret any longer, when by disclosing it he could acquit himself of the folly? Who can blame him for telling the truth?

Now let us see what the Governor wrote concerning himself. It is the most extraordinary paragraph in this extraordinary speech:

> They defeated us nationally by the combination of bribery, coercion and falsehood, but when it came to a question of our own state affairs, a majority of the people were not to be bought, could not be bulldozed and were not to be deceived; for always in their view, wherever the conflict waged the fiercest, there rode a gallant knight who bore his banner far above the heads of the surging masses of combatants, on the one side of which were emblazoned the arms of the state of New-York, with the motto "Excelsior"; on the reverse, the name of our honored leader, beneath which was the legend "I am a Democrat."

The people remember this "gallant knight," riding in the Centennial procession through the streets of New York last spring. He did not carry a banner then, but was busy with both hands and feet supporting himself upon his steed. When he attempted to return a salute by lifting his hat, one of the reins dropped from his hands, and as it was handed up to him the other dropped. The "fiery charger," selected with due consideration for the Governor's inexperience, was led by two orderlies, one on either side. "Hill's Ride," though not as thrilling as some war exploits on horseback, was worthy of a poem by Buchanan Reed, or at least by R. J. Burdette. It was as unique a thing in its way as the speech of eulogy upon himself that he saddled on Jones.

ELECTION POSSIBILITIES IN 1892.

The Brooklyn *Eagle* prints another interesting calculation of election possibilities in 1892. Following a table of the late electoral vote which shows a majority of 65 for Harrison, it adds the 13 votes to come from the four new states, making a total of 414 in the next electoral college. This makes 208 necessary for a choice. It then finds that, with the electoral votes of 1888 unchanged in other states, and all the new states voting Republican, the Republicans can elect a President by 2 majority without the help of New-York. Should Montana with its four electoral votes go Democratic, the Electoral College would be tied, and the Presidential election would go to the House of Representatives which is to be elected in 1890. By this calculation New York ceases to be a pivotal state, and the choice must go to the party that carries Indiana. If this situation should continue till 1892, it would probably assure the renomination of Harrison.

But another consideration enters into the calculation. The census is to be taken in 1890, and the tables of population will be ready for the present Congress to use for the purpose of a new apportionment at its last or short session, beginning in December, 1890, and ending in March, 1891. The fifty-second Congress will then have been elected, and if its complexion should be such as to make a Democratic apportionment possible, the bill will be hurried through before adjournment. The most serious thing that the Republican party would have to apprehend from a Democratic apportionment is the reduction of the delegations in New York, Indiana, Missouri, and other doubtful states, thus probably necessitating the election of the entire delegations in those states on a single ticket, a scheme that would be abetted by the Democratic Governors in office by the use of the veto power upon state apportionment bills if necessary. Thus, if the New York delegation were reduced to 33 by the fifty-second Congress in its first session, beginning in December, 1891, the Legislature elected in the fall of the same year would undoubtedly district the state in time for the election in 1892. But if the successor of Gov. Hill should be a Democrat he would veto this bill, and throw the election of 33 Congressmen back upon the state at large along with the electors. This would cause the most important and exciting contest ever known in this state.

All such possibilities of evil can be avoided by the passage of an apportionment bill by the present Congress. This will enable every Legislature to redistrict its state in time for the election in 1892. And we predict that the membership of Congress will be enlarged sufficiently to allow New York and the other great and controlling states of the East to retain their present representation. The increase will go to the West, the Pacific Coast and Texas.

HILL'S STATE COMMITTEE.

Men Rewarded for Knifing Cleveland—A Boodler on the List.

[From the Buffalo Commercial Advertiser.]

An intelligent observer at Syracuse says that one peculiarity about the construction of the committee, and one for all thoughtful Democrats to regard with especial care, is that one-half of the members of the committee are men who were conspicuous for their treachery to the national ticket last fall. McMahon of Cattaraugus, Pat Sutley of Livingston and "Billy" Tracy of Rochester are all known as Hill Democrats who "knifed" Cleveland last year. The first two were dropped from the State Committee two years ago on account of their open hostility to Cleveland. To be known as a man who "sold out" or "knifed" Grover Cleveland last year is not a detriment, but a positive aid to aspiring Democratic politicians under the Hill regime, which now completely controls the party machinery.

These facts are sufficient. They show that the so-called "better element" of the Democratic party have tired of the struggle against Governor Hill and the influences he represents and have given him his head and a free rein. Meanwhile the exigencies of the Hill school of practice are bringing to the front in the Democratic organization some of the most questionable characters ever seen in New York politics. For two years the respectable Democrats in Westchester county have succeeded in keeping D. J. Hickey off the State Committee. He was deeply involved, the *New York Times* says, in the Westchester Boulevard frauds in 1881 and has no standing in the community. But he is a rank Hill Democrat and this year he goes on the State Committee. Governor Hill is setting up a dictatorship in his party. Personal allegiance to his fortunes is coming to be the decisive test of Democratic partisanship. It is needless to say that such a test is bound to have a disastrous effect on the character of the Democratic organization and to send many of the ablest and most respectable members of the party into retirement and quiet opposition.

To send for the doctor every time you don't feel just right. My doctor's bill for years was over a hundred dollars a year, which made a pretty big hole in my wages. The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

Skins on Fire.

Agonizing, Itching, Burning, and Bleeding Eczema in its Worst Stages. A Raw Sore From Head to Feet. Hair Gone. Doctors and Hospitals Fail. Tried Everything. Cured by the Cuticura Remedies for $6.

Cured by Cuticura

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $6. I would not be without the CUTICURA REMEDIES in my house, as I find them useful in many cases and I think they are the only skin and blood medicines.

ISAAC H. GERMAN, Wurtsboro, N. Y.

Burning and Itching.

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they had never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I tried your CUTICURA REMEDIES. After three weeks' use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

C. E. OSMER, Taftsville, Vt.

Most Intense Itching.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy-cheeked boy.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

Consists of one bottle of the Radical Cure, one box Catarrhal Solvent, and Improved Inhaler, all in one package; price $1. Ask for Sanford's Radical Cure. Sold everywhere

TO BUILD A FOUR-DAY SHIP.

WHAT IMPROVEMENT WILL FOLLOW TWIN SCREWS?

The Present Models are All Right, and It Is a Question of More Power—A Radical Change in the Stoke Hole Probable—A Possibility of Something New, Etc.

[From the N. Y. Sun.]

The announcement that two new keels for ships to beat the record between Sandy Hook and Queenstown were to be laid down in the Clyde next season has set the nautical sharps of New-York a-speculating on what points in the construction of the ships efforts for improvement will be made by the designers. A casual look at a modern ship and a consideration of the speed obtained by the queen of them all will make most people believe that the new twin screw ships are about as near perfection as possible now, and yet no one really supposes that the limit has been reached. The question people are asking is what will be done next to improve the ships?

It is just about 10 years since the Alaska came cleaving through the water at a rate that lowered the record for Sandy Hook passages from above to below seven days. During the time that has passed since it earned a grand reputation eight new Liverpool liners have been built and put in commission to break the record, and all but one, the Aurania, proved wonderful ships. Of the rest, the Oregon, the America, the Umbria, and the Etruria were built without any radical departure from the type of which the Alaska had been the queen in its day. They were big, sharp ships, with bigger and stouter boilers and bigger and more powerful engines than the Alaska had. They all had a single propeller at the stern to drive them. They were all good six-day boats. They were all elegantly furnished, and as each one came out and made a swift passage, the smiling agent charged and easily obtained $500 for a trip in the choicest of the state rooms.

In the Etruria, with a record that lacked less than two hours of the five-day limit, it became apparent that the utmost speed attainable from a single screw had been reached. No practical packet ship could do better with one screw, because it would not be possible to load a single screw with enough more power to increase its speed. In the City of New-York a radical departure was made by using twin screws. The City of New-York has not yet beaten the Etruria, but its sister ship, the City of Paris, has done so beyond the possibility of cavil. It has crossed the Atlantic at 20 knots an hour from port to port. It has taken 10 years of labor in designing ships to lower the record of 2,800 knots by 26 hours.

It was not wholly due to twin screws that the record was brought below six days. There have been improvements in engines as well. These improvements consist in triple expansion, instead of double, in the expanding of the steam twice instead of once. Engines of vastly greater power without the enormous increase in size, which greater power on the old plan would have demanded, were obtained. The boilers in the fire rooms were increased in size and thickness of shell to increase the production of steam and withstand an increased pressure. Engineers of middle age remember when the steam pressure in marine boilers ran from 10 to 15 pounds to the square inch. Now the pressure may be set down at 160 pounds. The force exerted on the propellers has run up from 6,000-horse power to over 20,000. The ships have increased somewhat in size, and have been somewhat improved in model, but the increase in speed has come from such an adaptation of boilers, engines and screw propellers as will enable the new ship to kick away the water about four times as hard as the old one did.

But, as has happened once before in the history of the Liverpool trade, the ships have reached the limit of size, and they are once more chock full of machinery. It happened so when side-wheels were used instead of screws and when single instead of compound engines were used. It is not possible to put more boilers or more engines into a ship like the City of Paris than it now has. No more coal bunkers can be got into it, nor can more propellers be added astern. The problem of getting more speed is a difficult one. It amounts to one of getting more power without consuming more coal or putting in more boilers. It is a question of economy. More power will whirl the screws faster and so drive the ship faster. The screws on the City of Paris turn over about 80 times a minute; those on some torpedo boats 200 or 300 times. If a ship of the size of the City of Paris could turn its screws 200 times a minute, it would show an increased speed over the present queen by a wonderful difference.

Of the naval architects whom a reporter consulted, William Cowles expressed the sentiment of all most concisely when he said:

"The next radical step in improving the speed of the transatlantic steamers will be taken in the boiler room. We have been working all around the boiler room. Our engines are 25 years ahead of our boilers. We must get more power. We cannot improve the models."

It is the opinion of Mr. Cowles that to get any further increase of power in the Liverpool packets the water-tube boiler will have to take the place of the present style. The boilers of the present ships send their hot products of combustion from the furnace through tubes that are surrounded by water. In the water-tube boiler the water is contained inside of the tubes and the hot gases are around them. The idea is as old as that of twin screws, but it has never been adopted, partly because engineers were conservative and partly because there were serious defects in the water tube boilers offered by engineers who were not conservative. For instance, there was the difficulty of cleaning out the water tubes in case they got scaled up, and the difficulty of taking out defective tubes when defects were developed. The value of the system has been apparent for years, but while some of these boilers would make steam furiously for a while, they were not durable. But within a year or so it has become possible to get water-tube boilers that were durable and easily accessible for repairs. The tubes can be removed separately for repairs, and there is no longer any danger from sediment or scale. This sort of boiler has been adopted in harbor craft with success. The adoption in Liverpool packets is likely to be the next step.

The reason for this is that the water-tube system properly designed furnishes a boiler, capacity for capacity, of about one-fourth the weight of the ordinary boiler. Thus the marine boiler weighs about 70 pounds per square foot of heating surface. The water-tube boiler may be made at from 14 to 17 pounds. The economy in weight will leave the ship drawing less water. A further economy is in the fact that the metal in the heating surface in the water tube boiler is from one-half to one-fifth of the thickness of the heating surface of the ordinary boiler. Then, although the metal is thinner, the pressure of the steam may be higher because the tubes are small in diameter, and a very much larger heating surface is obtained for each square foot of grate surface.

In short, to avoid technicalities, it is asserted that a ship could be designed on the lines of the City of Paris which would develop one-third more power. One-third more power would not make it a four-day ship, but it would increase its speed perhaps two knots an hour. It would bring the record well below five days and a half at least, and at the same time decrease the consumption of coal.

There is always the possibility of something new coming up, or at least the new development of some old principle in steamship transportation; but nothing radically new, like the placing of screw propellers in the bow as well as in the stern, will be adopted for the Atlantic packets until such new system has been well tried elsewhere. A Liverpool liner costs a million or more, and no such sum as that will be invested in an experiment. Propellers in the bows are working with great economy in a few short-distance ferries, but it will be a long time before there will be an American ferry-boat with a propeller so located. That the bow propeller will come 25 years from now, however, is believed by many engineers, because the wheel so located is unquestionably much more efficient than in the stern.

Of the possibility of propelling a ship by some other method than the screw nothing need be said, because, while a good many inventors are at work on the problem, they are accomplishing nothing.

A RAILROAD ENGINEER'S STORY,

Which Caused Justice to be Done to the Extent of Nine Dollars.

[From an Exchange.]

In the smoking car, along with half-a-dozen others of us, was an engineer, who was going down to Peoria, and after a time the Judge started to draw him out by saying:

"I presume you have had your share of close shaves, along with other engineers?"

"I have, sir," was the reply.

"Been in many smash-ups?"

"A full dozen, I guess."

"Any particular adventure that might be called wonderful?"

"Why, yes, I did have one," replied the man, after relighting his old cigar stump. "I didn't think it any great shave myself, but the boys cracked it up as something extra."

"Let us hear about it," said the Judge, as he passed him a Havana.

"Well, one day about three years ago I was coming West with the lightning express, and was running to make up lost time. Down here about 20 miles two roads cross, as you will see, and there are a lot of switches and side tracks. I had just whistled for the crossing and put on the brakes when the coupling between the tender and the baggage car broke."

"I see, I see," murmured the Judge.

"At the same moment something went wrong with old No. 40, and I could not shut off steam. She sprang away like a flash, and as she struck the crossing she left the track and entered a meadow filled with stumps."

"Great heavens!"

"She kept a straight course for about 40 rods, smashing the stumps every second, and then leaped a ditch, struck the rails of the D. & R. road and ran for two miles."

"Amazing! Amazing!"

"Then, at a crossing, she left the metals, entered a cornfield, and, bearing to the right, ploughed her way across the country until she came to our road again. She had a long jump to make over a marsh, but she made it, struck the rails, and away she went."

"You—don't—say—so!"

"I was now behind my train, and, after a run of two miles, I got control of the engine, ran up and coupled to the palace car, and went into Ashton pushing the train ahead of me."

"Great Scott! And was no one hurt?"

"Not a soul, and not a thing broken. The Superintendent played a mean trick on me, though."

"How?"

"Why, the farmer who owned the meadow paid the company $18 for the stumps I had knocked out for him, while the cornfield man charged $9 for damages. The Superintendent pocketed the balance of the money."

"The scoundrel! And how much are you paid a month?"

"Ninety dollars."

"That's for running on the road?"

"Yes."

"And nothing for lying?"

"Not a red."

"That's an outrage. The Superintendent is an old friend of mine, and I'll see that you get the $9 on the stumpage and a salary of $200 a month as long as you live. It is such men as you who make a line popular."

Mental Powers of Criminals.

[From the Popular Science Monthly.]

The bearing of education on the character and reformation of criminals is discussed by Dr. Hamilton D. Way in a paper on the physical and industrial training of that class, which is published by the Industrial Education Association. The author assumes that "it is a mistake to suppose that the criminal is naturally bright. Moral failure and blunted intellect, as a rule, go hand in hand. If bright, it is usually in a narrow line and self-repeating." The criminal's malpractice has its origin in blunted or non-developed nervous areas, and is indicative of wrong-headedness. Whatever may be said of the motives or incentives that led to crime, the fact remains that the head of the criminal is wrong. The time has gone by in which to argue that to educate the criminal is to make him a more accomplished and successful scamp. "It is through physical and mental training and their composite labor that the slumbering germs of manhood are fructified, maturing under a firm and unrelaxing discipline." The criminal's mind, "while not diseased, is undeveloped or it may be abnormally developed in certain directions; the smartness resulting therefrom partaking of low cunning and centering about self. He is deficient in stability and will power, and incapable of prolonged mental effort and application. His intellect travels in a rut, and fails him in an emergency. His moral nature shares in the imperfections of his physical and mental state." A training is advocated by the author that will awaken the slumbering faculties, and thus set the mind in a normal condition. This training had best not be given by persons connected with the prison, for it might thereby be unpleasantly associated with penal features, but by teachers brought in for the purpose. Dr. Way gives an interesting relation of experiments which he has made with prisoners in accordance with these views, the average results of which are very encouraging.

Heretics and Their Lawsuits.

[Rome Letter to the London Daily Times.]

It is said that the Pope has ordered that the records of the lawsuits of the most celebrated condemned heretics are to be transported from the Holy Office to the Vatican. In the archives of the Holy Office are preserved records of the lawsuits of those who were accused of heresy and immorality. These offer an inexhaustible field for historians. There are kept the documents relating to the trial of Bruno at Rome. Those published by Berto only refer to the proceedings at Venice. In the Vatican archives are preserved the documents of the civil tribunal, contained chiefly in the Pontifical registers. From these sources the most illustrious antiquarians of this century, Angelo Mai, M. Marini, August Theiner and Luigi Tosti, have drawn much information of the greatest value. Theiner and Tosti, by special permission, had access to many unpublished documents when writing the life of Boniface VIII. He is now directing the publication of the registers, those of Clement V. being nearly finished. Theiner, being accused of having carried away various important documents, was disgraced, and was sent out of the Vatican, and died in solitude at Civita Vecchia. The Pope, seeing that the times are favorable for heretics, and fearing that the most celebrated cases will be forgotten at the Holy Office, has ordered their removal to the Vatican. It is said that a new "life" of Bruno is to be prepared at the Vatican confuting the Liberals' condemnation of the inquisition and of his sentence, and showing Bruno under another aspect, as guilty of vices worse than heresy, defaming him completely, and proving his guilt in every particular by documentary evidence.

Cocoanuts.

[From Good Housekeeping.]

As many as 17,000,000 to 20,000,000 cocoanuts come into New-York City every year, chiefly from Central America, though they are grown in nearly all the tropical countries. Those from San Blas are considered the best. They can hardly be said to have a "season," as the imports are nearly constant through the year. A well-grown tree will yield in the rainy season two nuts in three days, and in the dry season the average is about one in two days. Many are lost by being blown off by the high winds before they are ripe. A ripe nut falls of itself. The nuts are sorted as they are unloaded from the vessels, the inspectors being able to determine whether a nut is good by giving it a single tap. They are then packed in bags of 100 each, and put into the market.

LIQUOR AND LICENSE LAWS.

PROHIBITORY LAW OF STATE OF IOWA DECLARED CONSTITUTIONAL.

Glaring Errors Found in the New High License Law of Michigan—Believed Clerk Made Mistake Innocently—What Saloon Keepers Say, Etc.

By Telegraph to The Freeman.

DESMOINES, Ia., Oct. 5.—The constitutionality of the Iowa Prohibitory liquor law has been reaffirmed by the Supreme Court, in an action in replevin involving the right to the possession of a large quantity of beer, all in sealed vessels bearing United States internal revenue stamps over the plugs. The goods were shipped to a resident of Keokuk, an agent of the plaintiff, and were offered for sale in unbroken packages. The lower Court found the beer was kept for sale in violation of the laws of Iowa, but that the laws were unconstitutional and void as applied to this case.

LANSING, Mich., Oct. 5.—The error found in the new high license law Thursday was nothing to the blunders that have been discovered since. All the nearly-found errors are in Section 1, the most vital section of the bill, because it prescribes the amount the saloon keepers and wholesalers shall pay in liquor taxes. Section 1, of the act in the form in which it was signed by the Governor, differs radically from the bill as passed by the Legislature. The act as signed and printed fixes the wholesale tax on spiritous liquors at $500, instead of $600 as recommended by the Conference Committee and agreed to. The license for selling both spirituous and malt liquors at wholesale and retail appears at $1,000 instead of $1,100 as passed. It is probable the mistakes were made innocently by the Clerk who attempted to put the act into coherent shape for the engrossing room, but the liquor men are confident it will enable them to riddle the law in court. The clause increasing the retail tax from $300 to $500 was in the mutilated section and it is believed the saloons can force the State to go back to the old $300 tax law or else knock out the tax feature entirely.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The general list in the stock market was very dull this morning, but the transactions in the trusts, Burlington, Atchison & St. Paul made an active business for the first half hour. The first prices were generally higher, with the advances over last night's prices extending to ⅜ per cent. The only noticeable exception was sugar refineries, in which the pressure to sell was still large, and after opening down ¼ at 86¼, it further declined to 83⅛. The tendency in the regular list during the early dealings was to advance, and Burlington reached 110, while the others rose slightly, but the decline in sugar checked the upward movement, and in some cases declines of from ⅛ to ¼ per cent. were established. Sugar then reacted to 85⅝, and a better tone was noticeable over the entire list, and the market became dull throughout. At 11 o'clock the market was dull and firm generally at a shade better than the opening.

Dangers at Billingsgate.

[From the London Truth.]

It is pleasing to learn from one of Lawrence Hamilton's recent letters that, in addition to its old familiar shortcomings, Billingsgate is peculiarily favorable to the development of bacteria, microbes and all the elements of putrefaction in which dead fish are especially rich. The walls, floors and stalls of a fish market ought, by rights, to be faced with some hard, smooth, non-absorbent material, such as marble or glazed tiles, which will afford no harbor for these microscopic abominations. It seems, however, that at Billingsgate the stalls are mostly of rough wood, the walls of plain brick, and the floors of porous stone, and all are worn, honeycombed and rugged with age. The whole place is consequently impregnated with putrefying filth, with not merely its peculiarly ancient and fish-like smell, but also with the most objectionable results to such wholesome fish as are brought into it. For all this we have to thank Gog and Magog, who not only keep up this outrage on civilization, but charge rents ranging from 6d. to 9d. per square foot for such accommodation as is to be found there.

An Iceland Pony.

[From the Chicago Herald.]

A prominent resident of Richmond, Ind., has a pony which besides feeding as horses usually do, will satisfy carnivorous tastes if he gets a chance. He has been known to devour very young chickens straying within his reach, and the sudden disappearance from the stable of a litter of kittens, while their unsuspecting mother had just gone away for a few moments' change and rest from parental duties, has been, on good grounds, charged to him. There is no dog or other animal on the premises to share the blame. This pony was brought from Iceland, where all horses are of its size; is a well-shaped animal, with a pretty dun coat, light-colored mane and tail, and is very good for driving or riding. It was imported by an American gentleman who has traveled extensively in Iceland, knows the language, and is learned about the sagas of that country.

Chinese Railways.

[From Shanghai Dispatch to the London Standard.]

I hear on good authority that the Emperor, despite the opposition of the reactionaries, has at last issued the edict for the construction of the Tungchow Railway. The Marquess Tseng has been appointed General Director of all the Chinese railways, the construction of which, on an extensive scale, seems now, after many delays and disappointments, to be really at hand.

SKIN CANCER.

Several years ago I was called to see a colored woman who had a malignant form of cancer on her foot. The cancer grew worse under the prescribed treatment, and the toes and one side of the foot were at length eaten entirely away. The patient could not have survived much longer, but I commenced the use of Swift's Specific, and it cured her sound and well. That was three years ago, and there has been no return of the disease. I regard Swift's Specific a most excellent medicine for blood diseases, as its tendency is to drive out the poison. WM. E. STAGG, M. D.

TO BUILD A FOUR-DAY SHIP.

WHAT IMPROVEMENT WILL FOLLOW TWIN SCREWS?

The Present Models are All Right, and It Is a Question of More Power—A Radical Change in the Stoke Hole Probable—A Possibility of Something New, Etc.

[From the N. Y. Sun.]

The announcement that two new keels for ships to beat the record between Sandy Hook and Queenstown were to be laid down in the Clyde next season has set the nautical sharps of New-York a-speculating on what points in the construction of the ships efforts for improvement will be made by the designers. A casual look at a modern ship and a consideration of the speed obtained by the queen of them all will make most people believe that the new twin screw ships are about as near perfection as possible now, and yet no one really supposes that the limit has been reached. The question people are asking is what will be done next to improve the ships?

It is just about 10 years since the Alaska came cleaving through the water at a rate that lowered the record for Sandy Hook passages from above to below seven days. During the time that has passed since it earned a grand reputation eight new Liverpool liners have been built and put in commission to break the record, and all but one, the Aurania, proved wonderful ships. Of the rest, the Oregon, the America, the Umbria, and the Etruria were built without any radical departure from the type of which the Alaska had been the queen in its day. They were big, sharp ships, with bigger and stouter boilers and bigger and more powerful engines than the Alaska had. They all had a single propeller at the stern to drive them. They were all good six-day boats. They were all elegantly furnished, and as each one came out and made a swift passage, the smiling agent charged and easily obtained $500 for a trip in the choicest of the state rooms.

In the Etruria, with a record that lacked less than two hours of the five-day limit, it became apparent that the utmost speed attainable from a single screw had been reached. No practical packet ship could do better with one screw, because it would not be possible to load a single screw with enough more power to increase its speed. In the City of New-York a radical departure was made by using twin screws. The City of New-York has not yet beaten the Etruria, but its sister ship, the City of Paris, has done so beyond the possibility of cavil. It has crossed the Atlantic at 20 knots an hour from port to port. It has taken 10 years of labor in designing ships to lower the record of 2,800 knots by 26 hours.

It was not wholly due to twin screws that the record was brought below six days. There have been improvements in engines as well. These improvements consist in triple expansion, instead of double, in the expanding of the steam twice instead of once. Engines of vastly greater power without the enormous increase in size, which greater power on the old plan would have demanded, were obtained. The boilers in the fire rooms were increased in size and thickness of shell to increase the production of steam and withstand an increased pressure. Engineers of middle age remember when the steam pressure in marine boilers ran from 10 to 15 pounds to the square inch. Now the pressure may be set down at 160 pounds. The force exerted on the propellers has run up from 6,000-horse power to over 20,000. The ships have increased somewhat in size, and have been somewhat improved in model, but the increase in speed has come from such an adaptation of boilers, engines and screw propellers as will enable the new ship to kick away the water about four times as hard as the old one did.

But, as has happened once before in the history of the Liverpool trade, the ships have reached the limit of size, and they are once more chock full of machinery. It happened so when side-wheels were used instead of screws and when single instead of compound engines were used. It is not possible to put more boilers or more engines into a ship like the City of Paris than it now has. No more coal bunkers can be got into it, nor can more propellers be added astern. The problem of getting more speed is a difficult one. It amounts to one of getting more power without consuming more coal or putting in more boilers. It is a question of economy. More power will whirl the screws faster and so drive the ship faster. The screws on the City of Paris turn over about 80 times a minute; those on some torpedo boats 200 or 300 times. If a ship of the size of the City of Paris could turn its screws 200 times a minute, it would show an increased speed over the present queen by a wonderful difference.

Of the naval architects whom a reporter consulted, William Cowles expressed the sentiment of all most concisely when he said:

"The next radical step in improving the speed of the transatlantic steamers will be taken in the boiler room. We have been working all around the boiler room. Our engines are 25 years ahead of our boilers. We must get more power. We cannot improve the models."

It is the opinion of Mr. Cowles that to get any further increase of power in the Liverpool packets the water-tube boiler will have to take the place of the present style. The boilers of the present ships send their hot products of combustion from the furnace through tubes that are surrounded by water. In the water-tube boiler the water is contained inside of the tubes and the hot gases are around them. The idea is as old as that of twin screws, but it has never been adopted, partly because engineers were conservative and partly because there were serious defects in the water tube boilers offered by engineers who were not conservative. For instance, there was the difficulty of cleaning out the water tubes in case they got scaled up, and the difficulty of taking out defective tubes when defects were developed. The value of the system has been apparent for years, but while some of these boilers would make steam furiously for a while, they were not durable. But within a year or so it has become possible to get water-tube boilers that were durable and easily accessible for repairs. The tubes can be removed separately for repairs, and there is no longer any danger from sediment or scale. This sort of boiler has been adopted in harbor craft with success. The adoption in Liverpool packets is likely to be the next step.

The reason for this is that the water-tube system properly designed furnishes a boiler, capacity for capacity, of about one-fourth the weight of the ordinary boiler. Thus the marine boiler weighs about 70 pounds per square foot of heating surface. The water-tube boiler may be made at from 14 to 17 pounds. The economy in weight will leave the ship drawing less water. A further economy is in the fact that the metal in the heating surface in the water tube boiler is from one-half to one-fifth of the thickness of the heating surface of the ordinary boiler. Then, although the metal is thinner, the pressure of the steam may be higher because the tubes are small in diameter, and a very much larger heating surface is obtained for each square foot of grate surface.

In short, to avoid technicalities, it is asserted that a ship could be designed on the lines of the City of Paris which would develop one-third more power. One-third more power would not make it a four-day ship, but it would increase its speed perhaps two knots an hour. It would bring the record well below five days and a half at least, and at the same time decrease the consumption of coal.

There is always the possibility of some thing new coming up, or at least the new development of some old principle in steamship transportation; but nothing radically new, like the placing of screw propellers in the bow as well as in the stern, will be adopted for the Atlantic packets until such new system has been well tried elsewhere. A Liverpool liner costs a million or more, and no such sum as that will be invested in an experiment. Propellers in the bows are working with great economy in a few short-distance ferries, but it will be a long time before there will be an American ferry-boat with a propeller so located. That the bow propeller will come 25 years from now, however, is believed by many engineers, because the wheel so located is unquestionably much more efficient than in the stern.

Of the possibility of propelling a ship by some other method than the screw nothing need be said, because, while a good many inventors are at work on the problem, they are accomplishing nothing.

A RAILROAD ENGINEER'S STORY,

Which Caused Justice to be Done to the Extent of Nine Dollars.

[From an Exchange.]

In the smoking car, along with half-a-dozen others of us, was an engineer, who was going down to Peoria, and after a time the Judge started to draw him out by saying:

"I presume you have had your share of close shaves, along with other engineers?"

"I have, sir," was the reply.

"Been in many smash-ups?"

"A full dozen, I guess."

"Any particular adventure that might be called wonderful?"

"Why, yes, I did have one," replied the man, after relighting his old cigar stump.

"I didn't think it any great shave myself, but the boys cracked it up as something extra."

"Let us hear about it," said the Judge, as he passed him a Havana.

"Well, one day about three years ago I was coming West with the lightning express, and was running to make up lost time. Down here about 20 miles two roads cross, as you will see, and there are a lot of switches and side tracks. I had just whistled for the crossing and put on the brakes when the coupling between the tender and the baggage car broke."

"I see, I see," murmured the Judge.

"At the same moment something went wrong with old No. 40, and I could not shut off steam. She sprang away like a flash, and as she struck the crossing she left the track and entered a meadow filled with stumps."

"Great heavens!"

"She kept a straight course for about 40 rods, smashing the stumps every second, and then leaped a ditch, struck the rails of the D. & R. road and ran for two miles."

"Amazing! Amazing!"

"Then, at a crossing, she left the metals, entered a cornfield, and, bearing to the right, ploughed her way across the country until she came to our road again. She had a long jump to make over a marsh, but she made it, struck the rails, and away she went."

"You—don't—say—so!"

"I was now behind my train, and, after a run of two miles, I got control of the engine, ran up and coupled to the palace car, and went into Ashton pushing the train ahead of me."

"Great Scott! And was no one hurt?"

"Not a soul, and not a thing broken. The Superintendent played a mean trick on me, though."

"How?"

"Why, the farmer who owned the meadow paid the company $18 for the stumps I had knocked out for him, while the cornfield man charged $9 for damages. The Superintendent pocketed the balance of the money."

"The scoundrel! And how much are you paid a month?"

"Ninety dollars."

"That's for running on the road?"

"Yes."

"And nothing for lying?"

"Not a red."

"That's an outrage. The Superintendent is an old friend of mine, and I'll see that you get the $9 on the stumpage and a salary of $200 a month as long as you live. It is such men as you who make a line popular."

Mental Powers of Criminals.

[From the Popular Science Monthly.]

The bearing of education on the character and reformation of criminals is discussed by Dr. Hamilton D. Way in a paper on the physical and industrial training of that class, which is published by the Industrial Education Association. The author assumes that "it is a mistake to suppose that the criminal is naturally bright. Moral failure and blunted intellect, as a rule, go hand in hand. If bright, it is usually in a narrow line and self-repeating." The criminal's malpractice has its origin in blunted or non-developed nervous areas, and is indicative of wrong-headedness. Whatever may be said of the motives or incentives that led to crime, the fact remains that the head of the criminal is wrong. The time has gone by in which to argue that to educate the criminal is to make him a more accomplished and successful scamp. "It is through physical and mental training and their composite labor that the slumbering germs of manhood are fructified, maturing under a firm and unrelaxing discipline." The criminal's mind, "while not diseased, is undeveloped or it may be abnormally developed in certain directions; the smartness resulting therefrom partaking of low cunning and centering about self. He is deficient in stability and will power, and incapable of prolonged mental effort and application. His intellect travels in a rut, and fails him in an emergency. His moral nature shares in the imperfections of his physical and mental state." A training is advocated by the author that will awaken the slumbering faculties, and thus set the mind in a normal condition. This training had best not be given by persons connected with the prison, for it might thereby be unpleasantly associated with penal features, but by teachers brought in for the purpose. Dr. Way gives an interesting relation of experiments which he has made with prisoners in accordance with these views, the average results of which are very encouraging.

Heretics and Their Lawsuits.

[Rome Letter to the London Daily Times.]

It is said that the Pope has ordered that the records of the lawsuits of the most celebrated condemned heretics are to be transported from the Holy Office to the Vatican. In the archives of the Holy Office are preserved records of the lawsuits of those who were accused of heresy and immorality. These offer an inexhaustible field for historians. There are kept the documents relating to the trial of Bruno at Rome. Those published by Berto only refer to the proceedings at Venice. In the Vatican archives are preserved the documents of the civil tribunal, contained chiefly in the Pontifical registers. From these sources the most illustrious antiquarians of this century, Angelo Mai, M. Marini, August Theiner and Luigi Tosti, have drawn much information of the greatest value. Theiner and Tosti, by special permission, had access to many unpublished documents when writing the life of Boniface VIII. He is now directing the publication of the registers, those of Clement V. being nearly finished. Theiner, being accused of having carried away various important documents, was disgraced, and was sent out of the Vatican, and died in solitude at Civita Vecchia. The Pope, seeing that the times are favorable for heretics, and fearing that the most celebrated cases will be forgotten at the Holy Office, has ordered their removal to the Vatican. It is said that a new "life" of Bruno is to be prepared at the Vatican confuting the Liberals' condemnation of the inquisition and of his sentence, and showing Bruno under another aspect, as guilty of vices worse than heresy, defaming him completely, and proving his guilt in every particular by documentary evidence.

Cocoanuts.

[From Good Housekeeping.]

As many as 17,000,000 to 20,000,000 cocoanuts come into New-York City every year, chiefly from Central America, though they are grown in nearly all the tropical countries. Those from San Blas are considered the best. They can hardly be said to have a "season," as the imports are nearly constant through the year. A well-grown tree will yield in the rainy season two nuts in three days, and in the dry season the average is about one in two days. Many are lost by being blown off by the high winds before they are ripe. A ripe nut falls of itself. The nuts are sorted as they are unloaded from the vessels, the inspectors being able to determine whether a nut is good by giving it a single tap. They are then packed in bags of 100 each, and put into the market.

LIQUOR AND LICENSE LAWS.

PROHIBITORY LAW OF STATE OF IOWA DECLARED CONSTITUTIONAL.

Glaring Errors Found in the New High License Law of Michigan—Believed Clerk Made Mistake Innocently—What Saloon Keepers Say, Etc.

By Telegraph to The Freeman.

DESMOINES, Ia., Oct. 5.—The constitutionality of the Iowa Prohibitory liquor law has been reaffirmed by the Supreme Court, in an action in replevin involving the right to the possession of a large quantity of beer, all in sealed vessels bearing United States internal revenue stamps over the plugs. The goods were shipped to a resident of Keokuk, an agent of the plaintiff, and were offered for sale in unbroken packages. The lower Court found the beer was kept for sale in violation of the laws of Iowa, but that the laws were unconstitutional and void as applied to this case.

LANSING, Mich., Oct. 5.—The error found in the new high license law Thursday was nothing to the blunders that have been discovered since. All the nearly-found errors are in Section 1, the most vital section of the bill, because it prescribes the amount the saloon keepers and wholesalers shall pay in liquor taxes. Section 1, of the act in the form in which it was signed by the Governor, differs radically from the bill as passed by the Legislature. The act as signed and printed fixes the wholesale tax on spiritous liquors at $500, instead of $600 as recommended by the Conference Committee and agreed to. The license for selling both spirituous and malt liquors at wholesale and retail appears at $1,000 instead of $1,100 as passed. It is probable the mistakes were made innocently by the Clerk who attempted to put the act into coherent shape for the engrossing room, but the liquor men are confident it will enable them to riddle the law in court. The clause increasing the retail tax from $300 to $500 was in the mutilated section and it is believed the saloons can force the State to go back to the old $300 tax law or else knock out the tax feature entirely.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The general list in the stock market was very dull this morning, but the transactions in the trusts, Burlington, Atchison & St. Paul made an active business for the first half hour. The first prices were generally higher, with the advances over last night's prices extending to ⅜ per cent. The only noticeable exception was sugar refineries in which the pressure to sell was still large, and after opening down ⅛ at 86¼, it further declined to 85½. The tendency in the regular list during the early dealings was to advance, and Burlington reached 110, while the others rose slightly, but the decline in sugar checked the upward movement, and in some cases declines of from ⅛ to ¼ per cent. were established. Sugar then reacted to 85½, and a better tone was noticeable over the entire list, and the market became dull throughout. At 11 o'clock the market was dull and firm generally at a shade better than the opening.

Dangers at Billingsgate.

[From the London Truth.]

It is pleasing to learn from one of Lawrence Hamilton's recent letters that, in addition to its old familiar shortcomings, Billingsgate is peculiarly favorable to the development of bacteria, microbes and all the elements of putrefaction in which dead fish are especially rich. The walls, floors and stalls of a fish market ought, by rights, to be faced with some hard, smooth, non-absorbent material, such as marble or glazed tiles, which will afford no harbor for these microscopic abominations. It seems, however, that at Billingsgate the stalls are mostly of rough wood, the walls of plain brick, and the floors of porous stone, and all are worn, honeycombed and rugged with age. The whole place is consequently impregnated with putrefying filth, with not merely its peculiarly ancient and fish-like smell, but also with the most objectionable results to such wholesome fish as are brought into it. For all this we have to thank Gog and Magog, who not only keep up this outrage on civilization, but charge rents ranging from 6d. to 9d. per square foot for such accommodation as is to be found there.

An Iceland Pony.

[From the Chicago Herald.]

A prominent resident of Richmond, Ind., has a pony which besides feeding as horses usually do, will satisfy carnivorous tastes if he gets a chance. He has been known to devour very young chickens straying within his reach, and the sudden disappearance from the stable of a litter of kittens, while their unsuspecting mother had just gone away for a few moments' change and rest from parental duties, has been, on good grounds, charged to him. There is no dog or other animal on the premises to share the blame. This pony was brought from Iceland, where all horses are of its size; is a well-shaped animal, with a pretty dun coat, light-colored mane and tail, and is very good for driving or riding. It was imported by an American gentleman who has traveled extensively in Iceland, knows the language, and is learned about the sagas of that country.

Chinese Railways.

[From Shanghai Dispatch to the London Standard.]

I hear on good authority that the Emperor, despite the opposition of the reactionaries, has at last issued the edict for the construction of the Tungchow Railway. The Marquess Tseng has been appointed General Director of all the Chinese railways, the construction of which, on an extensive scale, seems now, after many delays and disappointments, to be really at hand.

TO BUILD A FOUR-DAY SHIP.

WHAT IMPROVEMENT WILL FOLLOW TWIN SCREWS?

The Present Models are All Right, and It Is a Question of More Power—A Radical Change in the Stoke Hole Probable—A Possibility of Something New, Etc.

[From the N. Y. Sun.]

The announcement that two new keels for ships to beat the record between Sandy Hook and Queenstown were to be laid down in the Clyde next season has set the nautical sharps of New-York a-speculating on what points in the construction of the ships efforts for improvement will be made by the designers. A casual look at a modern ship and a consideration of the speed obtained by the queen of them all will make most people believe that the new twin screw ships are about as near perfection as possible now, and yet no one really supposes that the limit has been reached. The question people are asking is what will be done next to improve the ships?

It is just about 10 years since the Alaska came cleaving through the water at a rate that lowered the record for Sandy Hook passages from above to below seven days. During the time that has passed since it earned a grand reputation eight new Liverpool liners have been built and put in commission to break the record, and all but one, the Aurania, proved wonderful ships. Of the rest, the Oregon, the America, the Umbria, and the Etruria were built without any radical departure from the type of which the Alaska had been the queen in its day. They were big, sharp ships, with bigger and stouter boilers and bigger and more powerful engines than the Alaska had. They all had a single propeller at the stern to drive them. They were all good six-day boats. They were all elegantly furnished, and as each one came out and made a swift passage, the smiling agent charged and easily obtained $500 for a trip in the choicest of the state rooms.

In the Etruria, with a record that lacked less than two hours of the five-day limit, it became apparent that the utmost speed attainable from a single screw had been reached. No practical packet ship could do better with one screw, because it would not be possible to load a single screw with enough more power to increase its speed. In the City of New-York a radical departure was made by using twin screws. The City of New-York has not yet beaten the Etruria, but its sister ship, the City of Paris, has done so beyond the possibility of cavil. It has crossed the Atlantic at 20 knots an hour from port to port. It has taken 10 years of labor in designing ships to lower the record of 2,800 knots by 26 hours.

It was not wholly due to twin screws that the record was brought below six days. There have been improvements in engines as well. These improvements consist in triple expansion, instead of double, in the expanding of the steam twice instead of once. Engines of vastly greater power without the enormous increase in size, which greater power on the old plan would have demanded, were obtained. The boilers in the fire rooms were increased in size and thickness of shell to increase the production of steam and withstand an increased pressure. Engineers of middle age remember when the steam pressure in marine boilers ran from 10 to 15 pounds to the square inch. Now the pressure may be set down at 160 pounds. The force exerted on the propellers has run up from 6,000-horse power to over 20,000. The ships have increased somewhat in size, and have been somewhat improved in model, but the increase in speed has come from such an adaptation of boilers, engines and screw propellers as will enable the new ship to kick away the water about four times as hard as the old one did.

But, as has happened once before in the history of the Liverpool trade, the ships have reached the limit of size, and they are once more chock full of machinery. It happened so when side-wheels were used instead of screws and when single instead of compound engines were used. It is not possible to put more boilers or more engines into a ship like the City of Paris than it now has. No more coal bunkers can be got into it, nor can more propellers be added astern. The problem of getting more speed is a difficult one. It amounts to one of getting more power without consuming more coal or putting in more boilers. It is a question of economy. More power will whirl the screws faster and so drive the ship faster. The screws on the City of Paris turn over about 80 times a minute; those on some torpedo boats 200 or 300 times. If a ship of the size of the City of Paris could turn its screws 200 times a minute, it would show an increased speed over the present queen by a wonderful difference.

Of the naval architects whom a reporter consulted, William Cowles expressed the sentiment of all most concisely when he said:

"The next radical step in improving the speed of the transatlantic steamers will be taken in the boiler room. We have been working all around the boiler room. Our engines are 25 years ahead of our boilers. We must get more power. We cannot improve the models."

It is the opinion of Mr. Cowles that to get any further increase of power in the Liverpool packets the water-tube boiler will have to take the place of the present style. The boilers of the present ships send their hot products of combustion from the furnace through tubes that are surrounded by water. In the water-tube boiler the water is contained inside of the tubes and the hot gases are around them. The idea is as old as that of twin screws, but it has never been adopted, partly because engineers were conservative and partly because there were serious defects in the water tube boilers offered by engineers who were not conservative. For instance, there was the difficulty of cleaning out the water tubes in case they got scaled up, and the difficulty of taking out defective tubes when defects were developed. The value of the system has been apparent for years, but while some of these boilers would make steam furiously for a while, they were not durable. But within a year or so it has become possible to get water-tube boilers that were durable and easily accessible for repairs. The tubes can be removed separately for repairs, and there is no longer any danger from sediment or scale. This sort of boiler has been adopted in harbor craft with success. The adoption in Liverpool packets is likely to be the next step.

The reason for this is that the water-tube system properly designed furnishes a boiler, capacity for capacity, of about one-fourth the weight of the ordinary boiler. Thus the marine boiler weighs about 70 pounds per square foot of heating surface. The water-tube boiler may be made at from 14 to 17 pounds. The economy in weight will leave the ship drawing less water. A further economy is in the fact that the metal in the heating surface in the water tube boiler is from one-half to one-fifth of the thickness of the heating surface of the ordinary boiler. Then, although the metal is thinner, the pressure of the steam may be higher because the tubes are small in diameter, and a very much larger heating surface is obtained for each square foot of grate surface.

In short, to avoid technicalities, it is asserted that a ship could be designed on the lines of the City of Paris which would develop one-third more power. One-third more power would not make it a four-day ship, but it would increase its speed perhaps two knots an hour. It would bring the record well below five days and a half at least, and at the same time decrease the consumption of coal.

There is always the possibility of something new coming up, or at least the new development of some old principle in steamship transportation; but nothing radically new, like the placing of screw propellers in the bow as well as in the stern, will be adopted for the Atlantic packets until such new system has been well tried elsewhere. A Liverpool liner costs a million or more, and no such sum as that will be invested in an experiment. Propellers in the bows are working with great economy in a few short-distance ferries, but it will be a long time before there will be an American ferry-boat with a propeller so located. That the bow propeller will come 25 years from now, however, is believed by many engineers, because the wheel so located is unquestionably much more efficient than in the stern.

Of the possibility of propelling a ship by some other method than the screw nothing need be said, because, while a good many inventors are at work on the problem, they are accomplishing nothing.

A RAILROAD ENGINEER'S STORY,

Which Caused Justice to be Done to the Extent of Nine Dollars.

[From an Exchange.]

In the smoking car, along with half-a-dozen others of us, was an engineer, who was going down to Peoria, and after a time the Judge started to draw him out by saying:

"I presume you have had your share of close shaves, along with other engineers?"

"I have, sir," was the reply.

"Been in many smash-ups?"

"A full dozen, I guess."

"Any particular adventure that might be called wonderful?"

"Why, yes, I did have one," replied the man, after relighting his old cigar stump. "I didn't think it any great shave myself, but the boys cracked it up as something extra."

"Let us hear about it," said the Judge, as he passed him a Havana.

"Well, one day about three years ago I was coming West with the lightning express, and was running to make up lost time. Down here about 20 miles two roads cross, as you will see, and there are a lot of switches and side tracks. I had just whistled for the crossing and put on the brakes when the coupling between the tender and the baggage car broke."

"I see, I see," murmured the Judge.

"At the same moment something went wrong with old No. 40, and I could not shut off steam. She sprang away like a flash, and as she struck the crossing she left the track and entered a meadow filled with stumps."

"Great heavens!"

"She kept a straight course for about 40 rods, smashing the stumps every second, and then leaped a ditch, struck the rails of the D. & R. road and ran for two miles."

"Amazing! Amazing!"

"Then, at a crossing, she left the metals, entered a cornfield, and, bearing to the right, ploughed her way across the country until she came to our road again. She had a long jump to make over a marsh, but she made it, struck the rails, and away she went."

"You—don't—say—so!"

"I was now behind my train, and, after a run of two miles, I got control of the engine, ran up and coupled to the palace car, and went into Ashton pushing the train ahead of me."

"Great Scott! And was no one hurt?"

"Not a soul, and not a thing broken. The Superintendent played a mean trick on me, though."

"How?"

"Why, the farmer who owned the meadow paid the company $18 for the stumps I had knocked out for him, while the cornfield man charged $9 for damages. The Superintendent pocketed the balance of the money."

"The scoundrel! And how much are you paid a month?"

"Ninety dollars."

"That's for running on the road?"

"Yes."

"And nothing for lying?"

"Not a red."

"That's an outrage. The Superintendent is an old friend of mine, and I'll see that you get the $9 on the stumpage and a salary of $200 a month as long as you live. It is such men as you who make a line popular."

Mental Powers of Criminals.

[From the Popular Science Monthly.]

The bearing of education on the character and reformation of criminals is discussed by Dr. Hamilton D. Way in a paper on the physical and industrial training of that class, which is published by the Industrial Education Association. The author assumes that "it is a mistake to suppose that the criminal is naturally bright. Moral failure and blunted intellect, as a rule, go hand in hand. If bright, it is usually in a narrow line and self-repeating." The criminal's malpractice has its origin in blunted or non-developed nervous areas, and is indicative of wrong-headedness. Whatever may be said of the motives or incentives that led to crime, the fact remains that the head of the criminal is wrong. The time has gone by in which to argue that to educate the criminal is to make him a more accomplished and successful scamp. "It is through physical and mental training and their composite labor that the slumbering germs of manhood are fructified, maturing under a firm and unrelaxing discipline." The criminal's mind, "while not diseased, is undeveloped or it may be abnormally developed in certain directions; the smartness resulting therefrom partaking of low cunning and centering about self. He is deficient in stability and will power, and incapable of prolonged mental effort and application. His intellect travels in a rut, and fails him in an emergency. His moral nature shares in the imperfections of his physical and mental state." A training is advocated by the author that will awaken the slumbering faculties, and thus set the mind in a normal condition. This training had best not be given by persons connected with the prison, for it might thereby be unpleasantly associated with penal features, but by teachers brought in for the purpose. Dr. Way gives an interesting relation of experiments which he has made with prisoners in accordance with these views, the average results of which are very encouraging.

Heretics and Their Lawsuits.

[Rome Letter to the London Daily Times.]

It is said that the Pope has ordered that the records of the lawsuits of the most celebrated condemned heretics are to be transported from the Holy Office to the Vatican. In the archives of the Holy Office are preserved records of the lawsuits of those who were accused of heresy and immorality. These offer an inexhaustible field for historians. There are kept the documents relating to the trial of Bruno at Rome. Those published by Berto only refer to the proceedings at Venice. In the Vatican archives are preserved the documents of the civil tribunal, contained chiefly in the Pontifical registers. From these sources the most illustrious antiquarians of this century, Angelo Mai, M. Marini, August Theiner and Luigi Tosti, have drawn much information of the greatest value. Theiner and Tosti, by special permission, had access to many unpublished documents when writing the life of Boniface VIII. He is now directing the publication of the registers, those of Clement V. being nearly finished. Theiner, being accused of having carried away various important documents, was disgraced, and was sent out of the Vatican, and died in solitude at Civita Vecchia. The Pope, seeing that the times are favorable for heretics, and fearing that the most celebrated cases will be forgotten at the Holy Office, has ordered their removal to the Vatican. It is said that a new "life" of Bruno is to be prepared at the Vatican confuting the Liberals' condemnation of the inquisition and of his sentence, and showing Bruno under another aspect, as guilty of vices worse than heresy, defaming him completely, and proving his guilt in every particular by documentary evidence.

Cocoanuts.

[From Good Housekeeping.]

As many as 17,000,000 to 20,000,000 cocoanuts come into New-York City every year, chiefly from Central America, though they are grown in nearly all the tropical countries. Those from San Blas are considered the best. They can hardly be said to have a "season," as the imports are nearly constant through the year. A well-grown tree will yield in the rainy season two nuts in three days, and in the dry season the average is about one in two days. Many are lost by being blown off by the high winds before they are ripe. A ripe nut falls of itself. The nuts are sorted as they are unloaded from the vessels, the inspectors being able to determine whether a nut is good by giving it a single tap. They are then packed in bags of 100 each, and put into the market.

LIQUOR AND LICENSE LAWS.

PROHIBITORY LAW OF STATE OF IOWA DECLARED CONSTITUTIONAL.

Glaring Errors Found in the New High License Law of Michigan—Believed Clerk Made Mistake Innocently—What Saloon Keepers Say, Etc.

By Telegraph to The Freeman.

DESMOINES, Ia., Oct. 5.—The constitutionality of the Iowa Prohibitory liquor law has been reaffirmed by the Supreme Court, in an action in replevin involving the right to the possession of a large quantity of beer, all in sealed vessels bearing United States internal revenue stamps over the plugs. The goods were shipped to a resident of Keokuk, an agent of the plaintiff, and were offered for sale in unbroken packages. The lower Court found the beer was kept for sale in violation of the laws of Iowa, but that the laws were unconstitutional and void as applied to this case.

LANSING, Mich., Oct. 5.—The error found in the new high license law Thursday was nothing to the blunders that have been discovered since. All the nearly-found errors are in Section 1, the most vital section of the bill, because it prescribes the amount the saloon keepers and wholesalers shall pay in liquor taxes. Section 1, of the act in the form in which it was signed by the Governor, differs radically from the bill as passed by the Legislature. The act as signed and printed fixes the wholesale tax on spirituous liquors at $500, instead of $600 as recommended by the Conference Committee and agreed to. The license for selling both spirituous and malt liquors at wholesale and retail appears at $1,000 instead of $1,100 as passed. It is probable the mistakes were made innocently by the Clerk who attempted to put the act into coherent shape for the engrossing room, but the liquor men are confident it will enable them to riddle the law in court. The clause increasing the retail tax from $300 to $500 was in the mutilated section and it is believed the saloons can force the State to go back to the old $300-tax law or else knock out the tax feature entirely.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Oct. 5.—The general list in the stock market was very dull this morning, but the transactions in the trusts, Burlington, Atchison & St. Paul made an active business for the first half hour. The first prices were generally higher, with the advances over last night's prices extending to ⅜ per cent. The only noticeable exception was sugar refineries, in which the pressure to sell was still large, and after opening down ¼ at 86¼, it further declined to 83¾. The tendency in the regular list during the early dealings was to advance, and Burlington reached 110, while the others rose slightly, but the decline in sugar checked the upward movement, and in some cases declines of from ⅛ to ¼ per cent. were established. Sugar then reacted to 85¼, and a better tone was noticeable over the entire list, and the market became dull throughout. At 11 o'clock the market was dull and firm generally at a shade better than the opening.

Dangers at Billingsgate.

[From the London Truth.]

It is pleasing to learn from one of Lawrence Hamilton's recent letters that, in addition to its old familiar shortcomings, Billingsgate is peculiarily favorable to the development of bacteria, microbes and all the elements of putrefaction in which dead fish are especially rich. The walls, floors and stalls of a fish market ought, by rights, to be faced with some hard, smooth, non-absorbent material, such as marble or glazed tiles, which will afford no harbor for these microscopic abominations. It seems, however, that at Billingsgate the stalls are mostly of rough wood, the walls of plain brick, and the floors of porous stone, and all are worn, honeycombed and rugged with age. The whole place is consequently impregnated with putrefying filth, with not merely its peculiarly ancient and fish-like smell, but also with the most objectionable results to such wholesome fish as are brought into it. For all this we have to thank Gog and Magog, who not only keep up this outrage on civilization, but charge rents ranging from 6d. to 9d. per square foot for such accommodation as is to be found there.

An Iceland Pony.

[From the Chicago Herald.]

A prominent resident of Richmond, Ind., has a pony which besides feeding as horses usually do, will satisfy carnivorous tastes if he gets a chance. He has been known to devour very young chickens straying within his reach, and the sudden disappearance from the stable of a litter of kittens, while their unsuspecting mother had just gone away for a few moments' change and rest from parental duties, has been, on good grounds, charged to him. There is no dog or other animal on the premises to share the blame. This pony was brought from Iceland, where all horses are of its size; is a well-shaped animal, with a pretty dun coat, light-colored mane and tail, and is very good for driving or riding. It was imported by an American gentleman who has traveled extensively in Iceland, knows the language, and is learned about the sagas of that country.

Chinese Railways.

[From Shanghai Dispatch to the London Standard.]

I hear on good authority that the Emperor, despite the opposition of the reactionaries, has at last issued the edict for the construction of the Tungchow Railway. The Marquess Tseng has been appointed General Director of all the Chinese railways, the construction of which, on an extensive scale, seems now, after many delays and disappointments, to be really at hand.

THE SHOW AT THE CITY HALL

DOINGS OF THE MAYOR AND THE ALDERMEN LAST NIGHT.

The Wide-Tire Ordinance is Passed—The Mayor Leaves the Chair and Makes Another "Speech"—Aldermen's Rights—The Proceedings in Detail.

John Newkirk, the Mayor of this City, was again the chief actor in a farcical scene in the Common Council last night. After calling Alderman Kraft to the Chair he made a disjointed harangue on the wide-tire question, ancient history, Connecticut Blue Laws, etc. After he had "spoken his little piece" he resumed his Chair, to the great relief of the Aldermen and the crowd on the benches.

Several times during the session Aldermen asked to have their motions entertained, but the Mayor ruled them out of order.

The routine report follows:

All the Aldermen were present except Alderman Cordts. The Mayor presided.

The Mayor stated he had appointed Dr. George C. Basten, of the Third Ward, and Dr. Walter D. Hasbrouck, of the Fifth Ward, as members of the Board of Health.

Alderman Dolson moved their confirmation.

Alderman Dederick moved the matter be laid on the table.

Alderman Brinnier moved an amendment to substitute the names of Dr. George C. Smith and John R. Stebbins as members of the Board of Health.

The Mayor—"I declare that out of order."

Alderman Brinnier appealed from the decision.

The Mayor said he had the right to name the members of the Board of Health, and while making a speech, Alderman Brinnier arose to a point of order that the Mayor was not explaining his decision.

Alderman Dolson spoke in favor of the appointments.

Alderman Brinnier insisted upon his appeal and the Mayor declared the appeal out of order.

Alderman Brinnier appealed from the decision which ruled the appeal out of order.

The Mayor spoke on the question and Alderman Brinnier inquired: "Do you refuse to entertain the appeal?"

The Mayor stated that he did.

Alderman Brinnier—"I move as an amendment that Alderman Weiss be called to the Chair."

The Mayor—"When you want to put another man in my chair—take away the rights given to me by the charter, I would like to see you at it."

The amendment of Alderman Dederick, that the confirmation of the appointments be laid over until the next meeting, was lost, and the resolution of Alderman Dolson confirming the appointments was carried. Ayes 10, noes 7.

A letter from the City Clerk of Middletown inviting the Mayor and Common Council to attend the annual parade of the Fire Department of that City on October 10, was read. The invitation was accepted.

A communication from Weber Hose Company, asking that a leakage of gas in the engine-house be checked, was read. The matter was referred to the Committee on Repairs and Supplies.

On motion of Alderman North, F. Madden, who furnishes broken stone to the City, was requested to give the City a statement of the amount of stone that had been delivered in order that it may be determined whether the old contract had been filled or not.

A bill of Officer C. D. Westbrook, Jr., was referred to the Corporation Counsel.

A bill of William Schlade for injury to a horse was referred to a committee consisting of Aldermen Thompson and Beck and the Corporation Counsel.

An estimate of the City Engineer that there is due Francis Kernan, contractor of First Ward sewers, $7,956.68, was read, and on motion of Alderman Dederick the report was received and an improvement certificate ordered issued.

Alderman Dederick moved the matter of extending water main to Down-street be referred to the Committee on Water Supply. He said the principal use the water would be put to would be in the creamery.

Alderman Kraft—"Is it for the purpose of watering the milk?"

Alderman Dederick—"No, for washing bottles."

The resolution was carried.

On motion of Alderman Thompson the Street Superintendent was directed to cover up a portion of the Ravine-street sewer near Spring-street.

Alderman Gallagher moved Murray-street be top-dressed from Hasbrouck to Delaware-avenues.

Alderman Coogan moved the streets be repaired in rotation as per resolution regarding the same.

Alderman Gallagher accepted the amendment. Carried.

Alderman Coogan moved that a cross-walk be placed on Washington-avenue between Lucas-avenue and North Front-street. Carried.

Alderman Purvis moved the Street Superintendent dig out the ditch and repair the roadway on the Rosendale road near the John Kidd residence. Carried.

Alderman Beck moved that the Street Superintendent top-dress Mill-street from Union to Hasbrouck-avenues. Carried.

Alderman Dederick moved that the Street Superintendent raise the cross-walk lying across Hasbrouck-avenue on the east side of Foxhall-avenue. Carried.

Alderman Kraft moved that the City Clerk advertise for proposals for the construction of a surface water drain in the First Ward. Carried.

Alderman Kraft moved that the Committee on Water Supply notify the Water Company to connect the City water with flushing tanks in First Ward in accordance with contract, and report to the Common Council at the next meeting whether connections have been made.

Alderman Coogan moved an amendment that a Committee wait on the Water Company and make necessary arrangements for water for flushing tanks.

Alderman Wieber moved the Corporation Counsel as a substitute. It was carried to refer it to the Corporation Counsel.

On motion of Alderman Wieber John Hussey, Jr., was appointed Inspector of Elections of the Sixth Ward in place of E. D. Brandow, who has moved out of the ward.

On motion of Alderman North Wilbur Hale was appointed Inspector of Elections in the Sixth Ward in place of M. D. Youngman, resigned.

Alderman Brinnier moved the Street Superintendent top-dress Prospect-street from Greenkill-avenue to St. James-street. Carried.

Alderman Beck moved that the Common Council reconsider the vote taken at the last meeting in relation to the wide-tire ordinance.

The Mayor decided he was out of order, because he was not present at the last meeting.

Alderman Coutant made the same motion with like result.

The Mayor said the Blue Book was his authority for the ruling.

Alderman Brinnier—"I move it be reconsidered."

The Mayor said he did not propose that the Alderman of the Ninth should dictate.

Alderman Brinnier called the Mayor to order saying: "You have no business to make a speech while in the Chair, but have only the right to state the question."

The Mayor told Alderman Brinnier to take his seat, saying: "You are not the Mayor of this City."

Alderman Brinnier appealed from the decision of the Chair.

The Mayor ruled it out of order.

Alderman Brinnier said the Common Council had a right to make their own rules.

The Mayor said they would have to change the rules before a vote could be taken.

Alderman Brinnier moved the repeal of so much of Rule Six as requires a person voting in the majority on a question to move a reconsideration.

The Mayor—"You want a two-thirds vote on that."

Alderman Brinnier—"Only 10 votes."

Alderman Weiss moved the resolution be laid on the table. Lost. A vote was taken on the resolution of Alderman Brinnier and it was lost.

Alderman Hamburger—"I move to reconsider the wide-tire ordinance." Carried, 15 voting in the affirmative, Aldermen Weiss and Coutant voting in the negative.

Alderman Dederick—"I move the adoption of the ordinance."

The Mayor directed the Clerk to read the ordinance.

The wide-tire ordinance was then read. It contained a clause: "This shall not be construed to apply to any stone tramway in the City of Kingston," to take effect April 10, 1890.

Alderman Dederick moved the adoption of the ordinance.

"The Mayor declared it out of order saying: "The ordinance is not admissible under the charter. I will call for the decision of the Corporation Counsel."

Alderman Dederick—"I appeal from your decision."

The Mayor said: The Corporation Counsel is the legal adviser of the Mayor, and I claim I have the right to ask his advice about this ordinance."

Alderman Dederick said the Corporation Counsel had given his opinion twice on the question, that it can become a law.

The Mayor insisted that the Corporation Counsel should give his opinion.

Alderman TenBroeck asked whether the Corporation Counsel was employed solely by the Mayor or by the Common Council.

The Mayor—"By the City of Kingston."

Alderman Beck moved the Corporation Counsel be excused. Lost.

Corporation Counsel Hasbrouck said: "I would like to give the Mayor my opinion under ordinary circumstances, but recognizing as I do the hostility of the Mayor to this ordinance on the one hand, and the favor of some of the members of the Common Council for it on the other, since my employment arises from the Common Council, I feel my opinion ought to be requested by them before I give it."

The Mayor—"I shall now declare the ordinance out of order."

Alderman Dederick—"I appeal from your decision."

The Mayor—"Now I believe I have the right to the floor."

Alderman Dederick—"You will please call some brother to the chair."

The Mayor—"I call Alderman Dederick to order." The Mayor then proceeded to make a speech.

Alderman Kraft asked him if he considered himself in order, and the Mayor said he was.

The Mayor—"This ordinance is not admissible under the charter. At page 29 the Charter says that the Common Council shall not have the power to prescribe a penalty of more than $100. The penalty stated in this ordinance is $200. I therefore declare it out of order."

Alderman Brinnier moved the speech of the Mayor be limited to three minutes.

The Mayor—"This Common Council has no right to pass that ordinance until they have the Charter amended."

Alderman Dederick—"In 1888 the act was changed so as to allow the Common Council to impose penalties not to exceed $200.

The Mayor—[In surprise.] "When?"

Corporation Counsel Hasbrouck—"The laws of 1888."

Alderman Brinnier to the Mayor—"You are behind the times."

Corporation Counsel Hasbrouck stated the law, the bill for which he had drawn up himself by the direction of the Common Council.

Alderman Dederick—"I call for my appeal."

Mayor Newkirk—"If the statute says $200 I declare the ordinance in order."

The Mayor stated the question and calling Alderman Kraft to the chair, took the floor and commenced to address the Common Council.

The Mayor—"The ordinance is obnoxious; it is oppressive and tyrannical. It is more tyrannical than was the tax upon the tea, by the British Government—"

Alderman Coutant—"Is not the Mayor out of order? I rise to a point of order on the tea. The tea is not relevant."

The Mayor continuing—"It is more oppressive than the tax put upon tea by the British Government and thrown overboard in the Boston harbor in the days of the Revolution—"

Alderman Coutant—"I rise to a point of order."

The point of order was decided not well taken. An appeal was taken from the decision of the Chair by Alderman Coutant. The Chair was sustained.

Alderman Coutant—"I move he be limited to two minutes."

The Mayor—"I can't get through in two minutes."

Alderman Beck—"Let it be 10 minutes."

The Mayor—"It is more oppressive than the blue laws of Connecticut, which made it a misdemeanor to appear upon the streets of New-Haven and Hartford—."

Alderman Coutant—"Isn't he out of order? We have nothing to do with the laws of Connecticut. We are on the wide-tire ordinance question."

The Mayor—"It is more oppressive than the blue laws of Connecticut which made it a misdemeanor for a man to appear upon the streets of Hartford and New-Haven smoking. This is depriving a man of his rights upon the highway. Sir Patrick Henry said: 'Give me liberty or give me death!' The public press have attacked me upon the right and upon the left. They attacked my father for acts committed about a century ago; they said he lived in Hurley and bored the Hurley Mountains, Hurley, the land of butter, milk and pot-cheese. I was born in the town of Hurley, August 11, 1839—."

Alderman Coutant—"I don't think it is necessary for the Mayor to give a history of his life, this is the wide-tire ordinance we are talking about."

Alderman Kraft to the Mayor—"Keep as near to the question as possible."

The Mayor—"Captain Cornelius Newkirk was a man of iron nerve; he commanded one of the largest military companies——"

Alderman Coutant—"I rise to a point of order."

Alderman Brinnier—"I object to the interference of the Ninth. The Mayor inherited that iron nerve."

The Mayor—"Have I the right to proceed?"

The Chair—"You have the floor."

The Mayor—"The membership of that company extended all over Ulster County, ——"

Alderman Coutant, to the Chair—"I appeal from your decision."

A vote was taken on the appeal and the Chair was sustained.

Alderman Coutant—"I move the previous question."

The Mayor—"I rise to a point of order."

Alderman Kraft, from the Chair—"You are out of order. The question before the house is 'Shall the main question be now put?'"

The Mayor—"The Alderman from the Ninth has undertaken to shut me off."

Alderman Brinnier—"The Mayor had the floor and there is where the iron nerve came in."

Alderman Coutant—"He didn't have the floor because I called him to order."

Alderman Kraft stated the question: "Shall the main question be now put?"

The Mayor—"Then I am entitled to take my seat. If I am not in order I'll take the chair." Alderman Kraft vacated the chair and Mayor Newkirk took his seat.

Alderman Brinnier—"Don't allow them to take the nerve out of you."

The Mayor—"It is a very ungentlemanly way of interposing the gag law and would be thought so if he took the same method."

Alderman Coutant—"Are you in order?"

The Mayor—"I call the gentleman to order."

Alderman Coutant—"I think the Mayor better come to order."

The Mayor stated the question before the house was the resolution of Alderman Dederick to adopt the ordinance. A vote was taken, and resulted ayes 11, noes 6. Those in the affirmative, TenBroeck, Kraft, Dederick, Murray, Beck, Wieber, North, Thompson, Purvis, Brinnier, Coutant. Noes, Dolson, Goodsell, Gallagher, Hamburger, Weiss, Coogan.

The Mayor declared the ordinance adopted.

Alderman Murray moved the adoption of an ordinance for curbing, guttering and flagging sidewalk on a portion of Tompkins-street, between Union and Yeomans-streets.

On motion of Alderman Gallagher it was adopted.

On motion of Alderman Thompson it was decided when the Common Council adjourn it be for two weeks.

On motion of Alderman North the Common Council proceeded to designate polling-places for the coming election, resulting as follows:

First Ward, Fireman's Hall, Fair-street.
Second Ward, City Hall.
Third Ward, Greeley House.
Fourth Ward, Stein-r's Hall.
Fifth Ward, Mill-Street Engine House.
Sixth Ward, Abeel-Street Engine House.
Seventh Ward, Hone-Street Engine House.
Eighth Ward, Scott's, on Wall-street.
Ninth Ward, Clinton-Avenue Engine House.

Alderman Weiber moved to take up the ordinance for a sewer on Livingston-street. Carried.

Alderman Weiber moved the adoption of the ordinance.

Alderman Beck said there were remonstrances against it.

Alderman Brinnier moved to lay it over until the next meeting. Carried.

Alderman Dederick moved the sliding doors be taken off the book-cases in the Girls' Library Room in the City Hall. Carried.

Alderman North, of the Committee on Auditing Accounts, reported a number of bills. Warrants were ordered issued as soon as money was in the hands of the Treasurer.

Alderman Brinnier moved that the Ulster & Delaware Railroad be required to extend their bridge at the junction of Delaware and Hasbrouck-avenues.

Alderman Murray moved its adoption. After a discussion a resolution of Alderman Coutant that it be laid on the table was carried.

Alderman Brinnier, of the Street Committee, reported work finished on a portion of Chestnut-street. The report was received.

Alderman Coutant moved that an improvement certificate be issued to the contractor doing the work on Chestnut-street. Carried.

Alderman Wieber moved that the City Engineer report.

At this time a number of Aldermen became restive, left their seats and seeing that the house would soon lack a quorum, a motion was hastily made to adjourn, which was carried.

MINOR NOTES AROUND THIS CITY.

What People Found to Talk About This Fifth Day of October.

In the Court of Sessions the case of The People vs. Robinson was concluded yesterday afternoon. The jury was out until 7:30 o'clock, when they rendered a verdict of grand larceny in the second degree. The defendant will be sentenced Monday. In the case of The People vs. William H. Nock, a demurrer was argued. The defendant is indicted for obtaining goods from the hardware firm of Sahler, Reynolds & Webster, by false representations as to his solvency. The demurrer was denied. A plea of not guilty was entered. Court adjourned until Monday at 11 o'clock A. M.

A little tot in Rondout whose ideas of crickets were received from the large wooden "crickets" used as toys by children, was much pertabed by one getting in the house the other night. She wanted to know of her papa if it would make more noise if he would "get it and swing it around a little."

Another hearing in the McGinnis vs. McGinnis partition reference case will be held before Referee John J. Linson on Monday.

The delightful weather of to day brought many people into town to do their fall trading and merchants were kept busy.

The Democratic County Convention will be held at the Court House, in Kingston, on Wednesday, October 26, at noon.

The old-time schottische, it is said, will be popular at balls and parties the coming winter.

There will be a Special Term of the Supreme Court at Chambers on October 12.

Fall freighting is expected to continue lively until the closing of navigation.

Stoves are going up. This does not refer to the price.

The last quarter post of the year has been passed.

There was a heavy white frost this morning.

TIDINGS OF BOATS AND BOATMEN.

A Boat Sunk in the Rondout Creek—Coal Tonnage at Tide-water.

A Western canal boat called the John Bart, owned by Captain Malloy, which was being laden with cement at the New-York & Rosendale Cement Company's dock, near Wilbur, sprang aleak last night and sank, with about 1,200 barrels of cement on board.

The whistle of the steamboat "James W. Baldwin" was blown at the mouth of the Rondout Creek at 10:30 o'clock last night.

There arrived at tidewater at Eddyville yesterday 25 Delaware & Hudson Canal boats laden with 3,250 tons of coal.

The schooner Minnie C. Post is in the Rondout Creek with a cargo of Sing Sing lime.

Affairs of Societies.

When the Grand Lodge, Knights of Pythias, meets here next year, it will find three of the largest organizations of that order in the United States. The fact that one-third of the total growth of the order is credited to Ulster County shows that Pythian Knights here have been working zealously. The total number of Knights in this City is nearly 800.

Eight hundred Odd Fellows attended the institution of Riverview Lodge, at Fishkill Landing on Wednesday afternoon

The Second degree will be conferred in Rondout Lodge, No. 343, F. & A. M., on Monday evening.

The Marine Engineers' Beneficial Association now has a membership of over 50.

The First Wards Sewers.

The Commission on First Ward sewers held a session to-day, at the Court House. Testimony was taken principally in reference to the James and Alice Scott property on Warren-street. James Scott testified that the main sewer would run through the property in question about 210 feet, and the damage would be about $250. Charles E. Johnston said that the damage would be about $350. City Engineer Sears and City Clerk Schepmoes gave testimony in regard to the adoption of the maps by the Common Council and general line of the sewer. The case was adjourned to October 18.

Yom Kippur.

The observance of Yom Kippur was begun by the Jewish population here last evening, and it will end this evening. Services were held in the Synagogue of the Congregation Emanuel to-day. The Rev. D. Wolff officiated. The services will end with the blowing of the sophar, which indicates that the fast is over. Yom Kippur is a solemn observance in the Jewish ritual, during which neither food nor drink is partaken of by Orthodox Jews.

Three Children's Lucky Escape.

While three children—John Gallagher, Frank Loughran and Mary Gallagher—were riding in a village cart down Fair-street extension this afternoon, the horse became frightened and went over the embankment, a distance of 20 or 30 feet. The children were found under the cart, and strange to say, were only slightly bruised. The cart was broken. The horse was unhurt.

Change of Time-Table.

On and after to-morrow the ferry-boat Transport will leave Rondout at 6:40 o'clock A. M., instead of 8:20 A. M., as heretofore, to connect with the Cincinnati Express, which will leave Rhinebeck at 7:17 A. M., instead of 8:42 A. M. as heretofore.

In Recorder's Court.

A young man named Michael Wall was arraigned on complaint of Mrs. George Bowers, charged with assault. Wall was fined $5.

A Fish Story.

A German carp weighing 10 pounds was found in a pond of Daniel Budd, of Goshen, when the water was drained a few days ago

BOARD OF ALMS COMMISSIONERS.

More Talk About Violations of the Excise Law—Bill Ordered Paid, Etc.

The Board of Alms Commissioners held a meeting at the City Hall last night. There were present George L. Wachmeyer, William H. Turner, Henry Tietjen, James L. VanDeusen, Henry Koltz, William B. Scott, Secretary, and E. D. Brandow, Attorney for the Board. Mr. Wachmeyer presided.

Commissioner Tietjen called the attention of the Board to a bill for $36.80 claimed by one Theodore Mitchell for taking care of a scarlet fever patient in a shanty at Steep Rocks. This bill was referred to the Board of Health at the last meeting of that body and was rejected. Mr. Tietjen said: "This man Mitchell is ill with consumption at Steep Rocks. He is without friends and money. It is strange if this Board or the Health Board cannot pay him. I can make affidavit that one of the members of the Health Board told me that Mitchell was engaged to take care of the patient by Sanitary Inspector TenBroeck. Inspector TenBroeck himself told me as much. What more evidence do you want. Somebody has got to pay; there is no use haggling about it. It Mitchell can be got to Canada where his friends are the City will be money in."

On motion of Commissioner Turner the bill was ordered to be paid.

In relation to placing chronic insane in the asylums in other states the Secretary said that he received word from institutions in Philadelphia, Hartford, Conn., and Middletown, Conn., to the effect that there was no room for outside patients.

Commissioner Turner read the requisition for supplies for October and they were granted.

Excise matters were talked about. The Attorney gave the number of cases now pending against violators.

Commissioner Wachmeyer said he did not believe that if actions were begun for Sunday violations that the Board could recover one cent of the penalty if the party whom action was brought against was found guilty, as the case would be a criminal one, and the fine would go into the Court fund. In the end, if this was so, the Board would be under a big expense. He asked the Counsel to give his opinion on the matter.

The Attorney said that in his opinion the Board could recover from all violations of the excise law, Sunday or any other day. He asked if he should take measures to collect judgments obtained against a Mrs. Ripp and one Cole by former counsel.

Commissioner Koltz—"What is the use of the Board trying to collect from Mrs. Ripp? We can't get any money from her."

The Attorney was ordered to procure a list of those against whom judgments were standing.

Commissioner Wachmeyer said that he did not believe the excise law was attended to closely enough.

The President of the Board and Commissioners Wachmeyer and Turner were appointed a committee to confer with the Board of Health in relation to the care of patients ill with contagious diseases that their attention may be called to.

Lazy Men's Paradise.

[From an Exchange.]

Central America must be a pleasant country for a lazy man. A letter from Costa Rica tells how the people there take life easily. It takes 20 employes to run a short train of cars. All dress in gorgeous uniforms, and the conductor is resplendent in silver and gold decorations. Passengers purchase tickets on credit, and 60 days are allowed for the payment of freight bills. Out in the country goods are carried by ox teams, and it frequently takes a team a week to make 50 miles. Nobody is in a hurry, and nobody cares to do to day what can be put off until to-morrow. The necessaries of life are cheap, and long credit is forced upon the purchaser. Nobody steals anything, and a poor teamster will carry thousands of dollars many miles for 30 cents. Such a thing as highway robbery is unheard of. The people have no violent prejudice against anything except hard work, and they will do anything to help a stranger until he proves himself disagreeable. Then they will notify him to leave, and if he is slow about it they force him to go.

IN THE CHURCH PORCH.

INTELLIGENCE THAT WILL INTEREST RELIGIOUS PEOPLE HERE.

Important Events in the History of the Wurts-Street Baptist Church—Much Accomplished Since Organization—Sunday School Convention—Order of Services, Etc.

The Rev. Henry W. Sherwood, late of Syracuse, who succeeds the Rev. A. K. Fuller as Pastor of the Wurts-Street Baptist Church, will preach his first sermon here to-morrow morning. As the church over which he has been called to preside is one of the leading religious bodies in this City, it may not be out of place to briefly allude to some of the most important events in its history.

The first movement to organize a separate Baptist Church in Rondout was made in the month of September, 1840, but nothing definite was accomplished until September, 1841, when a frame church was erected on what is now the corner of Union and Post-streets, at a cost of $1,350. The lot was donated by the Delaware & Hudson Canal Company. The church was dedicated on November 28, 1841. The building has since been used as a Jewish synagogue and is still standing on the lot where first erected, although the entrance thereto has been changed.

The church society was organized and regularly constituted on February 7, 1842, with the following members: William B. Dodge, Asa Eaton, James Cheeseboro, J. H. Pettit, Charles A. Raymond, William H. Lansing, H. S. Stringham, Mrs. Rhoda A. Dodge, Mrs. William H. Lansing, Mrs. Perlina A. Eaton and Mrs. Eliza Tichenor. Of the original 11 members none remain on the church rolls. Mrs. Eliza Tichenor died during the psesent year and the rest are dead or their present places of residence are unknown. Of those uniting with the Church during the first year of its existence there remain in membership Deacon Thomas Cornell and wife, Mrs. John P. Hageman, Peter Phillips, Miss Sarah E. Decker and Miss Eliza Ann Dubois.

The Rev. Charles A. Raymond was the first Pastor. During the first 13 years the church was organized there were frequent changes in the pastorate. The minister serving for the longest time during the first eight years was the Rev. W. S. Mikels—from September 1, 1845, to March 14, 1850. The early Pastors succeeded each other as follows: Charles A. Raymond, Lewis Raymond, Henry W. Jones, David Bellamy, W. S. Mikels, A. Russell Belden, D. Taylor, Henry R. Knapp, John D. Meeson. The Rev. W. S. Relyea, Pastor of the Kingston Baptist Church, supplied the pulpit for a year, and then the succession was as follows: Charles J. Hopkins, two years; Henry V. Jones [for the second time], five years; G. W. Folwell, one and one-fourth years; E. W. Bliss, two years; James Cooper, eight years; William M. Kincaid, three and one-half years; Andrew K. Fuller, seven years, and now Henry W. Sherwood.

In April, 1859, it was decided to sell the first church building and erect a new one. The Hon. Thomas Cornell donated the lot, on the corner of Spring, Wurts and Pierpont-streets. The building, which was of brick, was dedicated on January 30, 1861. The parsonage was erected in 1864 and the Sunday School annex building in 1872. In the summer and fall of 1880 the edifice was enlarged to its present size and rededicated on November 23, 1880. The church and parsonage are now valued at $65,000, and the property is situated in the best portion of that part of the City known as Rondout.

The affairs of the church have been well managed during the last quarter of a century and notwithstanding the many works of benevolence accomplished, the organization has been kept free from debt. When the Rev. A. K. Fuller, after a seven years' pastorate, announced his intention to remove to another field on account of his health much was done to show the appreciation the members of the church had of his Christian work while he was their Pastor and a purse containing a goodly sum of money was placed in his hands to bear the expense of the removal of himself and family to his new charge. The interval between the going of the Rev. Mr. Fuller and the coming of his successor was taken advantage of by the members of the church to make improvements to the church and parsonage upon which about $3,000 have been expended. The large shade trees near the Parsonage have been removed and a new and neat fence has been erected about it. The exterior of the building has been painted and interior painted and papered. A new hot-air heater has been erected in the cellar and bath rooms have been arranged with hot and cold water and a new cooking range has been placed in the kitchen. The new Pastor will have one of the most comfortable homes in the City. The church edifice has been fitted with pipes and radiators throughout and will hereafter be heated with steam as will also the Sunday School Hall. This will add to the comfort of attendants. All the carpets of the church audience room and Sunday School Hall have been taken up and renovated and the exterior of the church has been painted. The large pipe organ has been thoroughly overhauled and new pipes supplied. A new and pretty gilded ornament has been placed upon the apex of the church spire, which adds to the outward appearance of the edifice.

OTHER RELIGIOUS MATTERS.

The Highland Ciericus, an organization of Episcopal clergymen in Ulster, Dutchess and Orange Counties, will convene at Marlborough on Tuesday afternoon. The Rev. S. M. Ackerly will read an essay. Blood Poison.

"I am not interested in Hood's Sarsaparilla. I bought and paid for all I used. This testimonial I give for the benefit of those affected with any disorder of the blood.

"Four years ago on a warm day I handled a lot of boards covered with poison ivy. I soon had all the symptoms of ivy poisoning, and it spread all over me till I was scab from head to feet, with

Intense Heat and Itching.

My skin peeled, my hair and whiskers came out, my finger nails came off. Physicians succeeded in drying it up at times, only to have it break out again when I got a little warmed up from exercise. I was finally obliged to give up work. and was confined to the house two months. One physician said I would die, and I had given up hope. Mother urged me to try Hood's Sarsaparilla, and I took one bottle before I saw any special effect. Then the old skin began to peel off, and the

New Skin Was Soft and Moist.

Then I bought six bottles for five dollars; took three bottles and was apparently well. But the next summer in warm weather, when I got my blood warmed up, the poisoning would come out again in spots and burn and itch. Then I took the two other bottles of Hood's Sarsaparilla, and for two years I have been entirely free from any symptoms of the poisoning. I can recommend Hood's Sarsaparilla as the best blood purifier." GEO. W. VUNK, Depot Master, Brockport, N. Y.

THE SHOW AT THE CITY HALL

DOINGS OF THE MAYOR AND THE ALDERMEN LAST NIGHT.

The Wide-Tire Ordinance is Passed—The Mayor Leaves the Chair and Makes Another "Speech"—Aldermen's Rights—The Proceedings in Detail.

John Newkirk, the Mayor of this City, was again the chief actor in a farcical scene in the Common Council last night. After calling Alderman Kraft to the Chair he made a disjointed haraugue on the wide-tire question, ancient history, Connecticut Blue Laws, etc. After he had "spoken his little piece" he resumed his Chair, to the great relief of the Aldermen and the crowd on the benches.

Several times during the session Aldermen asked to have their motions entertained, but the Mayor ruled them out of order.

The routine report follows:

All the Aldermen were present except Alderman Cordts. The Mayor presided.

The Mayor stated he had appointed Dr. George C. Basten, of the Third Ward, and Dr. Walter D. Hasbrouck, of the Fifth Ward, as members of the Board of Health.

Alderman Dolson moved their confirmation.

Alderman Dederick moved the matter be laid on the table.

Alderman Brinnier moved an amendment to substitute the names of Dr. George C. Smith and John R. Stebbins as members of the Board of Health.

The Mayor—"I declare that out of order."

Alderman Brinnier appealed from the decision.

The Mayor said he had the right to name the members of the Board of Health, and while making a speech, Alderman Brinnier arose to a point of order that the Mayor was not explaining his decision.

Alderman Dolson spoke in favor of the appointments.

Alderman Brinnier insisted upon his appeal and the Mayor declared the appeal out of order.

Alderman Brinnier appealed from the decision which ruled the appeal out of order.

The Mayor spoke on the question and Alderman Brinnier inquired: "Do you refuse to entertain the appeal?"

The Mayor stated that he did.

Alderman Brinnier—"I move as an amendment that Alderman Weiss be called to the Chair."

The Mayor—"When you want to put another man in my chair—take away the rights given to me by the charter, I would like to see you at it."

The amendment of Alderman Dederick, that the confirmation of the appointments be laid over until the next meeting, was lost, and the resolution of Alderman Dolson confirming the appointments was carried. Ayes 10, noes 7.

A letter from the City Clerk of Middletown inviting the Mayor and Common Council to attend the annual parade of the Fire Department of that City on October 10, was read. The invitation was accepted.

A communication from Weber Hose Company, asking that a leakage of gas in the engine-house be checked, was read. The matter was referred to the Committee on Repairs and Supplies.

On motion of Alderman North, F. Madden, who furnishes broken stone to the City, was requested to give the City a statement of the amount of stone that had been delivered in order that it may be determined whether the old contract had been filled or not.

A bill of Officer C. D. Westbrook, Jr., was referred to the Corporation Counsel.

A bill of William Schlade for injury to a horse was referred to a committee consisting of Aldermen Thompson and Beck and the Corporation Counsel.

An estimate of the City Engineer that there is due Francis Kernan, contractor of First Ward sewers, $7,956.68, was read, and on motion of Alderman Dederick the report was received and an improvement certificate ordered issued.

Alderman Dederick moved the matter of extending water main to Down-street be referred to the Committee on Water Supply. He said the principal use the water would be put to would be in the creamery.

Alderman Kraft—"Is it for the purpose of watering the milk?"

Alderman Dederick—"No, for washing bottles."

The resolution was carried.

On motion of Alderman Thompson the Street Superintendent was directed to cover up a portion of the Ravine-street sewer near Spring-street.

Alderman Gallagher moved Murray-street be top-dressed from Hasbrouck to Delaware-avenues.

Alderman Coogan moved the streets be repaired in rotation as per resolution regarding the same.

Alderman Gallagher accepted the amendment. Carried.

Alderman Coogan moved that a cross-walk be placed on Washington-avenue between Lucas-avenue and North Front-street. Carried.

Alderman Purvis moved the Street Superintendent dig out the ditch and repair the roadway on the Rosendale road near the John Kidd residence. Carried.

Alderman Beck moved that the Street Superintendent top-dress Mill-street from Union to Hasbrouck-avenues. Carried.

Alderman Dederick moved that the Street Superintendent raise the cross-walk lying across Hasbrouck-avenue on the east side of Foxhall-avenue. Carried.

Alderman Kraft moved that the City Clerk advertise for proposals for the construction of a surface water drain in the First Ward. Carried.

Alderman Kraft moved that the Committee on Water Supply notify the Water Company to connect the City water with flushing tanks in First Ward in accordance with contract, and report to the Common Council at the next meeting whether connections have been made.

Alderman Coogan moved an amendment that a Committee wait on the Water Company and make necessary arrangements for water for flushing tanks.

Alderman Wieber moved the Corporation Counsel as a substitute. It was carried to refer it to the Corporation Counsel.

On motion of Alderman Wieber John Hussey, Jr., was appointed Inspector of Elections of the Sixth Ward in place of E. D. Brandow, who has moved out of the ward.

On motion of Alderman North Wilbur Hale was appointed Inspector of Elections in the Sixth Ward in place of M. D. Youngman, resigned.

Alderman Brinnier moved the Street Superintendent top-dress Prospect-street from Greenkill-avenue to St. James-street. Carried.

Alderman Beck moved that the Common Council reconsider the vote taken at the last meeting in relation to the wide-tire ordinance.

The Mayor decided he was out of order, because he was not present at the last meeting.

Alderman Coutant made the same motion with like result.

The Mayor said the Blue Book was his authority for the ruling.

Alderman Brinnier—"I move it be reconsidered."

The Mayor said he did not propose that the Alderman of the Ninth should dictate.

Alderman Brinnier called the Mayor to order saying: "You have no business to make a speech while in the Chair, but have only the right to state the question."

The Mayor told Alderman Brinnier to take his seat, saying: "You are not the Mayor of this City."

Alderman Brinnier appealed from the decision of the Chair.

The Mayor ruled it out of order.

Alderman Brinnier said the Common Council had a right to make their own rules.

The Mayor said they would have to change the rules before a vote could be taken.

Alderman Brinnier moved the repeal of so much of Rule Six as requires a person voting in the majority on a question to move a reconsideration.

The Mayor—"You want a two-thirds vote on that."

Alderman Brinnier—"Only 10 votes."

Alderman Weiss moved the resolution be laid on the table. Lost. A vote was taken on the resolution of Alderman Brinnier and it was lost.

Alderman Hamburger—"I move to reconsider the wide-tire ordinance." Carried, 15 voting in the affirmative, Aldermen Weiss and Coutant voting in the negative.

Alderman Dederick—"I move the adoption of the ordinance."

The Mayor directed the Clerk to read the ordinance.

The wide-tire ordinance was then read. It contained a clause: "This shall not be construed to apply to any stone tramway in the City of Kingston," to take effect April 10, 1890.

Alderman Dederick moved the adoption of the ordinance.

"The Mayor declared it out of order saying: "The ordinance is not admissible under the charter. I will call for the decision of the Corporation Counsel."

Alderman Dederick—"I appeal from your decision."

The Mayor said: The Corporation Counsel is the legal adviser of the Mayor, and I claim I have the right to ask his advice about this ordinance."

Alderman Dederick said the Corporation Counsel had given his opinion twice on the question, that it can become a law.

The Mayor insisted that the Corporation Counsel should give his opinion.

Alderman TenBroeck asked whether the Corporation Counsel was employed solely by the Mayor or by the Common Council.

The Mayor—"By the City of Kingston."

Alderman Beck moved the Corporation Counsel be excused. Lost.

Corporation Counsel Hasbrouck said: "I would like to give the Mayor my opinion under ordinary circumstances, but recognizing as I do the hostility of the Mayor to this ordinance on the one hand, and the favor of some of the members of the Common Council for it on the other, since my employment arises from the Common Council, I feel my opinion ought to be requested by them before I give it."

The Mayor—"I shall now declare the ordinance out of order."

Alderman Dederick—"I appeal from your decision."

The Mayor—"Now I believe I have the right to the floor."

Alderman Dederick—"You will please call some brother to the chair."

The Mayor—"I call Alderman Dederick to order." The Mayor then proceeded to make a speech.

Alderman Kraft asked him if he considered himself in order, and the Mayor said he was.

The Mayor—"This ordinance is not admissible under the charter. At page 29 the Charter says that the Common Council shall not have the power to prescribe a penalty of more than $100. The penalty stated in this ordinance is $200. I therefore declare it out of order."

Alderman Brinnier moved the speech of the Mayor be limited to three minutes.

The Mayor—"This Common Council has no right to pass that ordinance until they have the Charter amended."

Alderman Dederick—"In 1888 the act was changed so as to allow the Common Council to impose penalties not to exceed $200.

The Mayor—[In surprise.] "When?"

Corporation Counsel Hasbrouck—"The laws of 1888."

Alderman Brinnier to the Mayor—"You are behind the times."

Corporation Counsel Hasbrouck stated the law, the bill for which he had drawn up himself by the direction of the Common Council.

Alderman Dederick—"I call for my appeal."

Mayor Newkirk—"If the statute says $200 I declare the ordinance in order."

The Mayor stated the question and calling Alderman Kraft to the chair, took the floor and commenced to address the Common Council.

The Mayor—"The ordinance is obnoxious; it is oppressive and tyrannical. It is more tyrannical than was the tax upon the tea, by the British Government."

Alderman Coutant—"Is not the Mayor out of order? I rise to a point of order on the tea. The tea is not relevant."

The Mayor continuing—"It is more oppressive than the tax put upon tea by the British Government and thrown overboard in the Boston harbor in the days of the Revolution—"

Alderman Coutant—"I rise to a point of order."

The point of order was decided not well taken. An appeal was taken from the decision of the Chair by Alderman Coutant. The Chair was sustained.

Alderman Coutant—"I move he be limited to two minutes."

The Mayor—"I can't get through in two minutes."

Alderman Beck—"Let it be 10 minutes."

The Mayor—"It is more oppressive than the blue laws of Connecticut, which made it a misdemeanor to appear upon the streets of New-Haven and Hartford—."

Alderman Coutant—"Isn't he out of order? We have nothing to do with the laws of Connecticut. We are on the wide-tire ordinance question."

The Mayor—"It is more oppressive than the blue laws of Connecticut which made it a misdemeanor for a man to appear upon the streets of Hartford and New-Haven smoking. This is depriving a man of his rights upon the highway. Sir Patrick Henry said: 'Give me liberty or give me death!' The public press have attacked me upon the right and upon the left. They attacked my father for acts committed about a century ago; they said he lived in Hurley and bored the Hurley Mountains, Hurley, the land of butter, milk and pot-cheese. I was born in the town of Hurley, August 11, 1839—."

Alderman Coutant—"I don't think it is necessary for the Mayor to give a history of his life, this is the wide-tire ordinance we are talking about."

Alderman Kraft to the Mayor—"Keep as near to the question as possible."

The Mayor—"Captain Cornelius Newkirk was a man of iron nerve; he commanded one of the largest military companies——"

Alderman Coutant—"I rise to a point of order."

Alderman Brinnier—"I object to the interference of the Ninth. The Mayor inherited that iron nerve."

The Mayor—"Have I the right to proceed?"

The Chair—"You have the floor."

The Mayor—"The membership of that company extended all over Ulster County, ——"

Alderman Coutant, to the Chair—"I appeal from your decision."

A vote was taken on the appeal and the Chair was sustained.

Alderman Coutant—"I move the previous question."

The Mayor—"I rise to a point of order."

Alderman Kraft, from the Chair—"You are out of order. The question before the house is 'Shall the main question be now put?'"

The Mayor—"The Alderman from the Ninth has undertaken to shut me off."

Alderman Brinnier—"The Mayor had the floor and there is where the iron nerve came in."

Alderman Coutant—"He didn't have the floor because I called him to order."

Alderman Kraft stated the question: "Shall the main question be now put?"

The Mayor—"Then I am entitled to take my seat. If I am not in order I'll take the chair." Alderman Kraft vacated the chair and Mayor Newkirk took his seat.

Alderman Brinnier—"Don't allow them to take the nerve out of you."

The Mayor—"It is a very ungentlemanly way of interposing the gag law and would be thought so if he took the same method."

Alderman Coutant—"Are you in order?"

The Mayor—"I call the gentleman to order."

Alderman Coutant—"I think the Mayor better come to order."

The Mayor stated the question before the house was the resolution of Alderman Dederick to adopt the ordinance. A vote was taken, and resulted ayes 11, noes 6. Those in the affirmative, TenBroeck, Kraft, Dederick, Murray, Beck, Wieber, North, Thompson, Purvis, Brinnier, Coutant. Noes, Dolson, Goodsell, Gallagher, Hamburger, Weiss, Coogan.

The Mayor declared the ordinance adopted.

Alderman Murray moved the adoption of an ordinance for curbing, guttering and flagging sidewalk on a portion of Tompkins-street, between Union and Yeomans-streets.

On motion of Alderman Gallagher it was adopted.

On motion of Alderman Thompson it was decided when the Common Council adjourn it be for two weeks.

On motion of Alderman North the Common Council proceeded to designate polling-places for the coming election, resulting as follows:

First Ward, Fireman's Hall, Fair-street.
Second Ward, City Hall.
Third Ward, Greeley House.
Fourth Ward, Stein-r's Hall.
Fifth Ward, Mill-Street Engine House.
Sixth Ward, Abeel-Street Engine House.
Seventh Ward, Hone-Street Engine House.
Eighth Ward, Scott's, on Wall-street.
Ninth Ward, Clinton-Avenue Engine House.

Alderman Weiber moved to take up the ordinance for a sewer on Livingston-street. Carried.

Alderman Weiber moved the adoption of the ordinance.

Alderman Beck said there were remonstrances against it.

Alderman Brinnier moved to lay it over until the next meeting. Carried.

Alderman Dederick moved the sliding doors be taken off the book-cases in the Girls' Library Room in the City Hall. Carried.

Alderman North, of the Committee on Auditing Accounts, reported a number of bills. Warrants were ordered issued as soon as money was in the hands of the Treasurer.

Alderman Brinnier moved that the Ulster & Delaware Railroad be required to extend their bridge at the junction of Delaware and Hasbrouck-avenues.

Alderman Murray moved its adoption. After a discussion a resolution of Alderman Coutant that it be laid on the table was carried.

Alderman Brinnier, of the Street Committee, reported work finished on a portion of Chestnut-street. The report was received.

Alderman Coutant moved that an improvement certificate be issued to the contractor doing the work on Chestnut-street. Carried.

Alderman Wieber moved that the City Engineer report.

At this time a number of Aldermen became restive, left their seats and seeing that the house would soon lack a quorum, a motion was hastily made to adjourn, which was carried.

MINOR NOTES AROUND THIS CITY.

What People Found to Talk About This Fifth Day of October.

In the Court of Sessions the case of The People vs. Robinson was concluded yesterday afternoon. The jury was out until 7:30 o'clock, when they rendered a verdict of grand larceny in the second degree. The defendant will be sentenced Monday. In the case of The People vs. William H. Nock, a demurrer was argued. The defendant is indicted for obtaining goods from the hardware firm of Sahler, Reynolds & Webster, by false representations as to his solvency. The demurrer was denied. A plea of not guilty was entered. Court adjourned until Monday at 11 o'clock A. M.

A little tot in Rondout whose ideas of crickets were received from the large wooden "crickets" used as toys by children, was much pertabed by one getting in the house the other night. She wanted to know of her papa if it would make more noise if he would "get it and swing it around a little."

Another hearing in the McGinnis vs. McGinnis partition reference case will be held before Referee John J. Linson on Monday.

The delightful weather of to day brought many people into town to do their fall trading and merchants were kept busy.

The Democratic County Convention will be held at the Court House, in Kingston, on Wednesday, October 26, at noon.

The old-time schottische, it is said, will be popular at balls and parties the coming winter.

There will be a Special Term of the Supreme Court at Chambers on October 12.

Fall freighting is expected to continue lively until the closing of navigation.

Stoves are going up. This does not refer to the price.

The last quarter post of the year has been passed.

There was a heavy white frost this morning.

TIDINGS OF BOATS AND BOATMEN.

A Boat Sunk in the Rondout Creek—Coal Tonnage at Tide-water.

A Western canal boat called the John Burt, owned by Captain Malloy, which was being laden with cement at the New-York & Rosendale Cement Company's dock, near Wilbur, sprang aleak last night and sank, with about 1,200 barrels of cement on board.

The whistle of the steamboat "James W. Baldwin" was blown at the mouth of the Rondout Creek at 10:30 o'clock last night.

There arrived at tidewater at Eddyville yesterday 25 Delaware & Hudson Canal boats laden with 3,250 tons of coal.

The schooner Minnie C. Post is in the Rondout Creek with a cargo of Sing Sing lime.

Affairs of Societies.

When the Grand Lodge, Knights of Pythias, meets here next year, it will find three of the largest organizations of that order in the United States. The fact that one-third of the total growth of the order is credited to Ulster County shows that Pythian Knights here have been working zealously. The total number of Knights in this City is nearly 800.

Eight hundred Odd Fellows attended the institution of Riverview Lodge, at Fishkill Landing on Wednesday afternoon

The Second degree will be conferred in Rondout Lodge, No. 343, F. & A. M., on Monday evening.

The Marine Engineers' Beneficial Association now has a membership of over 50.

The First Wards Sewers.

The Commission on First Ward sewers held a session to-day, at the Court House. Testimony was taken principally in reference to the James and Alice Scott property on Warren-street. James Scott testified that the main sewer would run through the property in question about 210 feet, and the damage would be about $250. Charles E. Johnston said that the damage would be about $350. City Engineer Sears and City Clerk Schepmoes gave testimony in regard to the adoption of the maps by the Common Council and general line of the sewer. The case was adjourned to October 18.

Yom Kippur.

The observance of Yom Kippur was begun by the Jewish population here last evening, and it will end this evening. Services were held in the Synagogue of the Congregation Emanuel to-day. The Rev. D. Wolff officiated. The services will end with the blowing of the sophar, which indicates that the fast is over. Yom Kippur is a solemn observance in the Jewish ritual, during which neither food nor drink is partaken of by Orthodox Jews.

Three Children's Lucky Escape.

While three children—John Gallagher, Frank Loughran and Mary Gallagher—were riding in a village cart down Fair-street extension this afternoon, the horse became frightened and went over the embankment, a distance of 20 or 30 feet. The children were found under the cart, and strange to say, were only slightly bruised. The cart was broken. The horse was unhurt.

Change of Time-Table.

On and after to-morrow the ferry-boat Transport will leave Rondout at 6:40 o'clock A. M., instead of 8:20 A. M., as heretofore, to connect with the Cincinnati Express, which will leave Rhinebeck at 7:17 A. M., instead of 8:42 A. M. as heretofore.

In Recorder's Court.

A young man named Michael Wall was arraigned on complaint of Mrs. George Bowers, charged with assault. Wall was fined $5.

A Fish Story.

A German carp weighing 10 pounds was found in a pond of Daniel Budd, of Goshen, when the water was drained a few days ago

BOARD OF ALMS COMMISSIONERS.

More Talk About Violations of the Excise Law—Bill Ordered Paid, Etc.

The Board of Alms Commissioners held a meeting at the City Hall last night. There were present George L. Wachmeyer, William H. Turner, Henry Tietjen, James L. VanDeusen, Henry Koltz, William B. Scott, Secretary, and E. D. Brandow, Attorney for the Board. Mr. Wachmeyer presided.

Commissioner Tietjen called the attention of the Board to a bill for $36.80 claimed by one Theodore Mitchell for taking care of a scarlet fever patient in a shanty at Steep Rocks. This bill was referred to the Board of Health at the last meeting of that body and was rejected. Mr. Tietjen said: "This man Mitchell is ill with consumption at Steep Rocks. He is without friends and money. It is strange if this Board or the Health Board cannot pay him. I can make affidavit that one of the members of the Health Board told me that Mitchell was engaged to take care of the patient by Sanitary Inspector TenBroeck. Inspector TenBroeck himself told me as much. What more evidence do you want. Somebody has got to pay; there is no use haggling about it. It Mitchell can be got to Canada where his friends are the City will be money in."

On motion of Commissioner Turner the bill was ordered to be paid.

In relation to placing chronic insane in the asylums in other states the Secretary said that he received word from institutions in Philadelphia, Hartford, Conn., and Middletown, Conn., to the effect that there was no room for outside patients.

Commissioner Turner read the requisition for supplies for October and they were granted.

Excise matters were talked about. The Attorney gave the number of cases now pending against violators.

Commissioner Wachmeyer said he did not believe that if actions were begun for Sunday violations that the Board could recover one cent of the penalty if the party whom action was brought against was found guilty, as the case would be a criminal one, and the fine would go into the Court fund. In the end, if this was so, the Board would be under a big expense. He asked the Counsel to give his opinion on the matter.

The Attorney said that in his opinion the Board could recover from all violations of the excise law, Sunday or any other day. He asked if he should take measures to collect judgments obtained against a Mrs. Ripp and one Cole by former counsel.

Commissioner Koltz—"What is the use of the Board trying to collect from Mrs. Ripp? We can't get any money from her."

The Attorney was ordered to procure a list of those against whom judgments were standing.

Commissioner Wachmeyer said that he did not believe the excise law was attended to closely enough.

The President of the Board and Commissioners Wachmeyer and Turner were appointed a committee to confer with the Board of Health in relation to the care of patients ill with contagious diseases that their attention may be called to.

HUDSON RIVER RIPPLES BY MAIL, ETC.

News on the East and West Banks of the Hudson and Inland.

Poughkeepsie firemen are gradually getting a reputation as prize-winners at parades. At Rhinebeck Foreman Peter Stellar was awarded a pair of slippers for having the largest feet, and Daniel Mathis, of the same company, a smoking cap for being the tallest fireman in the parade.

A lecture course will be given in Academy Hall, Kingston Academy, commencing November 26. There are five lectures announced.

Amusement Notes.

On Monday evening the Delmore Theatrical Company will open a week's engagement at Liscomb's Opera House. Miss Florence Hastings is the leading actress.

Green's Colored Minstrels will appear at Kingston Opera House October 10. This company was formerly the Haverly Minstrels.

Lazy Men's Paradise.

[From an Exchange.]

Central America must be a pleasant country for a lazy man. A letter from Costa Rica tells how the people there take life easily. It takes 20 employes to run a short train of cars. All dress in gorgeous uniforms, and the conductor is resplendent in silver and gold decorations. Passengers purchase tickets on credit, and 60 days are allowed for the payment of freight bills. Out in the country goods are carried by ox teams, and it frequently takes a team a week to make 50 miles. Nobody is in a hurry, and nobody cares to do to day what can be put off until to-morrow. The necessaries of life are cheap, and long credit is forced upon the purchaser. Nobody steals anything, and a poor teamster will carry thousands of dollars many miles for 30 cents. Such a thing as highway robbery is unheard of. The people have no violent prejudice against anything except hard work, and they will do anything to help a stranger until he proves himself disagreeable. Then they will notify him to leave, and if he is slow about it they force him to go.

IN THE CHURCH PORCH.

INTELLIGENCE THAT WILL INTEREST RELIGIOUS PEOPLE HERE.

Important Events in the History of the Wurts-Street Baptist Church—Much Accomplished Since Organization—Sunday School Convention—Order of Services, Etc.

The Rev. Henry W. Sherwood, late of Syracuse, who succeeds the Rev. A. K. Fuller as Pastor of the Wurts-Street Baptist Church, will preach his first sermon here tomorrow morning. As the church over which he has been called to preside is one of the leading religious bodies in this City, it may not be out of place to briefly allude to some of the most important events in its history.

The first movement to organize a separate Baptist Church in Rondout was made in the month of September, 1840, but nothing definite was accomplished until September, 1841, when a frame church was erected on what is now the corner of Union and Post-streets, at a cost of $1,350. The lot was donated by the Delaware & Hudson Canal Company. The church was dedicated on November 28, 1841. The building has since been used as a Jewish synagogue and is still standing on the lot where first erected, although the entrance thereto has been changed.

The church society was organized and regularly constituted on February 7, 1842, with the following members: William B. Dodge, Asa Eaton, James Cheeseboro, J. H. Pettit, Charles A. Raymond, William H. Lansing, H. S. Stringham, Mrs. Rhoda A. Dodge, Mrs. William H. Lansing, Mrs. Perlina A. Eaton and Mrs. Eliza Tichenor. Of the original 11 members none remain on the church rolls. Mrs. Eliza Tichenor died during the pesent year and the rest are dead or their present places of residence are unknown. Of those uniting with the Church during the first year of its existence there remain in membership Deacon Thomas Cornell and wife, Mrs. John P. Hageman, Peter Phillips, Miss Sarah E. Decker and Miss Eliza Ann Dubois.

The Rev. Charles A. Raymond was the first Pastor. During the first 13 years the church was organized there were frequent changes in the pastorate. The minister serving for the longest time during the first eight years was the Rev. W. S. Mikels—from September 1, 1845, to March 14, 1850. The early Pastors succeeded each other as follows: Charles A. Raymond, Lewis Raymond, Henry W. Jones, David Bellamy, W. S. Mikels, A. Russell Belden, D. Taylor, Henry R. Knapp, John D. Meeson. The Rev. W. S. Relyea, Pastor of the Kingston Baptist Church, supplied the pulpit for a year, and then the succession was as follows: Charles J. Hopkins, two years; Henry V. Jones [for the second time], five years; G. W. Fotwell, one and one-fourth years; E. W. Bliss, two years; James Cooper, eight years; William M. Kincaid, three and one-half years; Andrew K. Fuller, seven years, and now Henry W. Sherwood.

In April, 1859, it was decided to sell the first church building and erect a new one. The Hon. Thomas Cornell donated the lot, on the corner of Spring, Wurts and Pierpont-streets. The building, which was of brick, was dedicated on January 30, 1861. The parsonage was erected in 1864 and the Sunday School annex building in 1872. In the summer and fall of 1880 the edifice was enlarged to its present size and rededicated on November 23, 1880. The church and parsonage are now valued at $65,000, and the property is situated in the best portion of that part of the City known as Rondout.

The affairs of the church have been well managed during the last quarter of a century and notwithstanding the many works of benevolence accomplished, the organization has been kept free from debt. When the Rev. A. K. Fuller, after a seven years' pastorate, announced his intention to remove to another field on account of his health much was done to show the appreciation the members of the church had of his Christian work while he was their Pastor and a purse containing a goodly sum of money was placed in his hands to bear the expense of the removal of himself and family to his new charge. The interval between the going of the Rev. Mr. Fuller and the coming of his successor was taken advantage of by the members of the church to make improvements to the church and parsonage upon which about $3,000 have been expended. The large shade trees near the Parsonage have been removed and a new and neat fence has been erected about it. The exterior of the building has been painted and interior painted and papered. A new hot-air heater has been erected in the cellar and bath rooms have been arranged with hot and cold water and a new cooking range has been placed in the kitchen. The new Pastor will have one of the most comfortable homes in the City. The church edifice has been fitted with pipes and radiators throughout and will hereafter be heated with steam as will also the Sunday School Hall. This will add to the comfort of attendants. All the carpets of the church audience room and Sunday School Hall have been taken up and renovated and the exterior of the church has been painted. The large pipe organ has been thoroughly overhauled and new pipes supplied. A new and pretty gilded ornament has been placed upon the apex of the church spire, which adds to the outward appearance of the edifice.

Blood Poison.

"I am not interested in Hood's Sarsaparilla. I bought and paid for all I used. This testimonial I give for the benefit of those affected with any disorder of the blood.

"Four years ago on a warm day I handled a lot of boards covered with poison ivy. I soon had all the symptoms of ivy poisoning, and it spread all over me till I was scab from head to feet, with

Intense Heat and Itching.

My skin peeled, my hair and whiskers came out, my finger nails came off. Physicians succeeded in drying it up at times, only to have it break out again when I got a little warmed up from exercise. I was finally obliged to give up work, and was confined to the house two months. One physician said I would die, and I had given up hope. Mother urged me to try Hood's Sarsaparilla, and I took one bottle before I saw any special effect. Then the old skin began to peel off, and the

New Skin Was Soft and Moist.

Then I bought six bottles for five dollars; took three bottles and was apparently well. But the next summer in warm weather, when I got my blood warmed up, the poisoning would come out again in spots and burn and itch. Then I took the two other bottles of Hood's Sarsaparilla, and for two years I have been entirely free from any symptoms of the poisoning. I can recommend Hood's Sarsaparilla as the best blood purifier." Geo. W. Vunk, Depot Master, Brockport, N. Y.

THE SHOW AT THE CITY HALL

DOINGS OF THE MAYOR AND THE ALDERMEN LAST NIGHT.

The Wide-Tire Ordinance is Passed—The Mayor Leaves the Chair and Makes Another "Speech"—Aldermen's Rights—The Proceedings in Detail.

John Newkirk, the Mayor of this City, was again the chief actor in a farcical scene in the Common Council last night. After calling Alderman Kraft to the Chair he made a disjointed harangue on the wide-tire question, ancient history, Connecticut Blue Laws, etc. After he had "spoken his little piece" he resumed his Chair, to the great relief of the Aldermen and the crowd on the benches.

Several times during the session Aldermen asked to have their motions entertained, but the Mayor ruled them out of order.

The routine report follows:

All the Aldermen were present except Alderman Cordts. The Mayor presided.

The Mayor stated he had appointed Dr. George C. Basten, of the Third Ward, and Dr. Walter D. Hasbrouck, of the Fifth Ward, as members of the Board of Health.

Alderman Dolson moved their confirmation.

Alderman Dederick moved the matter be laid on the table.

Alderman Brinnier moved an amendment to substitute the names of Dr. George C. Smith and John R. Stebbins as members of the Board of Health.

The Mayor—"I declare that out of order."

Alderman Brinnier appealed from the decision.

The Mayor said he had the right to name the members of the Board of Health, and while making a speech, Alderman Brinnier arose to a point of order that the Mayor was not explaining his decision.

Alderman Dolson spoke in favor of the appointments.

Alderman Brinnier insisted upon his appeal and the Mayor declared the appeal out of order.

Alderman Brinnier appealed from the decision which ruled the appeal out of order.

The Mayor spoke on the question and Alderman Brinnier inquired: "Do you refuse to entertain the appeal?"

The Mayor stated that he did.

Alderman Brinnier—"I move as an amendment that Alderman Weiss be called to the Chair."

The Mayor—"When you want to put another man in my chair—take away the rights given to me by the charter, I would like to see you at it."

The amendment of Alderman Dederick, that the confirmation of the appointments be laid over until the next meeting, was lost, and the resolution of Alderman Dolson confirming the appointments was carried. Ayes 10, noes 7.

A letter from the City Clerk of Middletown inviting the Mayor and Common Council to attend the annual parade of the Fire Department of that City on October 10, was read. The invitation was accepted.

A communication from Weber Hose Company, asking that a leakage of gas in the engine-house be checked, was read. The matter was referred to the Committee on Repairs and Supplies.

On motion of Alderman North, F. Madden, who furnishes broken stone to the City, was requested to give the City a statement of the amount of stone that had been delivered in order that it may be determined whether the old contract had been filled or not.

A bill of Officer C. D. Westbrook, Jr., was referred to the Corporation Counsel.

A bill of William Schlade for injury to a horse was referred to a committee consisting of Aldermen Thompson and Beck and the Corporation Counsel.

An estimate of the City Engineer that there is due Francis Kernan, contractor of First Ward sewers, $7,956.68, was read, and on motion of Alderman Dederick the report was received and an improvement certificate ordered issued.

Alderman Dederick moved the matter of extending water main to Down-street be referred to the Committee on Water Supply. He said the principal use the water would be put to would be in the creamery.

Alderman Kraft—"Is it for the purpose of watering the milk?"

Alderman Dederick—"No, for washing bottles."

The resolution was carried.

On motion of Alderman Thompson the Street Superintendent was directed to cover up a portion of the Ravine-street sewer near Spring-street.

Alderman Gallagher moved Murray-street be top-dressed from Hasbrouck to Delaware-avenues.

Alderman Coogan moved the streets be repaired in rotation as per resolution regarding the same.

Alderman Gallagher accepted the amendment. Carried.

Alderman Coogan moved that a cross-walk be placed on Washington-avenue between Lucas-avenue and North Front-street. Carried.

Alderman Purvis moved the Street Superintendent dig out the ditch and repair the roadway on the Rosendale road near the John Kidd residence. Carried.

Alderman Beck moved that the Street Superintendent top-dress Mill-street from Union to Hasbrouck-avenues. Carried.

Alderman Dederick moved that the Street Superintendent raise the cross-walk lying across Hasbrouck-avenue on the east side of Foxhall-avenue. Carried.

Alderman Kraft moved that the City Clerk advertise for proposals for the construction of a surface water drain in the First Ward. Carried.

Alderman Kraft moved that the Committee on Water Supply notify the Water Company to connect the City water with flushing tanks in First Ward in accordance with contract, and report to the Common Council at the next meeting whether connections have been made.

Alderman Coogan moved an amendment that a Committee wait on the Water Company and make necessary arrangements for water for flushing tanks.

Alderman Wieber moved the Corporation Counsel as a substitute. It was carried to refer it to the Corporation Counsel.

On motion of Alderman Wieber John Hussey, Jr., was appointed Inspector of Elections of the Sixth Ward in place of E. D. Brandow, who has moved out of the ward.

On motion of Alderman North Wilbur Hale was appointed Inspector of Elections in the Sixth Ward in place of M. D. Youngman, resigned.

Alderman Brinnier moved the Street Superintendent top-dress Prospect-street from Greenkill-avenue to St. James-street. Carried.

Alderman Beck moved that the Common Council reconsider the vote taken at the last meeting in relation to the wide-tire ordinance.

The Mayor decided he was out of order, because he was not present at the last meeting.

Alderman Coutant made the same motion with like result.

The Mayor said the Blue Book was his authority for the ruling.

Alderman Brinnier—"I move it be reconsidered."

The Mayor said he did not propose that the Alderman of the Ninth should dictate.

Alderman Brinnier called the Mayor to order saying: "You have no business to make a speech while in the Chair, but have only the right to state the question."

The Mayor told Alderman Brinnier to take his seat, saying: "You are not the Mayor of this City."

Alderman Brinnier appealed from the decision of the Chair.

The Mayor ruled it out of order.

Alderman Brinnier said the Common Council had a right to make their own rules.

The Mayor said they would have to change the rules before a vote could be taken.

Alderman Brinnier moved the repeal of so much of Rule Six as requires a person voting in the majority on a question to move a reconsideration.

The Mayor—"You want a two-thirds vote on that."

Alderman Brinnier—"Only 10 votes."

Alderman Weiss moved the resolution be laid on the table. Lost. A vote was taken on the resolution of Alderman Brinnier and it was lost.

Alderman Hamburger—"I move to reconsider the wide-tire ordinance." Carried, 15 voting in the affirmative, Aldermen Weiss and Coutant voting in the negative.

Alderman Dederick—"I move the adoption of the ordinance."

The Mayor directed the Clerk to read the ordinance.

The wide-tire ordinance was then read. It contained a clause: "This shall not be construed to apply to any stone tramway in the City of Kingston," to take effect April 10, 1890.

Alderman Dederick moved the adoption of the ordinance.

"The Mayor declared it out of order saying: "The ordinance is not admissible under the charter. I will call for the decision of the Corporation Counsel."

Alderman Dederick—"I appeal from your decision."

The Mayor said: The Corporation Counsel is the legal adviser of the Mayor, and I claim I have the right to ask his advice about this ordinance."

Alderman Dederick said the Corporation Counsel had given his opinion twice on the question, that it can become a law.

The Mayor insisted that the Corporation Counsel should give his opinion.

Alderman TenBroeck asked whether the Corporation Counsel was employed solely by the Mayor or by the Common Council.

The Mayor—"By the City of Kingston."

Alderman Beck moved the Corporation Counsel be excused. Lost.

Corporation Counsel Hasbrouck said: "I would like to give the Mayor my opinion under ordinary circumstances, but recognizing as I do the hostility of the Mayor to this ordinance on the one hand, and the favor of some of the members of the Common Council for it on the other, since my employment arises from the Common Council, I feel my opinion ought to be requested by them before I give it."

The Mayor—"I shall now declare the ordinance out of order."

Alderman Dederick—"I appeal from your decision."

The Mayor—"Now I believe I have the right to the floor."

Alderman Dederick—"You will please call some brother to the chair."

The Mayor—"I call Alderman Dederick to order." The Mayor then proceeded to make a speech.

Alderman Kraft asked him if he considered himself in order, and the Mayor said he was.

The Mayor—"This ordinance is not admissible under the charter. At page 29 the Charter says that the Common Council shall not have the power to prescribe a penalty of more than $100. The penalty stated in this ordinance is $200. I therefore declare it out of order."

Alderman Brinnier moved the speech of the Mayor be limited to three minutes.

The Mayor—"This Common Council has no right to pass that ordinance until they have the Charter amended."

Alderman Dederick—"In 1888 the act was changed so as to allow the Common Council to impose penalties not to exceed $200.

The Mayor—[In surprise.] "When?"

Corporation Counsel Hasbrouck—"The laws of 1888."

Alderman Brinnier to the Mayor—"You are behind the times."

Corporation Counsel Hasbrouck stated the law, the bill for which he had drawn up himself by the direction of the Common Council.

Alderman Dederick—"I call for my appeal."

Mayor Newkirk—"If the statute says $200 I declare the ordinance in order."

The Mayor stated the question and calling Alderman Kraft to the chair, took the floor and commenced to address the Common Council.

The Mayor—"The ordinance is obnoxious; it is oppressive and tyrannical. It is more tyrannical than was the tax upon the tea, by the British Government—"

Alderman Coutant—"Is not the Mayor out of order? I rise to a point of order on the tea. The tea is not relevant."

The Mayor continuing—"It is more oppressive than the tax put upon tea by the British Government and thrown overboard in the Boston harbor in the days of the Revolution—"

Alderman Coutant—"I rise to a point of order."

The point of order was decided not well taken. An appeal was taken from the decision of the Chair by Alderman Coutant. The Chair was sustained.

Alderman Coutant—"I move he be limited to two minutes."

The Mayor—"I can't get through in two minutes."

Alderman Beck—"Let it be 10 minutes."

The Mayor—"It is more oppressive than the blue laws of Connecticut, which made it a misdemeanor to appear upon the streets of New-Haven and Hartford—."

Alderman Coutant—"Isn't he out of order? We have nothing to do with the laws of Connecticut. We are on the wide-tire ordinance question."

The Mayor—"It is more oppressive than the blue laws of Connecticut which made it a misdemeanor for a man to appear upon the streets of Hartford and New-Haven smoking. This is depriving a man of his rights upon the highway. Sir Patrick Henry said: 'Give me liberty or give me death!' The public press have attacked me upon the right and upon the left. They attacked my father for acts committed about a century ago; they said he lived in Hurley and bored the Hurley Mountains, Hurley, the land of butter, milk and pot-cheese. I was born in the town of Hurley, August 11, 1839—."

Alderman Coutant—"I don't think it is necessary for the Mayor to give a history of his life, this is the wide-tire ordinance we are talking about."

Alderman Kraft to the Mayor—"Keep as near to the question as possible."

The Mayor—"Captain Cornelius Newkirk was a man of iron nerve; he commanded one of the largest military companies——"

Alderman Coutant—"I rise to a point of order."

Alderman Brinnier—"I object to the interference of the Ninth. The Mayor inherited that iron nerve."

The Mayor—"Have I the right to proceed?"

The Chair—"You have the floor."

The Mayor—"The membership of that company extended all over Ulster County, ——"

Alderman Coutant, to the Chair—"I appeal from your decision."

A vote was taken on the appeal and the Chair was sustained.

Alderman Coutant—"I move the previous question."

The Mayor—"I rise to a point of order."

Alderman Kraft, from the Chair—"You are out of order. The question before the house is 'Shall the main question be now put?'"

The Mayor—"The Alderman from the Ninth has undertaken to shut me off."

Alderman Brinnier—"The Mayor had the floor and there is where the iron nerve came in."

Alderman Coutant—"He didn't have the floor because I called him to order."

Alderman Kraft stated the question: "Shall the main question be now put?"

The Mayor—"Then I am entitled to take my seat. If I am not in order I'll take the chair." Alderman Kraft vacated the chair and Mayor Newkirk took his seat.

Alderman Brinnier—"Don't allow them to take the nerve out of you."

The Mayor—"It is a very ungentlemanly way of interposing the gag law and would be thought so if he took the same method."

Alderman Coutant—"Are you in order?"

The Mayor—"I call the gentleman to order."

Alderman Coutant—"I think the Mayor better come to order."

The Mayor stated the question before the house was the resolution of Alderman Dederick to adopt the ordinance. A vote was taken, and resulted ayes 11, noes 6. Those in the affirmative, TenBroeck, Kraft, Dederick, Murray, Beck, Wieber, North, Thompson, Purvis, Brinnier, Coutant. Noes, Dolson, Goodsell, Gallagher, Hamburger, Weiss, Coogan.

The Mayor declared the ordinance adopted.

Alderman Murray moved the adoption of an ordinance for curbing, guttering and flagging sidewalk on a portion of Tompkins-street, between Union and Yeomans-streets.

On motion of Alderman Gallagher it was adopted.

On motion of Alderman Thompson it was decided when the Common Council adjourn it be for two weeks.

On motion of Alderman North the Common Council proceeded to designate polling-places for the coming election, resulting as follows:

First Ward, Fireman's Hall, Fair-street.
Second Ward, City Hall.
Third Ward, Greeley House.
Fourth Ward, Stein-r's Hall.
Fifth Ward, Mill-Street Engine House.
Sixth Ward, Abeel-Street Engine House.
Seventh Ward, Hone-Street Engine House.
Eighth Ward, Scott's, on Wall-street.
Ninth Ward, Clinton-Avenue Engine House.

Alderman Weiber moved to take up the ordinance for a sewer on Livingston-street. Carried.

Alderman Weiber moved the adoption of the ordinance.

Alderman Beck said there were remonstrances against it.

Alderman Brinnier moved to lay it over until the next meeting. Carried.

Alderman Dederick moved the sliding doors be taken off the book-cases in the Girls' Library Room in the City Hall. Carried.

Alderman North, of the Committee on Auditing Accounts, reported a number of bills. Warrants were ordered issued as soon as money was in the hands of the Treasurer.

Alderman Brinnier moved that the Ulster & Delaware Railroad be required to extend their bridge at the junction of Delaware and Hasbrouck-avenues.

Alderman Murray moved its adoption. After a discussion a resolution of Alderman Coutant that it be laid on the table was carried.

Alderman Brinnier, of the Street Committee, reported work finished on a portion of Chestnut-street. The report was received.

Alderman Coutant moved that an improvement certificate be issued to the contractor doing the work on Chestnut-street. Carried.

Alderman Wieber moved that the City Engineer report.

At this time a number of Aldermen became restive, left their seats and seeing that the house would soon lack a quorum, a motion was hastily made to adjourn, which was carried.

MINOR NOTES AROUND THIS CITY.

What People Found to Talk About This Fifth Day of October.

In the Court of Sessions the case of The People vs. Robinson was concluded yesterday afternoon. The jury was out until 7:30 o'clock, when they rendered a verdict of grand larceny in the second degree. The defendant will be sentenced Monday. In the case of The People vs. William H. Nock, a demurrer was argued. The defendant is indicted for obtaining goods from the hardware firm of Sahler, Reynolds & Webster, by false representations as to his solvency. The demurrer was denied. A plea of not guilty was entered. Court adjourned until Monday at 11 o'clock A. M.

A little tot in Rondout whose ideas of crickets were received from the large wooden "crickets" used as toys by children, was much pertubed by one getting in the house the other night. She wanted to know of her papa if it would make more noise if he would "get it and swing it around a little."

Another hearing in the McGinnis vs. McGinnis partition reference case will be held before Referee John J. Linson on Monday.

The delightful weather of to-day brought many people into town to do their fall trading and merchants were kept busy.

The Democratic County Convention will be held at the Court House, in Kingston, on Wednesday, October 26, at noon.

The old-time schottische, it is said, will be popular at balls and parties the coming winter.

There will be a Special Term of the Supreme Court at Chambers on October 12.

Fall freighting is expected to continue lively until the closing of navigation.

Stoves are going up. This does not refer to the price.

The last quarter post of the year has been passed.

There was a heavy white frost this morning.

TIDINGS OF BOATS AND BOATMEN.

A Boat Sunk in the Rondout Creek—Coal Tonnage at Tide-water.

A Western canal boat called the John Burt, owned by Captain Malloy, which was being laden with cement at the New-York & Rosendale Cement Company's dock, near Wilbur, sprang aleak last night and sank, with about 1,200 barrels of cement on board.

The whistle of the steamboat "James W. Baldwin" was blown at the mouth of the Rondout Creek at 10:30 o'clock last night.

There arrived at tidewater at Eddyville yesterday 25 Delaware & Hudson Canal boats laden with 3,250 tons of coal.

The schooner Minnie C. Post is in the Rondout Creek with a cargo of Sing Sing lime.

Affairs of Societies.

When the Grand Lodge, Knights of Pythias, meets here next year, it will find three of the largest organizations of that order in the United States. The fact that one-third of the total growth of the order is credited to Ulster County shows that Pythian Knights here have been working zealously. The total number of Knights in this City is nearly 800.

Eight hundred Odd Fellows attended the institution of Riverview Lodge, at Fishkill Landing on Wednesday afternoon

The Second degree will be conferred in Rondout Lodge, No. 343, F. & A. M., on Monday evening.

The Marine Engineers' Beneficial Association now has a membership of over 50.

The First Wards Sewers.

The Commission on First Ward sewers held a session to-day, at the Court House. Testimony was taken principally in reference to the James and Alice Scott property on Warren-street. James Scott testified that the main sewer would run through the property in question about 210 feet, and the damage would be about $250. Charles E. Johnston said that the damage would be about $350. City Engineer Sears and City Clerk Schepmoes gave testimony in regard to the adoption of the maps by the Common Council and general line of the sewer. The case was adjourned to October 18.

Yom Kippur.

The observance of Yom Kippur was begun by the Jewish population here last evening, and it will end this evening. Services were held in the Synagogue of the Congregation Emanuel to-day. The Rev. D. Wolff officiated. The services will end with the blowing of the sophar, which indicates that the fast is over. Yom Kippur is a solemn observance in the Jewish ritual, during which neither food nor drink is partaken of by Orthodox Jews.

Three Children's Lucky Escape.

While three children—John Gallagher, Frank Loughran and Mary Gallagher—were riding in a village cart down Fair-street extension this afternoon, the horse became frightened and went over the embankment, a distance of 20 or 30 feet. The children were found under the cart, and strange to say, were only slightly bruised. The cart was broken. The horse was unhurt.

Change of Time-Table.

On and after to-morrow the ferry-boat Transport will leave Rondout at 6:40 o'clock A. M., instead of 8:20 A. M., as heretofore, to connect with the Cincinnati Express, which will leave Rhinebeck at 7:17 A. M., instead of 8:42 A. M. as heretofore.

In Recorder's Court.

A young man named Michael Wall was arraigned on complaint of Mrs. George Bowers, charged with assault. Wall was fined $5.

A Fish Story.

A German carp weighing 10 pounds was found in a pond of Daniel Budd, of Goshen, when the water was drained a few days ago

BOARD OF ALMS COMMISSIONERS.

More Talk About Violations of the Excise Law—Bill Ordered Paid, Etc.

The Board of Alms Commissioners held a meeting at the City Hall last night. There were present George L. Wachmeyer, William H. Turner, Henry Tietjen, James L. VanDeusen, Henry Koltz, William B. Scott, Secretary, and E. D. Brandow, Attorney for the Board. Mr. Wachmeyer presided.

Commissioner Tietjen called the attention of the Board to a bill for $36.80 claimed by one Theodore Mitchell for taking care of a scarlet fever patient in a shanty at Steep Rocks. This bill was referred to the Board of Health at the last meeting of that body and was rejected. Mr. Tietjen said: "This man Mitchell is ill with consumption at Steep Rocks. He is without friends and money. It is strange if this Board or the Health Board cannot pay him. I can make affidavit that one of the members of the Health Board told me that Mitchell was engaged to take care of the patient by Sanitary Inspector TenBroeck. Inspector TenBroeck himself told me as much. What more evidence do you want. Somebody has got to pay; there is no use haggling about it. It Mitchell can be got to Canada where his friends are the City will be money in."

On motion of Commissioner Turner the bill was ordered to be paid.

In relation to placing chronic insane in the asylums in other states the Secretary said that he received word from institutions in Philadelphia, Hartford, Conn., and Middletown, Conn., to the effect that there was no room for outside patients.

Commissioner Turner read the requisition for supplies for October and they were granted.

Excise matters were talked about. The Attorney gave the number of cases now pending against violators.

Commissioner Wachmeyer said he did not believe that if actions were begun for Sunday violations that the Board could recover one cent of the penalty if the party whom action was brought against was found guilty, as the case would be a criminal one, and the fine would go into the Court fund. In the end, if this was so, the Board would be under a big expense. He asked the Counsel to give his opinion on the matter.

The Attorney said that in his opinion the Board could recover from all violations of the excise law, Sunday or any other day. He asked if he should take measures to collect judgments obtained against a Mrs. Ripp and one Cole by former counsel.

Commissioner Koltz—"What is the use of the Board trying to collect from Mrs. Ripp? We can't get any money from her."

The Attorney was ordered to procure a list of those against whom judgments were standing.

Commissioner Wachmeyer said that he did not believe the excise law was attended to closely enough.

The President of the Board and Commissioners Wachmeyer and Turner were appointed a committee to confer with the Board of Health in relation to the care of patients ill with contagious diseases that their attention may be called to.

Lazy Men's Paradise.

[From an Exchange.]

Central America must be a pleasant country for a lazy man. A letter from Costa Rica tells how the people there take life easily. It takes 20 employes to run a short train of cars. All dress in gorgeous uniforms, and the conductor is resplendent in silver and gold decorations. Passengers purchase tickets on credit, and 60 days are allowed for the payment of freight bills. Out in the country goods are carried by ox teams, and it frequently takes a team a week to make 50 miles. Nobody is in a hurry, and nobody cares to do to day what can be put off until to-morrow. The necessaries of life are cheap, and long credit is forced upon the purchaser. Nobody steals anything, and a poor teamster will carry thousands of dollars many miles for 30 cents. Such a thing as highway robbery is unheard of. The people have no violent prejudice against anything except hard work, and they will do anything to help a stranger until he proves himself disagreeable. Then they will notify him to leave, and if he is slow about it they force him to go.

IN THE CHURCH PORCH.

INTELLIGENCE THAT WILL INTEREST RELIGIOUS PEOPLE HERE.

Important Events in the History of the Wurts-Street Baptist Church—Much Accomplished Since Organization—Sunday School Convention—Order of Services, Etc.

The Rev. Henry W. Sherwood, late of Syracuse, who succeeds the Rev. A. K. Fuller as Pastor of the Wurts-Street Baptist Church, will preach his first sermon here to-morrow morning. As the church over which he has been called to preside is one of the leading religious bodies in this City, it may not be out of place to briefly allude to some of the most important events in its history.

The first movement to organize a separate Baptist Church in Rondout was made in the month of September, 1840, but nothing definite was accomplished until September, 1841, when a frame church was erected on what is now the corner of Union and Post-streets, at a cost of $1,350. The lot was donated by the Delaware & Hudson Canal Company. The church was dedicated on November 28, 1841. The building has since been used as a Jewish synagogue and is still standing on the lot where first erected, although the entrance thereto has been changed.

The church society was organized and regularly constituted on February 7, 1842, with the following members: William B. Dodge, Asa Eaton, James Cheeseboro, J. H. Pettit, Charles A. Raymond, William H. Lansing, H. S. Stringham, Mrs. Rhoda A. Dodge, Mrs. William H. Lansing, Mrs. Perlina A. Eaton and Mrs. Eliza Tichenor. Of the original 11 members none remain on the church rolls. Mrs. Eliza Tichenor died during the psesent year and the rest are dead or their present places of residence are unknown. Of those uniting with the Church during the first year of its existence there remain in membership Deacon Thomas Cornell and wife, Mrs. John P. Hageman, Peter Phillips, Miss Sarah E. Decker and Miss Eliza Ann Dubois.

The Rev. Charles A. Raymond was the first Pastor. During the first 13 years the church was organized there were frequent changes in the pastorate. The minister serving for the longest time during the first eight years was the Rev. W. S. Mikels—from September 1, 1845, to March 14, 1850. The early Pastors succeeded each other as follows: Charles A. Raymond, Lewis Raymond, Henry W. Jones, David Bellamy, W. S. Mikels, A. Russell Belden, D. Taylor, Henry R. Knapp, John D. Meeson. The Rev. W. S. Relyea, Pastor of the Kingston Baptist Church, supplied the pulpit for a year, and then the succession was as follows: Charles J. Hopkins, two years; Henry V. Jones [for the second time], five years; G. W. Folwell, one and one-fourth years; E. W. Bliss, two years; James Cooper, eight years; William M. Kincaid, three and one-half years; Andrew K. Fuller, seven years, and now Henry W. Sherwood.

In April, 1859, it was decided to sell the first church building and erect a new one. The Hon. Thomas Cornell donated the lot, on the corner of Spring, Wurts and Pierpont-streets. The building, which was of brick, was dedicated on January 30, 1861. The parsonage was erected in 1864 and the Sunday School annex building in 1872. In the summer and fall of 1880 the edifice was enlarged to its present size and rededicated on November 23, 1880. The church and parsonage are now valued at $65,000, and the property is situated in the best portion of that part of the City known as Rondout.

The affairs of the church have been well managed during the last quarter of a century and notwithstanding the many works of benevolence accomplished, the organization has been kept free from debt. When the Rev. A. K. Fuller, after a seven years' pastorate, announced his intention to remove to another field on account of his health much was done to show the appreciation the members of the church had of his Christian work while he was their Pastor and a purse containing a goodly sum of money was placed in his hands to bear the expense of the removal of himself and family to his new charge. The interval between the going of the Rev. Mr. Fuller and the coming of his successor was taken advantage of by the members of the church to make improvements to the church and parsonage upon which about $3,000 have been expended. The large shade trees near the Parsonage have been removed and a new and neat fence has been erected about it. The exterior of the building has been painted and interior painted and papered. A new hot-air heater has been erected in the cellar and bath rooms have been arranged with hot and cold water and a new cooking range has been placed in the kitchen. The new Pastor will have one of the most comfortable homes in the City. The church edifice has been fitted with pipes and radiators throughout and will hereafter be heated with steam as will also the Sunday School Hall. This will add to the comfort of attendants. All the carpets of the church audience room and Sunday School Hall have been taken up and renovated and the exterior of the church has been painted. The large pipe organ has been thoroughly overhauled and new pipes supplied. A new and pretty gilded ornament has been placed upon the apex of the church spire, which adds to the outward appearance of the edifice.

OTHER RELIGIOUS MATTERS.

The Highland Clericus, an organization of Episcopal clergymen in Ulster, Dutchess and Orange Counties, will convene at Marlborough on Tuesday afternoon. The Rev. S. M. Ackerly will read an essay. Blood Poison.

"I am not interested in Hood's Sarsaparilla. I bought and paid for all I used. This testimonial I give for the benefit of those affected with any disorder of the blood.

"Four years ago on a warm day I handled a lot of boards covered with poison ivy. I soon had all the symptoms of ivy poisoning, and it spread all over me till I was scab from head to feet, with

Intense Heat and Itching.

My skin peeled, my hair and whiskers came out, my finger nails came off. Physicians succeeded in drying it up at times, only to have it break out again when I got a little warmed up from exercise. I was finally obliged to give up work, and was confined to the house two months. One physician said I would die, and I had given up hope. Mother urged me to try Hood's Sarsaparilla, and I took one bottle before I saw any special effect. Then the old skin began to peel off, and the

New Skin Was Soft and Moist.

Then I bought six bottles for five dollars; took three bottles and was apparently well. But the next summer in warm weather, when I got my blood warmed up, the poisoning would come out again in spots and burn and itch. Then I took the two other bottles of Hood's Sarsaparilla, and for two years I have been entirely free from any symptoms of the poisoning. I can recommend Hood's Sarsaparilla as the best blood purifier." GEO. W. VUNK, Depot Master, Brockport, N. Y.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.
